BUILDING A CREDIBLE BRAND IN THE AGROCHEMICAL SECTOR

Our robust innovations and agile developments make us one of the leading manufacturers of agrochemicals. Our strengths include a diversified product line, premier quality, an elite client base and a diverse revenue mix.

Established in 1993, we have evolved over the years to fulfil the needs of our global clients by using our expertise to meet their quality requirements. We have a robust R&D department which has been recognised by the Department of Scientific and Industrial Research (DSIR), where we continuously strive to develop

efficient and novel processes for manufacturing high-quality pesticides and their intermediates.

Our company has commercialized 28 products since its inception and made exports to 23 countries. The processes for making all these products were developed in-house by our R&D team.

Our manufacturing plant situated at Yerajala Road, Cheruvukommupalem Village – 523272, Ongole Mandal, Prakasam District, Andhra Pradesh, India has 3 production blocks and 4 process lines for manufacturing different products. The facility has its own effluent treatment plant within the factory premises with modern equipment and adapted a zero liquid discharge system.

EMPOWERING FARMERS ACROSS GEOGRAPHIES

Our products cater to the domestic and the world markets. Countries where we export our products to are:

MACROECONOMIC TAILWINDS FOR GROWTH

Growing need for Sustainable Products

Given India's vast agro-climatic diversity and limited farmland, there is an increased need of newer products that are safe, eco-friendly and more effective.

With increasing population and evolving consumer demand and lifestyle, there is a significant need to adopt sustainable ways to maximise efficiency. On the other hand, India has low agricultural productivity because of low use of crop protection chemicals.

Therefore in a bid to increase the agricultural output the government has been providing support to increase awareness and production of eco-friendly products. The government has also introduced PLI schemes to boost the production of eco-friendly products.

An increased focus on innovation

With the growing demand for various agrochemical products, the market's major players are focusing on R&D investments, deliver products that will cater to the evolving needs of consumers, and simultaneously focusing on investing in innovations, collaborations, and expansions in order to increase their market share through mergers, acquisitions and partnerships. Innovation efforts have also become aggressive to make India an agrochemical manufacturing hub.

Government initiatives

The contribution of the agriculture sector to India's GDP has increased over the years. The Indian government, having recognised the potential of agrochemicals, identified it as one of the pillars of the economy.

The Government's Production-linked Incentive (PLI) scheme was initiated to promote domestic manufacturing of many important sectors and the Pesticides Manufacturers and Formulators Association of India is urging the government to extend the benefit of PLI scheme to agrochemical sector also.

The steps taken by Government of India under 'Atmanirbhar Bharat' initiative shall start yielding results and benefit companies like ours with technology competence.

our core capabilities

Led by a second generation technocrat entrepreneur with an experience of about 20 years, the company can boast of proven manufacturing capabilities with well defined processes. In line with the changing requirement of customers our company invests in the required technologies to stay relevant in the market.

Deepening Market Presence

We continue to expand our market presence with increased spending on domestic and overseas registration.

R&D Team

Our R&D team comprises of competent and committed personnel with decades of experience providing steady pipeline of innovative and efficacious products.

Employees

We employ about 600 people including on contract basis developing and nurturing talent across levels to enhance technical and leadership skills.

Widened product portfolio

We possess a balanced product portfolio across fungicides, insecticides and herbicides segments and launched 6 new products during last 5 years.

CHAIRMAN'S INSIGHTS

Dear Shareholders,

The year 2021-22 has been a mixed bag as the pandemic and its associated impacts persisted for most part of the year. As the economies prepared to put the worst impacts of the pandemic behind, Russia's invasion of Ukraine posed new challenges to the world. The geopolitical repercussions of the war led to soaring commodity prices and unanticipated disruptions in the supply chains.

In the wake of these sudden developments, our Company too is facing its share of challenges. Given the heavy dependence of agrochemical

manufacturers, on imports from China, we being no exception, shortage of raw materials posed serious challenges. To overcome the escalating supply chain uncertainty, driven by manufacturing disruptions and potential or real bottlenecks, we had to take counter measures such as increased safety stocks and firming up negotiated transactions for procurement in the near term, while passing on a slice of the price hike to our customers.

During the fiscal under review a favourable policy, environment supported the growth in agricultural sector, especially products like fertilisers. With the government's enhanced push being given to the agriculture industry, the agrochemical industry is set to continue with its growth trajectory in the current fiscal.

The China +1 strategy will be beneficial for India as major consumers might prefer to shift their supplier base to India. This, along with sustained demand from

countries like the US, Brazil and European Union and the improving pesticide consumption trends in our country should contribute to the growth of agrochemical industry in India. Your Company is looking forward to capitalize on such available opportunities in the domestic as well as the overseas markets. Powered by a competent team with the mind-set to deliver, I am confident in our ability to create value for all our stakeholders, even though uncertainties prevail.

I would like to specially thank all our shareholders and employees for making our recent fund raise an overwhelming success. I would also like to thank the governments at the state and centre, our Customers, Vendors, bankers and all other stakeholders who supported us at all times.

Best Regards,

K Satyanarayana Raju
Chairman

Powered by a competent team with the mind-set to deliver, I am confident in our ability to create value for all our stakeholders, even though uncertainties prevail.

MD'S PERSPECTIVE

We delivered a record financial performance in the year under review. We crossed the milestones of ₹ 400 crore sales turnover and ₹ 50 crore PBT in the fiscal while achieving sequential growth quarter-on-quarter on a standalone basis.

Dear Shareholders,

The fiscal 2021-22 was an eventful year of significant progress and continued success for us. We delivered strong business performance despite challenges in our operating environment reflecting our robust business model.

We delivered a record financial performance in the year under review. We crossed the milestones of ₹ 400 crore sales turnover and ₹50 crore PBT in the fiscal while achieving sequential growth quarter-on-quarter on a standalone basis. We registered a sales revenue of ₹435.67 crores compared to ₹317.90 crores in the previous year. Our profit before tax improved to ₹ 51.46 crores from ₹ 31.23 crores and the Profit after

tax improved to ₹ 35.90 crores from ₹ 23.46 crores of the previous year. Strong growth in domestic sales and improved performance in the export sales contributed for the significant jump in the revenue and profits.

In line with our strategy to reduce the level of dependence on imports from China, we have, over the years, constantly focused on backward integration with significant capex investment to make certain intermediates on our own. Strategies such as this and the right selection of products in alignment with the market demand and timely procurement of raw materials resulted in posting better numbers.

We are continuing to pursue expeditious registration approvals in the domestic and overseas

arenas for a good number of commercially potential products which are in the pipeline.

As we have entered the new fiscal, we hope that we will sustain the growth momentum of the last couple of years and keep earning the confidence of our shareholders and customers as we chart new frontiers of growth.

Warm regards,

S Chandra Sekhar
Managing Director

CEO'S MESSAGE

Over the last two years, despite the pandemic, we have consistently performed in terms of sales and profitability, showcasing our adaptability and tenacity.

Dear Shareholders,

During the Financial Year 2021-22, we have been able to manage uncertainties with conviction. A strong strategic intent to focus on medium to long-term vision and a dynamic and result oriented team helped us achieve a stellar performance in a year marked by several headwinds.

During the fiscal, our wholly owned subsidiary, Bheema Fine Chemicals Private Ltd., obtained environmental clearance from Ministry of Environment, Forest and Climate Change (MOEF&CC), Government of India, to manufacture up to 9,002 MTA of agrochemicals and their intermediates. With further necessary approvals underway, we anticipate to complete the

first phase of this project and commission it before the end of March 2024. This project will generate new streams of revenue for us and help us cater to the needs of our customers.

Over the last two years, despite the pandemic, we have consistently performed in terms of sales and profitability, showcasing our adaptability and tenacity. We aim to keep this momentum in the foreseeable future continuing to be the preferred partner of choice for the leading agrochemical formulators in both domestic and overseas markets.

Backed by the expertise and experience of the management, resilient track

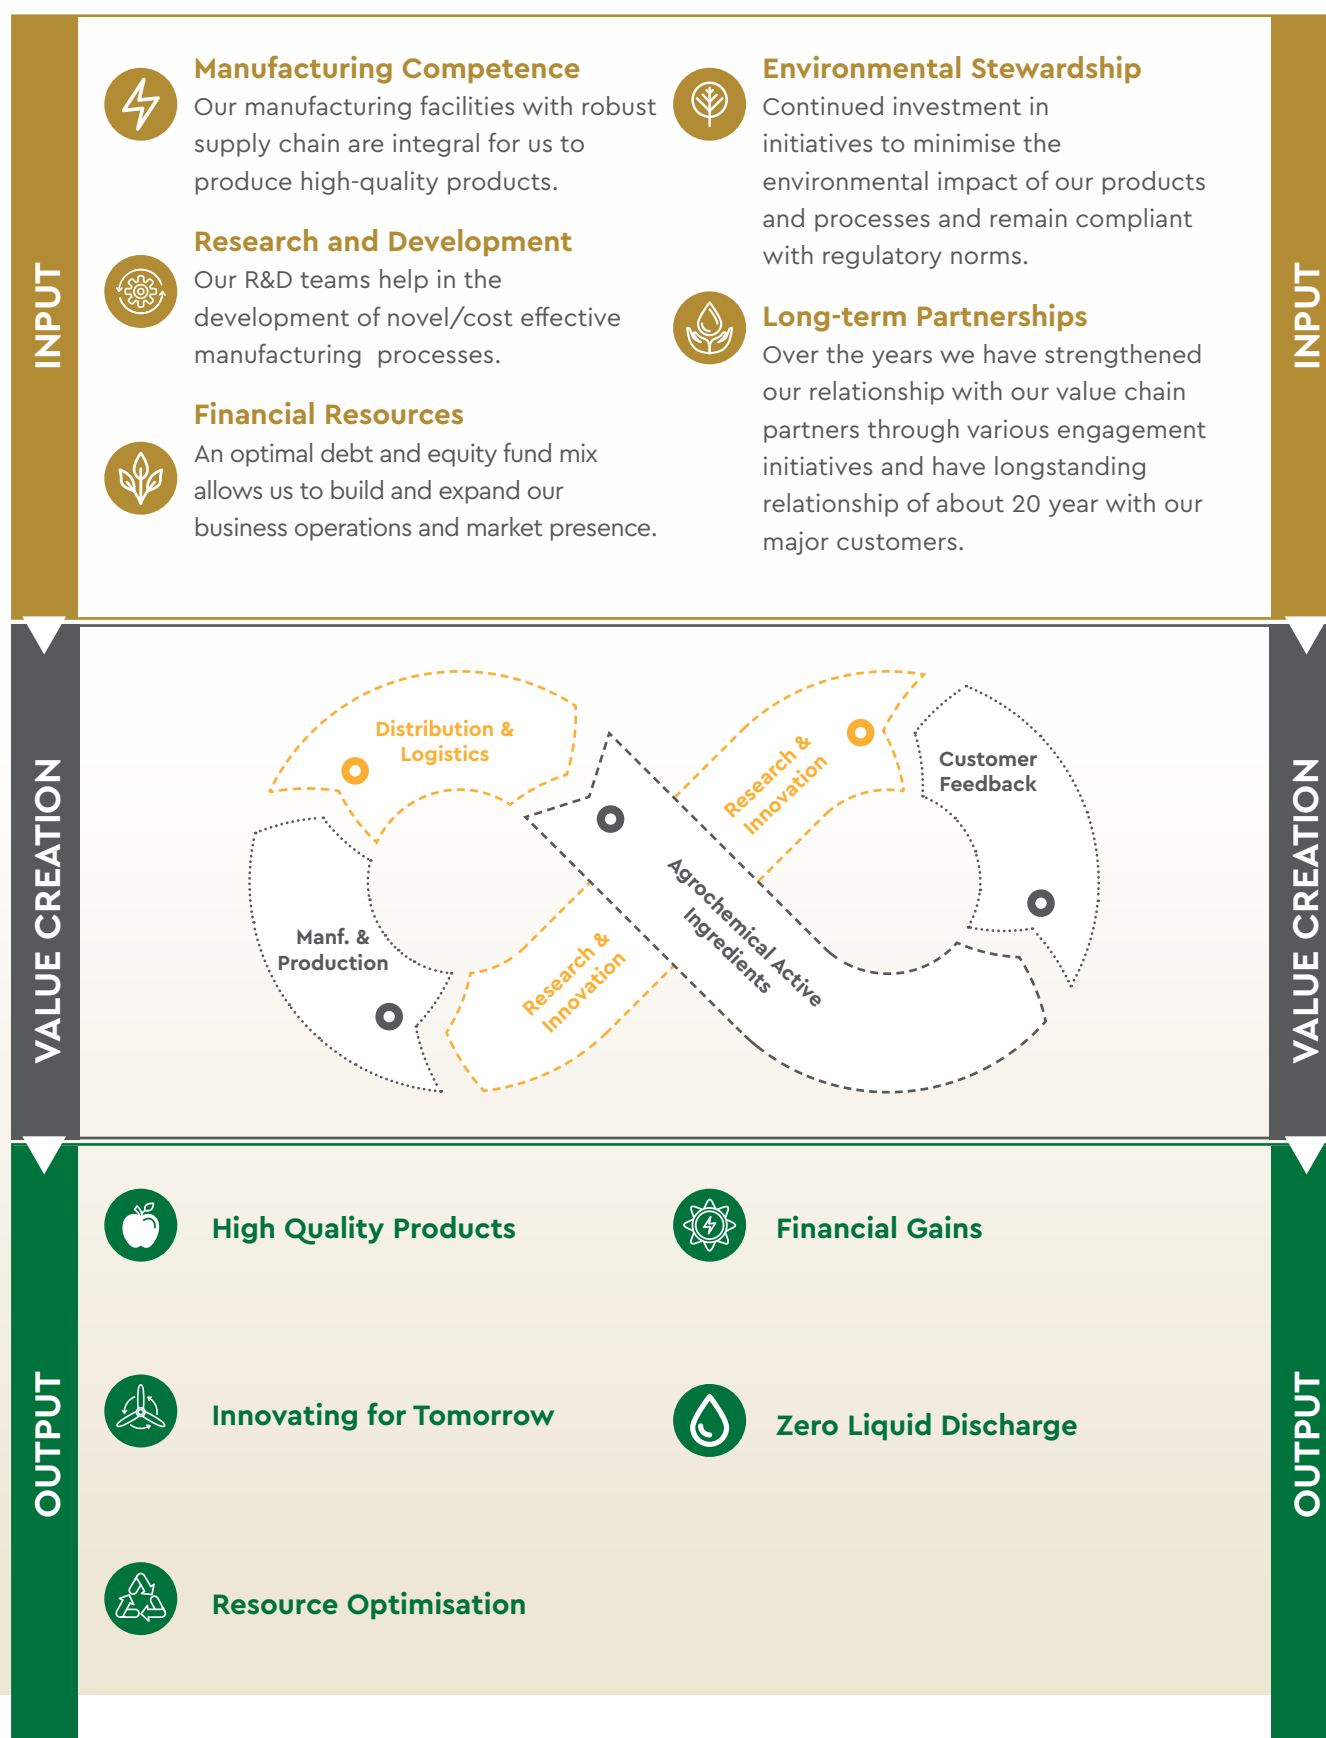

record of operations, proven R&D capabilities, strategic capacity augmentation plans and the continued patronage of longstanding and elite customers across the globe, we are confident on our ability to continue to drive shareholder value over the long term.

Warm regards,

A Arvind Kumar

Management Discussion and Analysis

World economy

The world economy grew by 6.1% in CY2021, according to the World Economic Outlook by IMF. The growth in 2021 was fuelled by increase in consumer spending and moderate growth in investment. However, during the end of 2021 the growth slowed in some major economies including China, USA, and the EU. The slow growth was majorly due to supply chain disruption and fading benefits of fiscal and monetary policies.

The recovery has been uneven with the advanced economies starting to show signs of recovery mainly due to increase in economic activity and investments, which

are expected to reach to their pre-pandemic levels. Whereas, Emerging Markets and Developing Economies have experienced a sluggish growth owing to the slower vaccine rollout, tighter economic policies, high unemployment and high inflation.¹

Outlook

Global growth is projected to decline to 3.6% in 2022 and 2023 and slow down to 3.3% after 2023 over the medium run. Advanced economies are expected to register growth of 3.3% in CY 2022 and 3.6% in CY 2023, while emerging economies are expected to register a growth of 3.8% and 4.4% respectively.¹

World Economic Outlook April 2022

Growth Projections

Source: International Monetary Fund

¹ World Economic Outlook April 2022, IMF

Inflation is estimated to be at 5.7% in advanced economies and 8.7% in emerging markets and developing economies, owing to war-induced commodity price hikes and expanding pricing pressures.¹

Indian Economy

According to the second advance estimates of the National Statistical Office (NSO), India is expected to register a growth of 8.9% in FY2021-22, 1.8% higher than the pre-pandemic growth rate.² The pandemic has had only a moderate impact on agricultural and related businesses, which are expected to grow by 3.9% in FY2021-22 after growing by 3.6% the previous year.³

Headline Inflation in the Consumer Price Index (CPI) climbed to 6.0% in January 2022 and 6.1% in February, reaching the upper tolerance limit. The rising inflation is a result of high prices of food and energy, geopolitical conflicts, lockdowns due to Covid and supply chain disruptions.

Outlook

In FY2022-23, India's GDP growth is estimated to be between 8%-8.5% and between 6.7%-7.1% in FY 2023-24.⁴ Growth is expected to pick up in the second quarter of FY2022-23 as uncertainties decline. The geopolitical issues may result in capital outflows and a

fast devaluation of the currency but both are projected to recover by the end of 2023.

Overall economic indicators suggest that India is well prepared for the challenges in 2022-23. India's strategy with the policies focusing on supply side changes rather than complete dependence on demand control, has prepared the country for long time growth.

Industry overview

Global Crop Protection Chemicals Industry

The market size of global crop protection market was US \$68.32 billion in 2021. It is estimated that the industry will reach size of US \$92.02 billion by 2030, registering CAGR of 3.4% between 2021-2026. Pest infestations, crop yields, and agriculturists' – levels of awareness and capacity to purchase products are all factors that influence market growth of this industry.

With strong expansion and shifting crop mix trends and environmental laws, the crop protection sector has evolved over time. Growing population, shrinking arable land, food security, vegetarian eating trends, and the need for increased agricultural productivity are all major drivers driving demand for more agricultural output, enhancing the crop protection industry's global expansion.

Indian Agrochemical Industry

India's agrochemical industry is a vital element of the Indian economy. Agriculture generates 20.2% of India's total gross value added (GVA). Agriculture and related sectors employ approximately 54.6% of the population. During FY2021–22, the total production of all key fertilisers was 330.84 LMT.⁵ The rapid increase of fertiliser production in the country has been assisted by a favourable policy environment that allows investments in the public, cooperative, and private sectors.

Over the last six years, India's agrochemical industry has grown at 7.6% annual pace. The Indian agrochemical market is predicted to grow at a 9.3% CAGR until 2025, with specialty chemicals rising at more than 12%.⁶

The Indian agrochemical industry has been recognized as one of the industries that has effectively fought the pandemic's wrath. Supply chain difficulties, demand pattern shifts, and the financial crisis are on the wane and a promising future seems unfolding for the Indian agrochemical industry. Agrochemicals have supported India's economic growth both directly and indirectly through industrial expansion and improvements in agricultural yield.

The production and export of agrochemicals have increased considerably in the last decade, and this trend is projected to continue. More and more Indian companies have decided to focus on integrating the industries' chain backwards and derive the corresponding benefits. Indian chemical firms, which were eyeing the key intermediates for the past few years, received a boost from the pandemic and the focus on localizing supply chains.

Government Initiatives

- The Indian government has established a number of Petroleum, Chemical, and Petrochemical Investment Regions (PCPIR) across the country, complete with all necessary facilities and policy support to boost the production of various chemicals such as agrochemicals, petroleum, and petrochemical goods. Industry can use these facilities to design and commission units for the production of technical grade products with perfect backward integration, decreasing the need for imports.
- In keeping with the Make in India and Atmanirbhar Bharat programmes, the Indian government is focusing on research and innovation. The government and industry have begun investing heavily in research and development to produce new generation compounds, isomers and manufacturing processes, green chemistry products, innovative combinations, and solo formulations in order to make India a global hub for agrochemical product manufacturing.
- The Indian government is establishing a regulatory framework for agrochemicals in the country, including policy, norms, and regulations for pesticide applications using drones. The government has also begun working on methods for fast-tracking the registration of new crop protection compounds in the country.

Opportunities

- Indian farmers are looking for more effective and environment friendly pesticides that can be used in lesser quantities per hectare. As the availability of these items is very low, there is a scope of developing more such products which will benefit all the stakeholders and help the agricultural exports grow.
- The intellectual property policy also encourages industry to develop new technology and goods by granting 20-year patent protection. Many companies have been able to invest in R&D operations in order to create novel technologies and products and obtain protection both in India and internationally via the PCT or Paris Convention pathways.
- Industry is increasingly focusing on digitization to drive better analytics, decision-making and traceability across the value chain. Digital tools such as farmer apps and dealer management systems are helping companies in undertaking tailor-made approaches for different market segments. The COVID-19 outbreak has further pushed an already growing trend of technology and internet usage in rural areas, thus creating a favourable digital environment.

⁶ FICCI (<https://ficci.in/sector-details.asp?sectorid=7>)

Challenges

Complex supply chain- Due to the large number of end users in the market, the supply chain for agrochemical is complex and results in significant post-harvest losses for the farmers.

- Lack of knowledge among the farmers- Most farmers lack knowledge about the products available in the market and the way to use these products. Inappropriate use of these chemicals result in great losses for the farmers
- Counterfeit products – There are many counterfeit and sham products available in market which in turn affect revenues of the organised sector.
- High R&D costs- It takes about 9 years of R&D and \$180 million to develop a new agrochemical compound. Companies in India haven't typically concentrated on developing novel compounds and will have difficulties in establishing these capabilities, while maintaining cost competitiveness.

Outlook

Despite enormous challenges, the agrochemical companies in India operated safely and reliably backed by their core strengths, innovating and adapting to the new normal as best as they could. The policy makers can leverage the opportunities available to work in the direction of newer technologies, novel molecules, efficacious combination and solo formulations, enhancing manufacturing infrastructure, creating a proper policy environment to help in improving productivity as well as foreign investment in the country in order to increase the share of agrochemicals in the country's GDP and exports.

Company Overview

Bhagiradha Chemicals and Industries Limited is a Hyderabad based Public limited company manufacturing high quality pesticides, listed on the BSE and NSE with significant export sales over the years. The industry is located in Cheruvukommupalem, Ongole, Prakasam district, Andhra Pradesh at a distance of about 350 Km from the port city of Chennai in Tamilnadu and is connected by National Highway. The manufacturing facility has an aggregate installed capacity of 3250 MT per annum, spread across 29 hectares of land with three production blocks and 4 process lines and an effluent treatment plant with zero liquid discharge system. It has proven capabilities to manufacture technical grade Insecticides, Fungicides, Herbicides and other specialty intermediates complying with International standards.

The company's strength is through Innovation led product portfolio, well laid out manufacturing capacity, Strong in house Research and development, Diversified customer base across the globe and competent management bandwidth. The company's business development

strategy is mainly focused on Strong emphasis on developing new processes for the existing products to optimize costs and non-infringing processes for newly identified off-patent products.

Quality Control

The company has a complete in-house quality control laboratory with modern analytical equipment and well documented procedures and an established quality assurance system manned by experienced and qualified personnel.

Environmental, Health and Safety

The company has taken adequate measures for environment protection, safety and health of the employees. The industry has developed Zero Liquid Discharge system for effluent treatment and has also treatment facilities consisting of stripper, multi effect evaporator, Agitated Thin Film Dryer (ATFD), Biological ETP, RO system. Solid waste generated within the plant is sent to approved land fill.

Occupational health center is provided inside the company premises and working 24x7.

Safety infrastructure is provided and Fire hydrant system covered entire plant. New fire detection system and latest equipment are installed to face any emergency. Regular Drills, training programmes and planned audits are carried out on an ongoing basis.

Research and Development

The R&D facility is recognized by the DSIR and located within the factory premises. It has a pilot plant facility, where the scale at which a product is manufactured is increased through a non-infringing process developed in the R&D facility prior to launching full scale commercial production.

Human Resource

The company has focused on employee lifecycle for good human resource management. The company feels proud of the commitment, competence and dedication shown by its employees in all areas of business. The company also plans for structured induction and skill development program of the all the employees. Also BCIL is committed to nurturing, enhancing and retaining talent through superior learning and organization development.

Company Outlook

Opportunities are knocking with the expansion of capacities to cater the rising demand from domestic as well as overseas for the Indian specialty chemicals and also as the global companies seek to de-risk their supply chains which are dependent on China. The scope for capacity expansion is limited in the existing plant which is located in a non-industrial zone. During the year its Subsidiary, Bheema Fine Chemicals Pvt Ltd received environmental clearance from the MoEF &CC, Government of India, for manufacture of pesticides of 9002 MT per annum. The Karnataka State Pollution Control Board has accorded its Consent for Establishment recently. The Company is making sincere efforts for early implementation of the project to augment its much needed capacities.

AUDITOR'S CERTIFICATE ON CORPORATE GOVERNANCE

Requirements under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

To,
The Members of
Bhagiradha Chemicals & Industries Limited

We have examined the compliance of conditions of corporate governance by Bhagiradha Chemicals & Industries Limited (CIN: L24219TG1993PLC015963) ('the Company') for the year ended 31 March, 2022, as stipulated in regulations 17 to 27, clauses (b) to (i) of sub-regulation (2) of regulation 46 and paragraph C, D and E of Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") with Stock Exchanges in India.

The compliance of conditions of Corporate Governance is the responsibility of the Company's management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above mentioned Listing regulations.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

Independent Auditor's Report

The Members
Of **Bhagiradha Chemicals and Industries Limited**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of **Bhagiradha Chemicals and Industries Limited** (the "Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "Standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone financial statements in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone Standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sl.No	Key Audit Matter	Auditor's Response
1	<p>Net Realisable value of Finished Goods</p> <p>Finished goods are valued at lower of cost or net realizable value. Considering that there is always a volatility in the Selling price of the Agro-Chemicals, which is dependent upon various market conditions, determination of net realizable value for these chemicals involves significant management judgement and therefore has been considered as a key audit matter.</p> <p>The total value of finished goods (Agro chemicals) as at 31st March, 2022 is ₹1796.95 lakhs which is in accordance with the accounting policies referred to in Note no. 2.10(b). of Standalone financial statements.</p>	<ol style="list-style-type: none"> 1. Evaluated the design of internal controls relating the management judgments and estimates relating to quantity, purity, fair value less costs to sell and also tested the operating effectiveness of the aforesaid controls. 2. Obtained an understanding of the significant management judgements applied in determination of the quantity, purity and their fair value and assessed and tested the reasonableness of these judgements. 3. Obtained the market information for the fair values and compared them with the rates considered by the management in determining the fair values. 4. Assessed the appropriateness of the disclosure in the Standalone financial statements in accordance with the applicable Standalone financial reporting framework.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease

operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future

events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the

purposes of our audit.

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid Standalone Financial Statements comply with the Ind AS specified under section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31st March, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended.

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements.
 - ii. The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred on account of unpaid dividend, to the Investor

Education and Protection Fund by the Company as at 31st March, 2022.

- iv. (a) As per the written representation received from the management and to the best of its knowledge and belief other than as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity, including foreign entities ("Intermediaries"), with the understanding, that the Intermediary shall, whether, directly Or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) As per the written representation received from the management and to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been received by the company from any person(s) or entity, including foreign entities ("Funding Parties"), with the understanding, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever

by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- (c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.
- v. (a) The interim dividend declared and paid by the Company during the year until the date of this report is in compliance with section 123 of the Companies Act, 2013.
- (b) The Board of Directors has proposed final dividend for the year which is subject to the approval of the members at the ensuing annual general meeting. The amount of dividend proposed is in accordance with section 123 of the Companies Act, 2013 as applicable.

- ii). a. The inventory has been physically verified during the year by the management at reasonable intervals. In our opinion, the frequency of verification is reasonable. No discrepancies were noticed on verification between the physical verification and the book records that were more than 10% in the aggregate of each class of inventory.
- b. The Company has been sanctioned working capital limit of ₹4775.00 Lakhs, in aggregate, during the year, from bank on the basis of security of its current assets. In our opinion and based on the information and explanations given to us and our verification of the stock statements submitted by the Company to the bank in relation to the aforesaid working capital limits, such stock statements are, broadly in all material respect, in agreement with the books of account of the Company except for the deviations detailed in Note No. 50 of the audited Standalone financial statements.
- iii). The Company has made investments in and granted loans or advances in the nature of loans, unsecured, to its subsidiary company during the year. However, the company has not provided any guarantee or security to the companies, firms, limited liability partnership or any other parties during the year.
- a. According to the information and explanations given to us, during the year, the Company has provided loans to its subsidiary company and the aggregate amount of loan given was ₹ 105.00 Lakhs and balance outstanding as at balance sheet date is ₹ 40.49 Lakhs.
- b. According to the information and explanations given to us and based on the audit procedures performed by us, we are of the opinion that during the year investment made and the terms and conditions of the grant of loans are, prima facie, not prejudicial to the interest of the Company.
- c. The company has not granted any loans where the schedule of repayment of principal and payment of interest has been stipulated. Hence reporting under clause 3(iii)(c) of the Order is not applicable.
- d. In respect of loans granted by the Company to its subsidiary, there is no overdue amount remaining outstanding as at the balance sheet date.
- e. No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loan granted to settle the overdue of existing loans to the same parties.
- f. According to the information and explanations given to us, company has granted loans and advances in the nature of loans which are repayable on demand. The aggregate amount of loan given to its subsidiary was ₹ 105.00 Lakhs which is 100 % of the total loan granted and balance outstanding as at balance sheet date is ₹ 40.49 Lakhs.

- iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable.
- v) According to the information and explanations given to us, the Company has not accepted any deposits from the public as per the directives issued by the Reserve Bank of India and as per the provisions of section 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules framed there under. Hence, the reporting under clause 3(v) of the Order is not applicable.
- vi) The Company has made and maintained cost records as specified by the Central Government under section 148(1) of the Companies Act, 2013.
- vii) a. According to the information and explanations given to us, none of the undisputed statutory dues including Goods and Service Tax, Provident Fund, Employees State Insurance, Income Tax, Sales Tax, Service Tax, Custom Duty, Excise Duty, Value Added Tax, Cess and any other Statutory Dues were outstanding as at last day of the financial year concerned for a period of more than six months from the date they became payable.
- b. According to the information and explanations given to us, there are no dues in respect of disputed amount to be deposited in respect of provident fund, employees state insurance, income tax, sales tax, service tax, custom duty, excise duty, value added tax, cess and any other statutory dues as on 31st March, 2022. The dues outstanding in respect of goods and service tax and entry tax on account of any dispute, are as follows:

Nature of Statute	Nature of dues	Amount (₹ In lakhs)	Period to which the amount relates	Forum where the dispute is pending

Annexure “B” to the Auditor’s Report

of even date on the Standalone financial statements of Bhagiradha Chemicals & Industries Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Bhagiradha Chemicals and Industries Limited** ("the Company") as of March 31, 2022 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves, performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that :

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over

financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these Standalone financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation & compliance with IND AS

The Standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other relevant provisions of the Act. The Standalone financial statements of the company are prepared in accordance with the Indian Generally Accepted Accounting Principles (GAAP) on accrual basis and under the historical cost convention, except for the following material items that have been measured at fair value as required by the relevant Ind AS.

- Certain financial assets and liabilities are measured at fair value (Refer accounting policy on financial instruments)
- Defined benefit and other long term Employee Benefits.
- Current versus non current classification: All the assets and liabilities have been classified as current and non current as per the Company's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

2.2 Uses of Estimates & judgments

The preparation of Standalone financial statements in conformity with the generally accepted accounting principles requires management to make estimates

and assumptions that affect the reported amounts of assets and liabilities, revenue and expenses and disclosure of contingent liabilities. The estimates and assumptions used in the accompanying Standalone financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the Standalone financial statements and reviewed on an ongoing basis. Actual results may differ from the estimates and assumptions used in preparing the accompanying Standalone financial statements. Any revision to accounting estimates is recognised prospectively in current and future periods.

2.3 Measurement of Fair Values

The accounting policies and disclosures require the measurement of fair values for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values, which includes overseeing all significant fair value measurements, including Level 3 fair values by the management. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 – Quoted price (unadjusted) in active markets for identical assets or liabilities
- Level 2 – Inputs other than quoted price included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.4 Property Plant and Equipment and Depreciation

- a) Items of property, plant and equipment are measured at cost, which include capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost includes taxes, duties, freight and other incidental expenses directly related to acquisition/construction and installation of the assets. Any trade discounts and rebates are deducted in arriving at the purchase price.
- b) Subsequent expenditure is capitalised only when cost can be measured reliably and it is probable that the future benefits will flow to the company.
- c) Capital work-in-progress includes fixed assets not ready for their intended use and related incidental expenses and attributable interest.
- d) Expenditure during construction period:

Expenditure (direct & indirect) incurred during the construction period which are attributable to acquisition / construction of fixed assets, will be capitalized with the respective Plant, Property & Equipment at the time of commissioning of such assets.

- e) The estimated useful life of assets are as follows:

Building	30 – 60 Years
Plant and equipment	20 – 25 Years
Plant and equipment – R & D	10 Years
Furniture and fixtures	10 Years
Vehicles	8 Years
Office equipment	5 Years
Computer and data processing equipment	3 Years

- f) Leasehold improvements and leasehold land are amortized over the lease term except for lease hold land acquired under perpetual lease.
- g) Depreciation on tangible fixed assets (property, plant and equipment) has been provided on Straight Line Method. Depreciation is provided on a pro-rata basis, i.e. from the date on which asset is ready for use. Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.
- h) Items of fixed assets that are held for disposal are stated at the lower of their net book value and net realizable value and are shown separately under other current assets in the Standalone financial statements. Any expected loss is recognized immediately in the Statement of Profit and Loss.

- i) An item of property, plant and equipment is eliminated from the Standalone financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal are recognised in the Statement of Profit and Loss.

2.5 Intangible Assets

- a) Intangible assets are stated at cost of acquisition less accumulated amortisation and accumulated impairment losses, if any.
- b) Subsequent expenditure related to an item of intangible assets is added to its book value, only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.
- c) In respect of Intangible fixed assets amortised on straight line basis – Technical know how @ 5.28 % p.a., computer software over a period of useful life of 3 years and product development expenses are to be amortised over a period of their useful life of 4 years.
- d) An intangible asset is eliminated from the Standalone financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal of fixed assets carried at cost are recognised in the Statement of Profit and Loss.

2.6 Impairment of non-financial assets

The Company assesses at each year end whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value

Notes to Standalone Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash in flows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

2.7 Borrowing Costs

Borrowing costs incurred on constructing or acquiring a qualifying asset are capitalized as cost of that asset until it is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue and recognized as an expense in the Statement of Profit and Loss.

2.8 Research and Development Cost

Research and development costs incurred for development of products are expensed as incurred, except for development costs that relate to the design and testing of new or improved materials, products or processes, which are recognized as an intangible asset to the extent that it is technically feasible to complete the development of such asset and future economic benefits are expected to be generated from such assets. Capital expenditure on research and development is included as part of assets and depreciated on the same basis as other assets.

2.9 Assets classified as held for sale

The Company classifies non-current assets (or disposal group) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

The criteria for held for sale classification is regarded met only when the assets (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal group), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset (or disposal group) to be highly probable when:

- ▶ The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- ▶ An active programme to locate a buyer and complete the plan has been initiated (if applicable),

- ▶ The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- ▶ The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- ▶ Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

2.10 Inventories

- a) Inventories are valued at lower of cost or net realizable value on an item-by-item basis.
- b) Cost of finished goods, traded goods and work in progress is determined by considering materials, labour and other related costs incurred in bringing the inventories to their present condition and location. Cost of raw materials, packing materials and consumables is determined on weighted average basis.
- c) Cost of Finished goods, work in progress and traded goods : Cost includes cost of direct materials, labour and other related costs incurred in bringing the inventories to their present condition & location.
- d) Goods in transit are valued at cost which represents the cost incurred up to the stage at which the goods are in transit.
- e) Provision of obsolescence on inventories is considered on the basis of management's estimate based on demand and market of the inventories.
- f) Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

2.11 Cash and Cash Equivalents

Cash comprises of cash at bank and on hand and cash equivalents comprise of short-term bank deposits with an original maturity of three months or less.

2.12 Cash Flow Statement

Cash flows are reported using indirect method as set out in IND AS 7, "Statement of Cash Flows", whereby profit / (loss) before tax is adjusted for the effects of transactions of non cash nature and deferrals of accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.13 Leases

A lease is classified at the inception date as finance lease or an operating lease. Leases under which the Company assumes substantially, all the risk and rewards of ownership are classified as finance leases. When acquired, such assets are capitalised at fair value or present value of the minimum lease, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of Profit and loss. Other leases are treated as operating leases, with payments recognised as expenses in the statement of profit and loss on a straight line basis over the lease term.

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

As a lessee, the Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment/primary period of lease. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate.

Generally, the Company uses its incremental borrowing rate as the discount rate. Lease payments included in the measurement of the lease liability comprise the fixed payments, including in substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method.

The Company has used number of practical expedients when applying Ind AS 116: – Short term leases, leases of low-value assets and single discount rate.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term.

2.14 Revenue Recognition

- a) Sale of goods is recognized as revenue when the significant risks and rewards of ownership of the goods have been passed on to the buyer. Revenues are recognized when collectability of the resulting receivable is reasonably assured. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.
- b) Income from services rendered is recognized based on agreements with the customers using the proportionate completion method, when services are performed and no significant uncertainty exists regarding the amount of the consideration that will be derived from rendering of service.
- c) Export incentives are recognised when the right to receive credit as per the terms of incentives is established in respect of exports made.
- d) Interest income is recognized on a time proportionate basis, taking into account the amount outstanding and the rates applicable. For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate method to the net carrying amount of the financial assets.

(Amount in Indian Rupees in lakhs unless otherwise stated)

2.15 Income Tax

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law), deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period) and Minimum Alternate Tax (MAT) credit entitlement.

a) Current Tax

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate

b) Deferred Tax

Deferred tax is recognised in respect of temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss

(either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income (OCI) or directly in equity.

Deferred tax assets and liabilities are offset only if: a) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity

c) Minimum Alternate Tax

MAT is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised, it is credited to the statement of profit & loss and is considered as (MAT credit entitlement). The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period. MAT credits are in the form of unused tax credits that are carried forward by the Company for a specified period of time, hence, it is presented as Deferred Tax Asset.

2.16 Employee Benefits

Employee benefits payable wholly within twelve months of receiving employees' services are classified as short-term employee benefits. The short term employee benefits are accounted on undiscounted basis during the accounting period based on services rendered by employees.

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Company contributes to statutory provident fund in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 that is a defined

contribution plan and contribution paid or payable is recognized as an expense in the period in which the employee renders services. Superannuation benefits, a defined contribution plan, has been funded with Life Insurance Corporation of India (LIC) and the contribution is charged to Statement of profit and loss, when the contribution to the Fund is due.

II. Defined benefit plans

The Company provides for gratuity benefit and compensated absences, which are defined benefit plans, covering all its eligible employees. Liability towards gratuity benefits and compensated absences expected to occur after twelve months, are determined using the Projected Unit Credit Method. Actuarial valuations are carried out at the balance sheet date. Remeasurements of the net defined benefit liability, which comprises actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The retirement benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets. The gratuity benefit and compensated absences scheme is funded with the Life Insurance Corporation of India (LIC). The short term provision for compensated absences has been calculated on undiscounted basis, based on the balance of leave available over and above the maximum accumulation allowed as per the company's policy.

settlement date are recognised in the Statement of Profit and Loss.

All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

2.18 Provisions and Contingencies

- A provision is recognised, if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.
- A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation of a present obligation in respect of which the likelihood of outflow of resources is remote, no provision disclosure is made.

2.19 Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

2.20 Earnings per Share

Basic EPS is calculated by dividing the net profit or loss before OCI for the year by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted EPS, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.17 Foreign Currency Transactions

a) Functional and presentation currency

Initial recognition-Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount, the exchange rate between the functional currency and the foreign currency at the date of the transaction. The Standalone financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

b) Transactions and balances

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/Losses arising out of fluctuation in foreign exchange rate between the transaction date and

2.21 Operating Cycles

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Based on the nature of products/activities of the Company, the management has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.22 Contributed equity

Equity shares are classified as equity share capital.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. As per Ind AS 32, the transaction costs pertaining to rights issue of equity instruments is required to be deducted from equity to the extent they are directly attributable to the equity related transactions and the same will be adjusted once the proceeds from the issue are received.

2.23 Dividend

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and Interim dividends are recorded as a liability on the date of declaration by the Company's board of directors.

2.24 Financial Instruments

a) Financial Assets

i) Recognition and initial measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value through profit and loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the statement of profit and loss.

ii) Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in the statement of profit and

loss. Any gain or loss on derecognition is recognised in the statement of profit and loss.

Financial assets at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the statement of profit and loss.

Financial assets at fair value through profit (FVTPL)

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit and loss.

Financial instruments measured at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to the statement of profit and loss.

iii) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment

Notes to Standalone Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, It recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

b) Financial Liabilities

i) Recognition and initial measurement

All financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial liability is initially measured at fair value, in case of financial liability which is recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the issue of a financial liability.

ii) Subsequent measurement

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL, if it is classified as held- for- trading, or as a derivative or if designated as such on initial recognition. Financial liabilities 'at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement 'of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. 'Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss 'on derecognition is also recognised in the statement of profit and loss.

iii) Derecognition

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially

different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability is extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

iv) Setting off financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

c) Derivative Financial Instruments

The Company uses derivative financial instruments, such as forward currency contracts to hedge its interest rate risk. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any changes therein are generally recognised in the profit and loss account.

2.25 Significant accounting judgments, estimates and assumptions

The preparation of Standalone financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

a) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Notes to Standalone Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

b) Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

The Company neither have any taxable temporary difference nor any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. On this basis, the Company has determined that it cannot recognize deferred tax assets on the tax losses carried forward except for the unabsorbed depreciation. "

c) Defined benefit plans (gratuity benefits and Compensated Absences)

The cost of the defined benefit plans such as gratuity and Compensated Absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each year end.

The principal assumptions are the discount and salary growth rate. The discount rate is based upon the market yields available on government bonds at the accounting date with a term that matches that of liabilities. Salary increase rate takes into account of inflation, seniority, promotion and other relevant factors on long term basis.

d) Impairment of non-financial assets and goodwill

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

2.26 Standards that became effective during the year

There are no new Standards that became effective during the year. The Company has applied certain amendments that became effective during the year

which are discussed below: [This is to be updated as applicable]

a) Interest Rate Benchmark Reform – Phase 2: Amendments to Ind AS 109, Ind AS 107, Ind AS 104 and Ind AS 116

The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR).

The amendments include the following practical expedients:

- A practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest
- Permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued
- Provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component

These amendments have no impact on the financial statements of the Company. The Company intends to use the practical expedients in future periods as and when it become applicable.

b) Amendments to Ind AS consequential to Conceptual Framework under Ind AS

The Framework is not a Standard and it does not override any specific standard. Therefore, this does not form part of a set of standards pronounced by the standard-setters. While, the Framework is primarily meant for the standard-setter for formulating the standards, it has relevance to the preparers in certain situations such as to develop consistent accounting policies for areas that are not covered by a standard or where there is choice of accounting policy, and to assist all parties to understand and interpret the Standards.

The amendments made in following standards due to Conceptual Framework for Financial Reporting under Ind AS .includes amendment of the footnote to the definition of an equity instrument in Ind AS 102- Share Based Payments, footnote to be added for definition of liability i.e. definition of liability is not revised on account of revision of definition

Notes to Standalone Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

in conceptual framework in case of Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets etc.

The MCA has notified the Amendments to Ind AS consequential to Conceptual Framework under Ind AS vide notification dated June 18, 2021, applicable for annual periods beginning on or after April 1, 2021. Accordingly, the Conceptual Framework is applicable for preparers for accounting periods beginning on or after 1 April 2021.

These amendments have no impact on the financial statements of the Company."

c) Ind AS 103: Business combination

The MCA clarified that for the purpose of this Ind AS, acquirers are required to apply the definition of asset and liability given in the framework for preparation and presentation of financial statements with Indian Accounting standards rather than the conceptual framework. Therefore, the acquirer does not recognise those costs as part of applying the acquisition method. Instead,

the acquirer recognises those costs in its post-combination financial statements in accordance with other Ind AS.

These amendments have no impact on the financial statements of the Company."

d) Amendment to Ind AS 105, Ind AS 16 and Ind AS 28

In the definition of "Recoverable amount" the words "the higher of an asset's fair value less costs to sell and its value in use" are replaced with "higher of an asset's fair value less costs of disposal and its value in use". The consequential amendments are made in Ind AS 105, Ind AS 16 and Ind AS 28.

These amendments have no impact on the financial statements of the Company.

2.27 Rounding off amounts

All amounts disclosed in financial statements and notes have been rounded off to the nearest lakh as per requirement of Schedule III of the Act, unless otherwise stated.

- 20.2** Term loans II & III sanctioned by Axis Bank Ltd are secured by exclusive first charge on fixed assets created out of the term loans extended by the term lender and pari passu first charge on the movable fixed assets (Except vehicles) and immovable fixed assets of the Company (including EM of the Company land and buildings but excluding agricultural lands lying in the name of the Company not charged to any bank) along with other lenders and personal guarantee of Sri S Chandra Sekhar, Managing Director of the Company & Smt. S Lalitha Sree, Director of the Company.
- 20.3** Term Loans sanctioned under GECL 2.0 of ₹ 290 Lakhs & ₹ 179 Lakhs by State Bank of India & Axis Bank Ltd, respectively are secured by extension of charge / security interest (both primary & collateral) currently secured to the banks for their existing credit facilities on a second ranking basis.
- 20.4** Government of Andhra Pradesh vide letter No.20/2/6/1369/ID dated 08-10-1996 and letter No.30/1/2002/0300/0300/ FD dated 10-04-2002 had sanctioned sales tax deferment for an amount of ₹ 918.54 Lakhs and ₹ 514.51 Lakhs respectively for a period of 14 years to the Company in respect of Chlorpyrifos plant. The sanction of ₹ 918.54 Lakhs under letter No.20/2/6/1369/ID dated 08-10-1996 has expired its utilization on 28th February, 2010 and sanction of ₹ 514.51 Lakhs under letter No.30/1/2002/0300/0300/FD dated 10-04-2002 has expired its utilisation on 14th February, 2016. The Company has availed an aggregate deferment loan of ₹ 563.17 Lakhs under the above sanctions. The repayment has commenced and an amount of ₹ 266.70 Lakhs has been paid. However, the deferment amount payable for the years 19-20, 2020-21 & 2021-22 aggregating to ₹ 62.20 Lakhs was placed in the form of fixed deposits with banks as per orders of the Honourable High Courts of AP & TG. Thus the liability under sales tax deferment reflected is inclusive of the above deposits.
- 20.5** Loans availed from Inter corporates have been taken with the repayment period of two years from the date of availing such loan. The Interest is paid at the rate of 8.5% per annum on the principal outstanding.
- 20.6** Loans availed from Directors have been taken with the repayment period of two years from the date of availing such loan. The Interest is paid at the rate of 8.5% per annum on the principal outstanding.
- 20.7** The company has not been declared a wilful defaulter (as defined by RBI Circular) by any bank or financial Institution or other lender.

54 RISK MANAGEMENT

Financial Risk Management objectives & Policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's activity exposes it to market risk, commodity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company, the Company evaluates various options and may enter into derivative financial instruments like foreign exchange forward contracts, foreign currency option contracts in order to hedge certain foreign currency risk exposures and interest rate swaps to hedge variable interest rate exposures. Derivatives, if entered into, are used exclusively for hedging purposes and not as trading or speculative instruments.

The Company's financial risk management policy is set by the Managing Director and governed by overall direction of Board of Directors of the Company. Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rate, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

54.1 Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

a) Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:

Particulars	March 31, 2022	March 31, 2021
Not Due	9033.54	5065.61
0 – 90 Days	624.66	774.34
90 – 180 Days	.59	114.23
180 – 270 Days	.08	–
270 – 365 Days	–	–
More than 360 Days	–	14.97
Total	9658.86	5969.16

The Company allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of loss (e.g. timeliness of payments, available press information etc.) and applying experienced credit judgment. Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Given that the macro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of minimal credit losses to continue.

b) Cash and Cash Equivalents

The Company held cash and cash equivalents of ₹ 219.83 Lakhs at March 31, 2022 (March 31, 2021: ₹ 31.87 Lakhs). This includes the cash and cash equivalents held with the bank and the cash on hand with the Company.

54 RISK MANAGEMENT (Contd..)

54.2 Liquidity Risk

Liquidity risk is the risk in terms of difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has obtained fund and non-fund based working capital loan from bank. The borrowed funds are generally applied for Company's own operational activities.

Exposure to liquidity risk:

- a) The following are the remaining contractual maturities of financial liabilities at the reporting date.

The amounts are gross and undiscounted :

	9400.34	1269.96	609.80	159.04	11439.15

- b) Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. The company's exposure to the risk of changes in the market interest rate relates primarily to the company's long term debt obligations with floating interest rates. The company's interest rate exposure is mainly related to variable interest rates debt obligations. The Company manages the liquidity and fund requirements for its day to day operations like working capital, suppliers/buyers credit.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. Borrowings issued at fixed rates exposes to fair value interest rate risk. The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

The risk estimates provided assume a change of 25 basis points interest rate for the interest rate benchmark as applicable to the borrowings summarised above. This calculation assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date assuming that all other variables, in particular foreign currency exchange rates, remain constant. The period end balances are not necessarily representative of the average debt outstanding during the period.

Cash flow sensitivity (net)	Profit or loss	
	25 bp increase	25 bp decrease
31-Mar-22		
Variable rate loan instruments	19.60	(19.60)
31-Mar-21		
Variable rate loan instruments	15.09	(15.09)

54.3 a) Market Risk

Market risk is the possibility of losses that may be incurred by the company due to factors that affect the overall performance of the company – such as foreign exchange rates, interest rates, recessions etc. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily due to the fluctuations in the rate of interest for borrowings from banks, recession in the market, foreign exchange rate fluctuation etc.

b) Currency Risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar against the functional currencies of the Company. The Company, as per its risk management policy, uses natural hedge technique of adjusting foreign currency receivables against currency payables. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. Exposure to all other foreign currencies other than US Dollar is not material.

D) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

55 CAPITAL RISK MANAGEMENT

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves. The primary objective of the Company's Capital Management is to maximize shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using adjusted net debt to equity ratio. For this purpose, adjusted net debt is defined as total debt less cash and bank balances.

Consolidated Financial Statements

Independent Auditor's Report

The Members
Of **Bhagiradha Chemicals and Industries Limited**

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Bhagiradha Chemicals & Industries Limited** (the "Company") and its subsidiaries (the Company and its subsidiaries together referred to as the "Group") which comprise the Consolidated Balance Sheet as at March 31, 2022, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2022 and their consolidated profit, their consolidated total comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sl.No	Key Audit Matter	Auditor's Response
1	<p>Net Realisable value of Finished Goods</p> <p>Finished goods are valued at lower of cost or net realizable value. Considering that there is always a volatility in the Selling price of the Agro-Chemicals, which is dependent upon various market conditions, determination of net realizable value for these chemicals involves significant management judgement and therefore has been considered as a key audit matter.</p> <p>The total value of finished goods (Agro chemicals) as at 31st March, 2022 is ₹ 1796.95 Lakhs which is in accordance with the accounting policies referred to in Note no. 2.10(c) of the financial statements.</p>	<ol style="list-style-type: none"> 1. Evaluated the design of internal controls relating to the management judgments and estimates relating to quantity, purity, fair value less costs to sell and also tested the operating effectiveness of the aforesaid controls. 2. Obtained an understanding of the significant management judgements applied in determination of the quantity, purity and their fair value and assessed and tested the reasonableness of these judgements. 3. Obtained the market information for the fair values and compared them with the rates considered by the management in determining the fair values. 4. Assessed the appropriateness of the disclosure in the financial statements in accordance with the applicable financial reporting framework.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance or conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Boards of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.

In preparing the consolidated financial statements, the respective Boards of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intend to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether

a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Companies as on March 31, 2022 taken on record by the Boards of Directors of the Companies and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Company and its subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended.

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.
 - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary companies incorporated in India.
 - iv. (a) As per the written representation received from the management and to the best of its knowledge and belief other than as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity, including foreign entities ("Intermediaries"), with the understanding, that the Intermediary shall, whether, directly Or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) As per the written representation received from the management and to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been received by the company from any person(s) or entity, including foreign entities ("Funding Parties"), with the understanding, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

Report on Internal Financial Controls Over Financial Reporting

Annexure “A” to the Auditor’s Report

of even date on the Consolidated Financial Statements of Bhagiradha Chemicals & Industries Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2022, we have audited the internal financial controls over financial reporting of **Bhagiradha Chemicals & Industries Limited** (hereinafter referred to as the "Company") and its subsidiary companies, incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Boards of Directors of the Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI") and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal

financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company

and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

1. Overview of the group

Bhagiradha Chemicals & Industries Limited (herein referred to as 'the Parent Company' or the 'the Company') together with its subsidiaries (together referred to as 'the Group') carries on the business of manufacturing and sales of Agro Chemicals. It is incorporated under the Companies Act and its shares are listed on the Bombay Stock Exchange and National Stock Exchange. The registered office of the Company is at 8-2-269/S/3/A, Plot No 3, Sagar Society, Road No 2, Banjara Hills, Hyderabad – 500 034 (TS)

2. Principles of Consolidation

2.1 Business Combination

In accordance with Ind AS 103, the group accounts for these business combinations using the acquisition method when control is transferred to the group. The consideration transferred for the business combination is measured at fair value as at the date the control is acquired (acquisition date), as are the net identifiable assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in Other Comprehensive Income (OCI) and accumulated in equity as capital reserve if there exists clear evidence of the underlying reasons for classifying the business combination as resulting in a bargain purchase; otherwise the gain is recognised directly in equity as capital reserve. Transaction costs are expensed as incurred, except to the extent related to the issue of debt or equity securities.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured subsequently and settlement is accounted for within equity. Other contingent consideration is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in the consolidated statement of profit and loss.

If a business combination is achieved in stages, any previously held equity interest in the acquiree is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in the consolidated statement of profit and loss or OCI, as appropriate."

2.2 Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through

its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The Subsidiary companies considered in the Consolidated Financial Statements are as follows:

Name of the Company – Bheema Fine Chemicals Private Limited

Country of Incorporation – India

% Age voting power held as at March 31, 2022- 100%

% Age voting power held as at March 31, 2021- 100%

2.3 Non Controlling Interest

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

2.4 Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in consolidated statement profit or loss.

2.5 Transactions eliminated on consolidation

The Parent consolidates the financial statements of the subsidiaries it controls. Financial statements of Group entities are consolidated on a line by line basis. If a subsidiary of the Group uses accounting policies other than those adopted in the consolidated financial statements for similar transactions and events in similar circumstances, appropriate adjustments are made to that Group entity's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies. All intragroup assets, liabilities, equity, income, expense, cash flows, and unrealized gains/losses relating to transactions between Group entities are eliminated on consolidation.

3. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

3.1 Basis of preparation & compliance with IND AS

The financial statements of the group have been prepared in accordance with Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other relevant provisions of the Act. The financial statements of the group are prepared in accordance with the Indian Generally Accepted Accounting Principles (GAAP) on accrual basis and under the historical cost convention, except for the following material items that have been measured at fair value as required by the relevant Ind AS.

- Certain financial assets and liabilities are measured at fair value (Refer accounting policy on financial instruments)
- Defined benefit and other long term Employee Benefits.
- Current versus non current classification: All the assets and liabilities have been classified as current and non current as per the group's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

3.2 Uses of Estimates & judgments

The preparation of Financial Statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenue and expenses and disclosure of contingent liabilities. The estimates and assumptions used in the accompanying consolidated financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements and reviewed on an ongoing basis. Actual results may differ from the estimates and assumptions used in preparing the accompanying consolidated financial statements. Any revision to accounting estimates is recognised prospectively in current and future periods.

3.3 Measurement of Fair Values

The accounting policies and disclosures require the measurement of fair values for both financial and non-financial assets and liabilities. The group has an established control framework with respect to the measurement of fair values, which includes overseeing all significant fair value measurements, including Level 3 fair values by the management. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information,

such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 - Quoted price (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted price included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 - Inputs for the asset or liability that is not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

3.4 Property Plant and Equipment and Depreciation

- Items of property, plant and equipment are measured at cost, which include capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost includes taxes, duties, freight and other incidental expenses directly related to acquisition/construction and installation of the assets. Any trade discounts and rebates are deducted in arriving at the purchase price.
- Subsequent expenditure is capitalised only when cost can be measured reliably and it is probable that the future benefits will flow to the group.
- Capital work-in-progress includes property plant and equipment not ready for their intended use and related incidental expenses and attributable interest.
- Expenditure during construction period:
Expenditure (direct & indirect) incurred during

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

the construction period which are attributable to acquisition / construction of property plant and equipment, will be capitalized with the respective Plant, Property & Equipment at the time of commissioning of such assets.

- e) The estimated useful life of assets are as follows:

Building	30 – 60 Years
Plant and equipment	20 – 25 Years
Plant and equipment – R & D	10 Years
Furniture and fixtures	10 Years
Vehicles	8 Years
Office equipment	5 Years
Computer and data processing equipment	3 Years

- f) Leasehold improvements and leasehold land are amortized over the lease term except for lease hold land acquired under perpetual lease.
- g) Depreciation on tangible property plant and equipment (property, plant and equipment) has been provided on Straight Line Method. Depreciation is provided on a pro-rata basis, i.e. from the date on which asset is ready for use. Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.
- h) Items of property plant and equipment that are held for disposal are stated at the lower of their net book value and net realizable value and are shown separately under other current assets in the financial statements. Any expected loss is recognized immediately in the Statement of Profit and Loss.
- i) An item of property, plant and equipment is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal are recognised in the Statement of Profit and Loss.

3.5 Intangible Assets

- a) Intangible assets are stated at cost of acquisition less accumulated amortisation and accumulated impairment losses, if any.
- b) Subsequent expenditure related to an item of intangible assets is added to its book value, only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.
- c) In respect of Intangible property plant and

equipment amortised on straight line basis – Technical know how @ 5.28 % p.a., computer software over a period of useful life of 3 years and product development expenses are to be amortised over a period of their useful life of 4 years.

- d) An intangible asset is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal of property plant and equipment carried at cost are recognised in the Statement of Profit and Loss.

3.6 Impairment of non-financial assets

The group assesses at each year end whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the group estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the group considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash in flows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

3.7 Borrowing Costs

Borrowing costs incurred on constructing or acquiring a qualifying asset are capitalized as cost of that asset until it is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue and recognized as an expense in the Statement of Profit

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

and Loss.

3.8 Research and Development Cost

Research and development costs incurred for development of products are expensed as incurred, except for development costs that relate to the design and testing of new or improved materials, products or processes, which are recognized as an intangible asset to the extent that it is technically feasible to complete the development of such asset and future economic benefits are expected to be generated from such assets. Capital expenditure on research and development is included as part of assets and depreciated on the same basis as other assets.

3.9 Assets classified as held for sale

The group classifies non-current assets (or disposal group) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

The criteria for held for sale classification is regarded met only when the assets (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal group), its sale is highly probable; and it will genuinely be sold, not abandoned. The group treats sale of the asset (or disposal group) to be highly probable when:

- ▶ The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- ▶ An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- ▶ The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- ▶ The sale is expected to qualify for recognition as a completed sale within one year from the date of classification , and
- ▶ Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. "

3.10 Inventories

- a) Inventories are valued at lower of cost or net realizable value on an item-by-item basis.
- b) Cost of finished goods, traded goods and work in progress is determined by considering materials, labour and other related costs incurred in bringing the inventories to their present condition and location. Cost of raw materials, packing materials

and consumables is determined on weighted average basis.

- c) Cost of Finished goods, work in progress and traded goods : Cost includes cost of direct materials, labour and other related costs incurred in bringing the inventories to their present condition & location.
- d) Goods in transit are valued at cost which represents the cost incurred up to the stage at which the goods are in transit.
- e) Provision of obsolescence on inventories is considered on the basis of management's estimate based on demand and market of the inventories.
- f) Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

3.11 Cash and Cash Equivalents

Cash comprises of cash at bank and in hand and cash equivalents comprising short-term bank deposits with an original maturity of three months or less.

3.12 Cash Flow Statement

Cash flows are reported using indirect method as set out in IND AS 7, "Statement of Cash Flows", whereby profit / (loss) before tax is adjusted for the effects of transactions of non cash nature and deferrals of accruals of past or future cash receipts or payments. The cash flows from operating, Investing and financing activities of the group are segregated based on the available information.

3.13 Leases

A lease is classified at the inception date as finance lease or an operating lease. Leases under which the group assumes substantially, all the risk and rewards of ownership are classified as finance leases. When acquired, such assets are capitalised at fair value or present value of the minimum lease, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of Profit and loss. Other leases are treated as operating leases, with payments recognised as expenses in the statement of profit and loss on a straight line basis over the lease term.

The group assesses whether a contract contains a lease, at inception of a contract. A contract is, or

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets, the group assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the group has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the group has the right to direct the use of the asset.

As a lessee, the group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment/primary period of lease. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the group's incremental borrowing rate.

Generally, the group uses its incremental borrowing rate as the discount rate. Lease payments included in the measurement of the lease liability comprise the fixed payments, including in substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method.

The group has used number of practical expedients when applying Ind AS 116: – Short term leases, leases of low-value assets and single discount rate.

The group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The group recognises the lease

payments associated with these leases as an expense on a straight line basis over the lease term.

3.14 Revenue Recognition

- a) Sale of goods is recognized as revenue when the significant risks and rewards of ownership of the goods have been passed on to the buyer. Revenues are recognized when collectability of the resulting receivable is reasonably assured. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.
- b) Income from services rendered is recognized based on agreements with the customers using the proportionate completion method, when services are performed and no significant uncertainty exists regarding the amount of the consideration that will be derived from rendering of service.
- c) Export incentives are recognised when the right to receive credit as per the terms of incentives is established in respect of exports made.
- d) Interest income is recognized on a time proportionate basis, taking into account the amount outstanding and the rates applicable. For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate method to the net carrying amount of the financial assets.

3.15 Income Tax

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law), deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period) and Minimum Alternate Tax (MAT) credit entitlement.

a) Current Tax

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate

b) Deferred Tax

Deferred tax is recognised in respect of temporary

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income (OCI) or directly in equity.

Deferred tax assets and liabilities are offset only if:
a) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity"

c) Minimum Alternate Tax

MAT is recognised as an asset only when and to the extent there is convincing evidence that the

group will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised, it is credited to the statement of profit & loss and is considered as (MAT credit entitlement). The group reviews the same at each Balance Sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the group will pay normal income tax during the specified period. MAT credits are in the form of unused tax credits that are carried forward by the group for a specified period of time, hence, it is presented as Deferred Tax Asset.

3.16 Employee Benefits

Employee benefits payable wholly within twelve months of receiving employees' services are classified as short-term employee benefits. The short term employee benefits are accounted on undiscounted basis during the accounting period based on services rendered by employees.

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The group contributes to statutory provident fund in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 that is a defined contribution plan and contribution paid or payable is recognized as an expense in the period in which the employee renders services. Superannuation benefits, a defined contribution plan, has been funded with Life Insurance Corporation of India (LIC) and the contribution is charged to Statement of profit and loss, when the contribution to the Fund is due.

II. Defined benefit plans

The group provides for gratuity benefit and compensated absences, which are defined benefit plans, covering all its eligible employees. Liability towards gratuity benefits and compensated absences expected to occur after twelve months, are determined using the Projected Unit Credit Method. Actuarial valuations are carried out at the balance sheet date. Remeasurements of the net defined benefit liability, which comprises actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The retirement benefit obligation recognized in the balance sheet represents the present value

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

of the defined benefit obligation as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets. The gratuity benefit and compensated absences scheme is funded with the Life Insurance Corporation of India (LIC). The short term provision for compensated absences has been calculated on undiscounted basis, based on the balance of leave available over and above the maximum accumulation allowed as per the group's policy.

of the discount is recognised as finance cost.

- b) A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation of a present obligation in respect of which the likelihood of outflow of resources is remote, no provision disclosure is made.

3.17 Foreign Currency Transactions

a) Functional and presentation currency

Initial recognition-Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount, the exchange rate between the functional currency and the foreign currency at the date of the transaction. The financial statements are presented in Indian rupee (INR), which is the group's functional and presentation currency.

b) Transactions and balances

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/Losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised in the Statement of Profit and Loss.

All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions."

3.18 Provisions and Contingencies

- a) A provision is recognised, if, as a result of a past event, the group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding

3.19 Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

3.20 Earnings per Share

Basic EPS is calculated by dividing the net profit or loss before OCI for the year by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted EPS, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

3.21 Operating Cycles

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Based on the nature of products/activities of the group, the management has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.22 Contributed equity

Equity shares are classified as equity share capital.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. As per Ind AS 32, the transaction costs pertaining to rights issue of equity instruments is required to be deducted from equity to the extent they are directly attributable to the equity related transactions and the same will be adjusted once the proceeds from the issue are received.

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

3.23 Dividend

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and Interim dividends are recorded as a liability on the date of declaration by the group's board of directors.

3.24 Financial Instruments

a) Financial Assets

i) Recognition and initial measurement

Financial assets are recognised when the group becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value through profit and loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the statement of profit and loss.

ii) Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Any gain or loss on derecognition is recognised in the statement of profit and loss.

Financial assets at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the statement of profit and loss.

Financial assets at fair value through profit (FVTPL)

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit and loss.

Financial instruments measured at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to the statement of profit and loss.

iii) Derecognition

The group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

iv) Impairment of Financial Assets

In accordance with Ind AS 109, the group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- Trade receivables.

The application of simplified approach does not require the group to track changes in credit risk. Rather, It recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

b) Financial Liabilities

i) Recognition and initial measurement

All financial liabilities are initially recognised when the group becomes a party to the contractual provisions of the instrument. A

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

financial liability is initially measured at fair value, in case of financial liability which is recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the issue of a financial liability.

ii) Subsequent measurement

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL, if it is classified as held-for-trading, or as a derivative or if designated as such on initial recognition. Financial liabilities 'at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement 'of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. 'Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss 'on derecognition is also recognised in the statement of profit and loss.

iii) Derecognition

The group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability is extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

iv) Setting off financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

c) Derivative Financial Instruments

The group uses derivative financial instruments, such as forward currency contracts to hedge its interest rate risk. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any changes therein are generally recognised in the profit and loss account.

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

a) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the group. Such changes are reflected in the assumptions when they occur.

b) Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

The group neither has any taxable temporary difference nor any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. On this basis, the group has determined that it cannot recognize deferred tax assets on the tax losses carried forward except for the unabsorbed depreciation. "

c) Defined benefit plans (gratuity benefits and Compensated Absences)

The cost of the defined benefit plans such as gratuity and Compensated Absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each year end.

The principal assumptions are the discount and salary growth rate. The discount rate is based upon the market yields available on government bonds at the accounting date with a term that matches

3.25 Significant accounting judgments, estimates and assumptions

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

that of liabilities. Salary increase rate takes into account of inflation, seniority, promotion and other relevant factors on long term basis.

d) Impairment of non-financial assets and goodwill

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

3.26 Standards that became effective during the year

There are no new Standards that became effective during the year. The group has applied certain amendments that became effective during the year which are discussed below: [This is to be updated as applicable]

a) Interest Rate Benchmark Reform – Phase 2: Amendments to Ind AS 109, Ind AS 107, Ind AS 104 and Ind AS 116

The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR).

The amendments include the following practical expedients:

- A practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest
- Permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued
- Provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component

These amendments have no impact on the financial statements of the group. The group intends to use the practical expedients in future periods as and when it become applicable."

b) Amendments to Ind AS consequential to Conceptual Framework under Ind AS

The Framework is not a Standard and it does not override any specific standard. Therefore, this does not form part of a set of standards pronounced by the standard-setters. While, the Framework is primarily meant for the standard-setter for formulating the standards, it has relevance to the preparers in certain situations such as to develop

consistent accounting policies for areas that are not covered by a standard or where there is choice of accounting policy, and to assist all parties to understand and interpret the Standards.

The amendments made in following standards due to Conceptual Framework for Financial Reporting under Ind AS include amendment of the footnote to the definition of an equity instrument in Ind AS 102- Share Based Payments, footnote to be added for definition of liability i.e. definition of liability is not revised on account of revision of definition in conceptual framework in case of Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets etc.

The MCA has notified the Amendments to Ind AS consequential to Conceptual Framework under Ind AS vide notification dated June 18, 2021, applicable for annual periods beginning on or after April 1, 2021. Accordingly, the Conceptual Framework is applicable for preparers for accounting periods beginning on or after 1 April 2021.

These amendments have no impact on the financial statements of the group."

c) Ind AS 103: Business combination

The MCA clarified that for the purpose of this Ind AS, acquirers are required to apply the definition of asset and liability given in the framework for preparation and presentation of financial statements with Indian Accounting standards rather than the conceptual framework. Therefore, the acquirer does not recognise those costs as part of applying the acquisition method. Instead, the acquirer recognises those costs in its post-combination financial statements in accordance with other Ind AS.

These amendments have no impact on the financial statements of the group."

d) Amendment to Ind AS 105, Ind AS 16 and Ind AS 28

In the definition of "Recoverable amount" the words "the higher of an asset's fair value less costs to sell and its value in use" are replaced with "higher of an asset's fair value less costs of disposal and its value in use". The consequential amendments are made in Ind AS 105, Ind AS 16 and Ind AS 28.

These amendments have no impact on the financial statements of the group."

3.27 Rounding off amounts

All amounts disclosed in financial statements and notes have been rounded off to the nearest lakh as per requirement of Schedule III of the Act, unless otherwise stated.

57 RISK MANAGEMENT

Financial Risk Management objectives & Policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's activity exposes it to market risk, commodity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company, the Company evaluates various options and may enter into derivative financial instruments like foreign exchange forward contracts, foreign currency option contracts in order to hedge certain foreign currency risk exposures and interest rate swaps to hedge variable interest rate exposures. Derivatives, if entered into, are used exclusively for hedging purposes and not as trading or speculative instruments.

57 RISK MANAGEMENT (Contd..)

The Company's financial risk management policy is set by the Managing Director and governed by overall direction of Board of Directors of the Company. Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rate, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

57.1 Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

a) Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:

Particulars	March 31, 2022	March 31, 2021
Not Due	9033.54	5065.61
0 - 90 Days	624.66	774.34
90 - 180 Days	-	114.23
180 - 270 Days	.08	-
270 - 365 Days	-	-
More than 360 Days	-	14.97
Total	9658.27	5969.16

The Company allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of loss (e.g. timeliness of payments, available press information etc.) and applying experienced credit judgment. Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Given that the macro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of minimal credit losses to continue.

b) Cash and Cash Equivalents

The Company held cash and cash equivalents of ₹ 222.00 Lakhs at March 31, 2022 (March 31, 2021: ₹ 35.08 Lakhs). This includes the cash and cash equivalents held with the bank and the cash on hand with the Company.

57.2 Liquidity Risk

Liquidity risk is the risk in terms of difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

57 RISK MANAGEMENT (Contd..)

The Company has obtained fund and non-fund based working capital loan from bank. The borrowed funds are generally applied for Company's own operational activities.

Exposure to liquidity risk:

- a) The following are the remaining contractual maturities of financial liabilities at the reporting date.

The amounts are gross and undiscounted :

31-Mar-22

Particulars	Up to 1 Year	1 to 3 Year	3 to 5 Years	> 5 Years	Total carrying amount

	9400.34	1269.96	609.80	159.04	11439.15

- b) Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. The company's exposure to the risk of changes in the market interest rate relates primarily to the company's long term debt obligations with floating interest rates. The company's interest rate exposure is mainly related to variable interest rates debt obligations. The Company manages the liquidity and fund requirements for its day to day operations like working capital, suppliers/buyers credit.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. Borrowings issued at fixed rates exposes to fair value interest rate risk. The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

Particulars	March 31, 2022	March 31, 2021
Floating rate instruments		
Financial Liabilities – measured at amortised cost		
Term loan from banks	1278.16	1660.85

57 RISK MANAGEMENT (Contd..)

Particulars	March 31, 2022	March 31, 2021
Loan from intercorporate (Unsecured)	–	217.98
Loan from Directors (Unsecured)	–	288.64
Total	7841.01	6034.11

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

The risk estimates provided assume a change of 25 basis points interest rate for the interest rate benchmark as applicable to the borrowings summarised above. This calculation assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date assuming that all other variables, in particular foreign currency exchange rates, remain constant. The period end balances are not necessarily representative of the average debt outstanding during the period.

Cash flow sensitivity (net)	Profit or loss	
	25 bp increase	25 bp decrease
31-Mar-22		
Variable rate loan instruments	19.60	(19.60)
31-Mar-21		
Variable rate loan instruments	15.09	(15.09)

57.3 a) Market Risk

Market risk is the possibility of losses that may be incurred by the company due to factors that affect the overall performance of the company – such as foreign exchange rates, interest rates, recessions etc. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily due to the fluctuations in the rate of interest for borrowings from banks, recession in the market, foreign exchange rate fluctuation etc.

b) Currency Risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar against the functional currencies of the Company. The Company, as per its risk management policy, uses natural hedge technique of adjusting foreign currency receivables against currency payables. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. Exposure to all other foreign currencies other than US Dollar is not material.

c) Exposure to currency risk

The currency profile of financial assets and financial liabilities as at March 31, 2022 & March 31, 2021 are in Indian Rupees.

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against US dollars and Pounds at March 31 would have affected the measurement of financial instruments denominated in US dollars and Pounds and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

D) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

58 CAPITAL RISK MANAGEMENT

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves. The primary objective of the Company's Capital Management is to maximize shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

Notes to Consolidated Financial Statements

for the year ended March 31, 2022

(Amount in Indian Rupees in lakhs unless otherwise stated)

The Company monitors capital using adjusted net debt to equity ratio. For this purpose, adjusted net debt is defined as total debt less cash and bank balances.

59 The Code on Social Security 2020

The Code on Social Security 2020 ('the Code') relating to employee benefits, during the employment and post-employment, has received Presidential assent on September 28, 2020. The Code has been published in the Gazette of India. Further, the Ministry of Labour and Employment has released draft rules for the Code on November 13, 2020. However, the effective date from which the changes are applicable is yet to be notified and rules for quantifying the financial impact are also not yet issued.

The Company will assess the impact of the Code and will give appropriate impact in the financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.

60 Figures of the Previous year are regrouped / reclassified wherever considered necessary and rounded off to the nearest lakh.
