Since its inception 30 years ago, Bhagiradha Chemicals & Industries Ltd (BCIL), has embarked on an inspiring journey, transforming from a modest agrochemical company located in a backward district of combined Andhra Pradesh, to a widely recognized and preeminent agrochemical manufacturer in the domestic and overseas markets

BCIL was established in the year 1993 by visionary entrepreneur, late Sri. S. Koteswara Rao, who recognized the immense potential of the agrochemical industry. Armed with a clear mission to enhance crop productivity, ensure food security, and promote viable farming practices, Sri. S. Koteswara Rao, laid the foundation for what would become a remarkable success story.

BCIL portrayed remarkable resilience during turbulent times and withstood adverse and dynamic business conditions to emerge stronger over the years. BCIL, consistently ensured that its R&D capabilities broadened its strong product portfolio on a regular basis to meet the emerging market needs and currently lined up certain products for commercialization as soon as the necessary approvals are in place. Its manufacturing facility has been modernized from time to time with emphasis on enhancing safety, improving operational efficiency, quality assurance and from the regulatory compliance perspectives. The construction of the manufacturing plant of its subsidiary, Bheema Fine Chemicals Private Limited, at Kadegur, Karnataka is

in progress and it will roll out commercial production within a year from now.

As the company enters the 31st year of existence, it remains firmly committed to its founding values and his founder's vision and mission with a strong emphasis on continuous improvement and leveraging emerging technologies, environmental sustainability and customer satisfaction. With an impressive track record, strong R&D skills, experienced management, loyal customer base, capacity expansion plans and above all a committed workforce, BCIL believes that it is poised to make significant strides in the coming years in line with its determined business plans.

BCIL focused on driving non-infringing and innovative processes through extensive research and development efforts, since beginning. With utmost dedication, pioneering solutions, and a strong commitment to environmental management, BCIL has evolved and cemented its place as a reputed player in the agrochemical sector.

Forming alliances with leading players in various regions, it successfully entered international markets, built enduring relationships and strong customer base, securing its position as a global agrochemical player. Today, with a permitted production capacity of 3250 tons per annum and a range of 15 products, BCIL has left its footprints in about twenty-three countries across the globe, serving the farming communities worldwide.

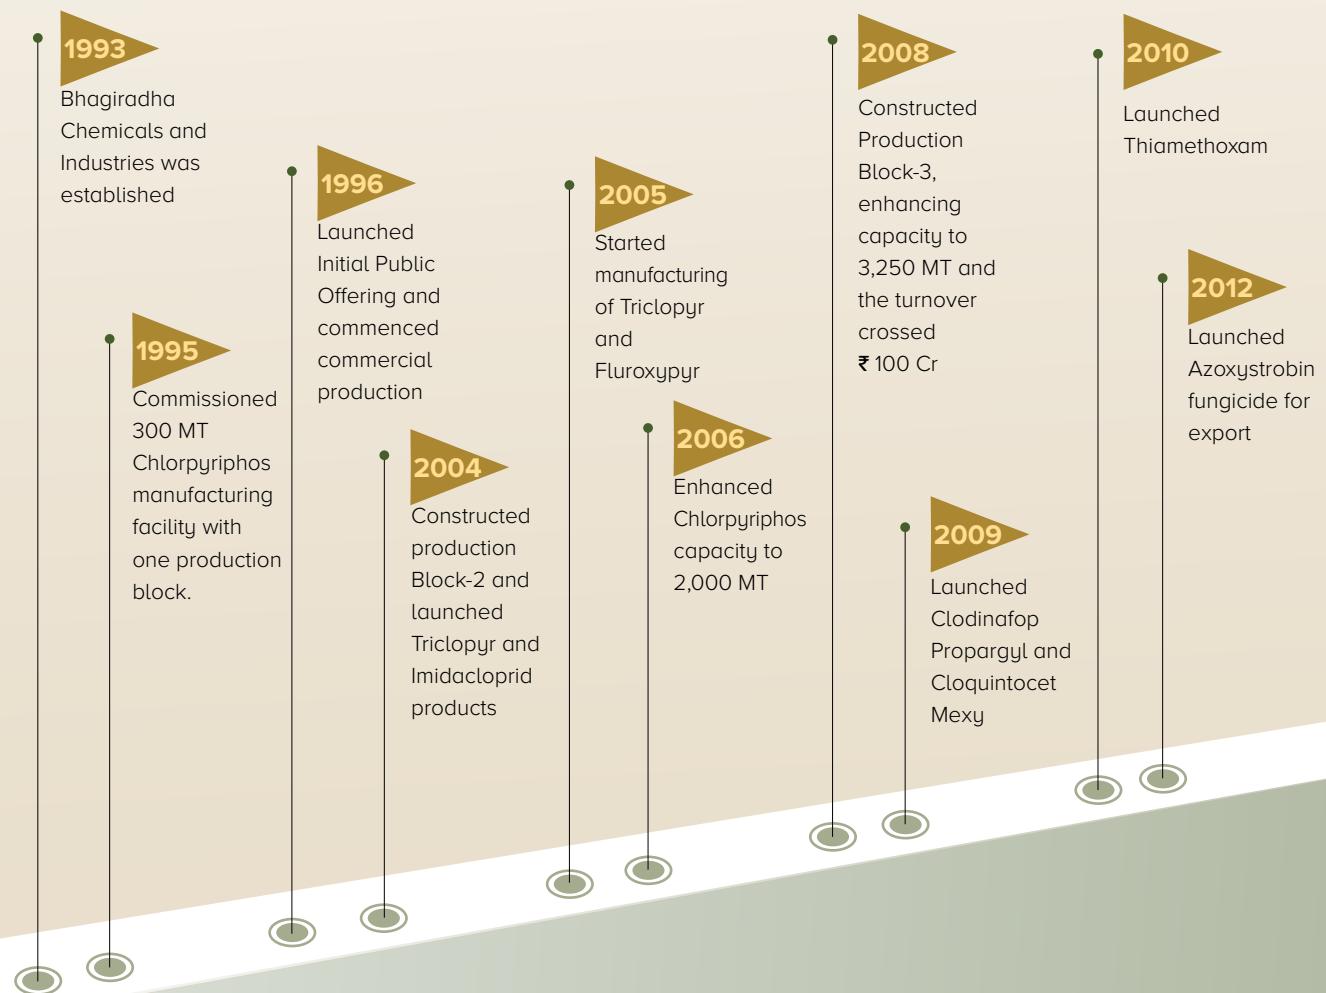

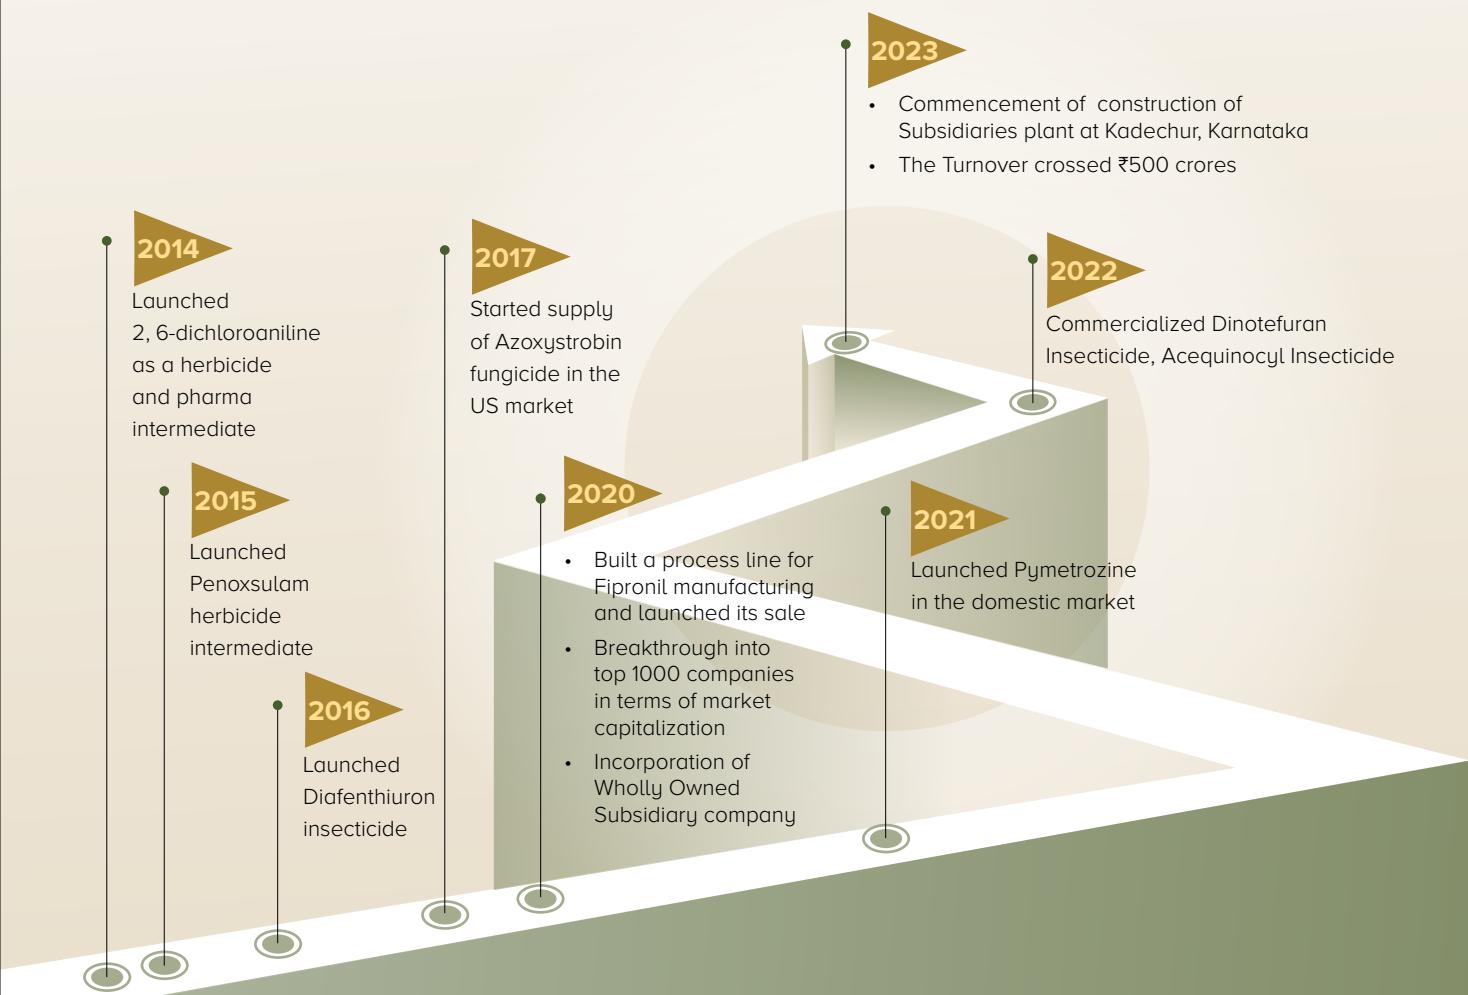

30 years of sustainable growth

Our journey as an agrochemical manufacturing company, over the past three decades, has been defined by several milestones and pursuit of excellence. Consistency in delivering quality products has been an obsession for BCIL and forms part of its DNA and this has helped us establish as a trusted and respected name in the agrochemical landscape. Looking ahead, we remain committed to our ethical business values and eco-friendly manufacturing practices.

Our R&D Center situated within the factory premises is recognized by Ministry of Science & Technology, Government of India. Having latest equipment and instruments and an expert team of qualified personnel, it is instrumental for the development of viable processes for new products, process upgrades through backward integration and for optimizing existing technologies and scale. Our deep innovation capabilities have enabled us to establish a portfolio of 15 products spread across various insecticides, herbicides and fungicides and other intermediates.

New products driving growth

We have a strong product pipeline ready for commercial production and some of these products shall be introduced to the market in the coming years.

To meet the growing needs of the customers and continue to remain among the front runners, our R&D team is working on process development of a few products which shall go off-patent in the near future.

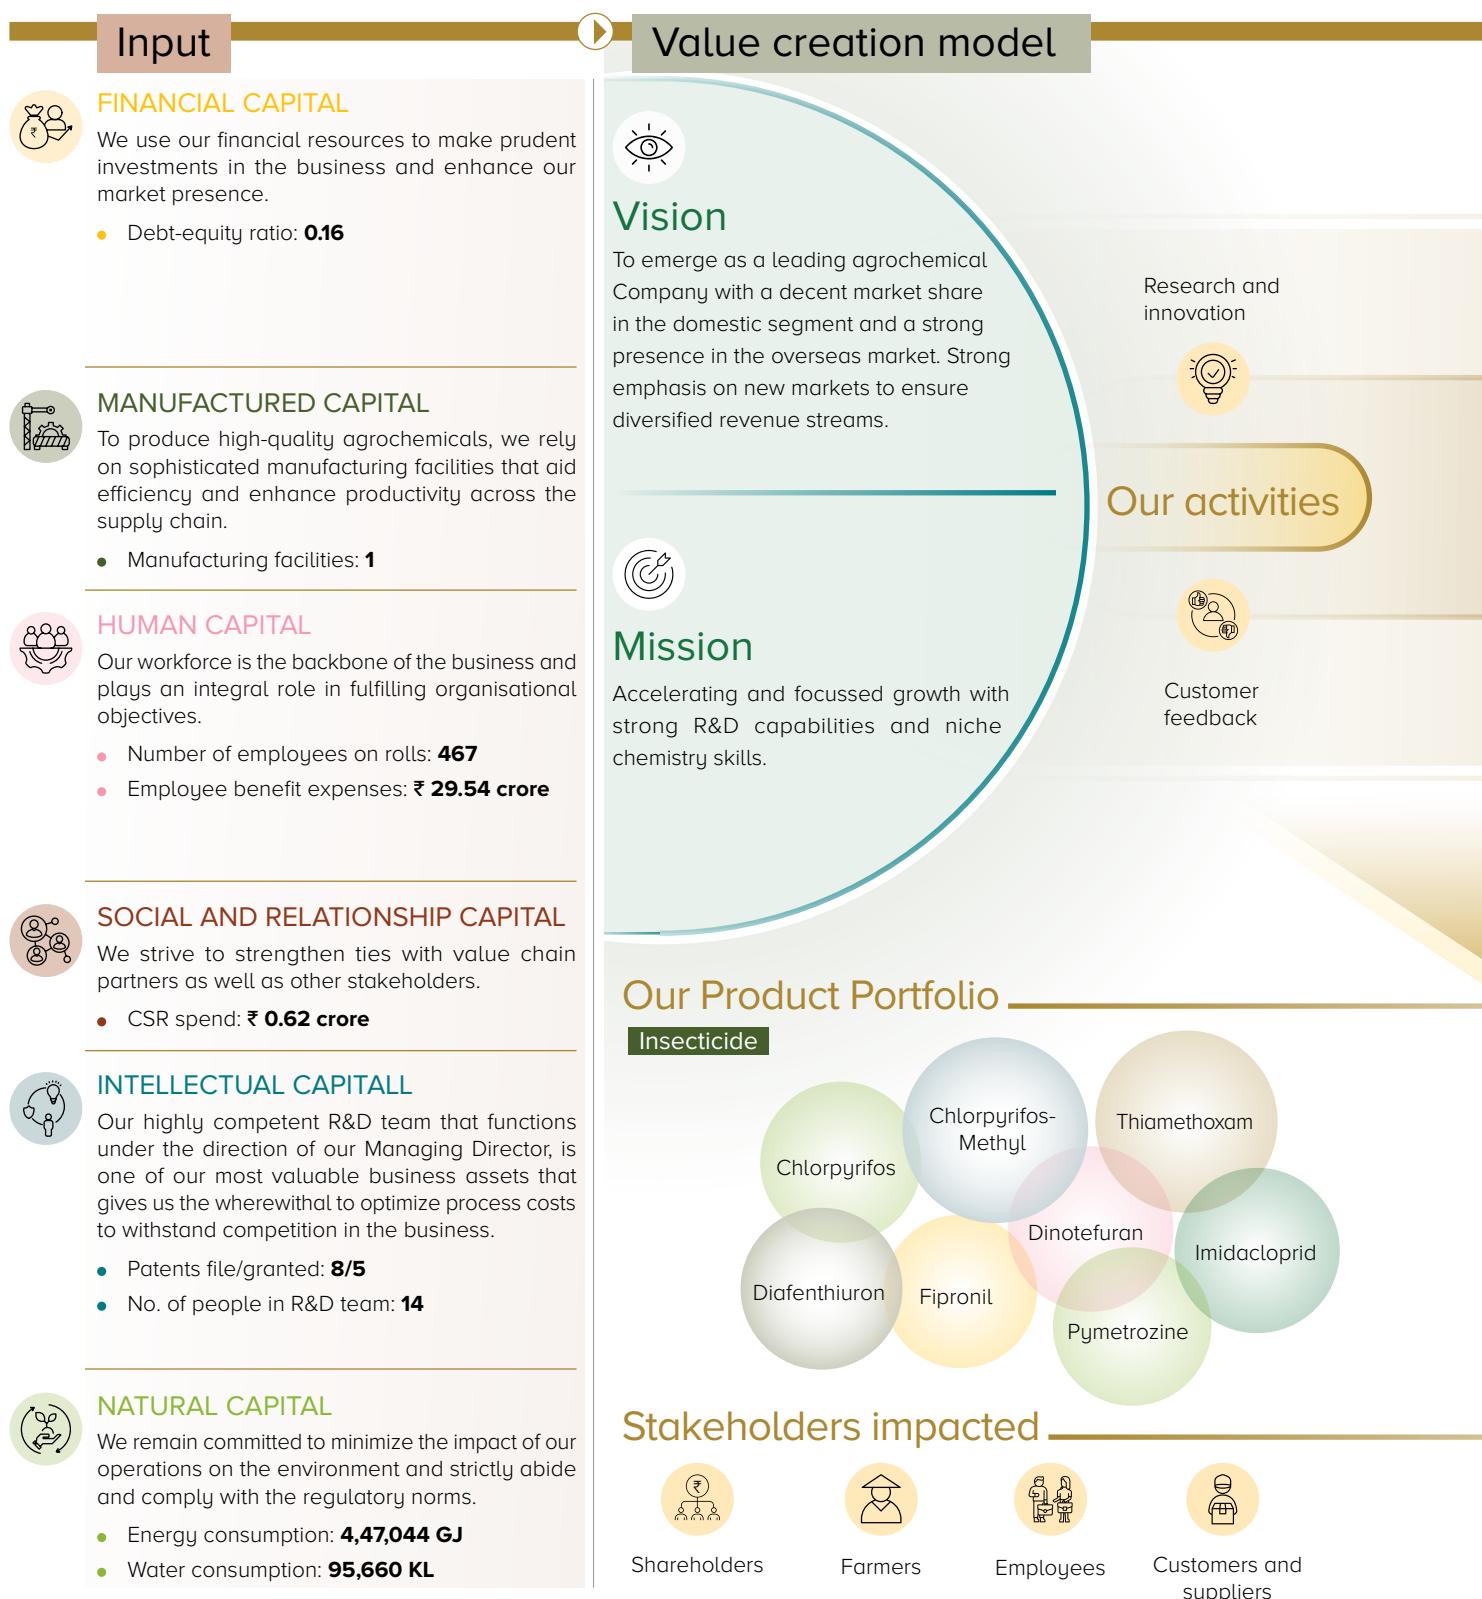

As we continue to research and develop processes to strengthen our product portfolio, we are excited to enter into the next decade of our journey and offer our expertise for growth for the larger benefit of the agrochemical sector, economy and our country.

Chairman's message

K. Satyanarayana Raju
Chairman

The dedication and tenacity of our personnel have been integral to upholding our cherished legacy of 30 years. Through their unwavering commitment, we have been able to build trust and deliver excellence to our valued clients over the years. Their sense of belongingness and relentless pursuit of quality have played a crucial role in driving our growth and delivering significant value to our stakeholders.

I am delighted to present the annual report summary for the fiscal year 2022-23, highlighting the significant developments and achievements of our company amidst a dynamic and challenging environment. The year marks three decades of our company's journey, having created sustained value for stakeholders, consistently.

The year under review has also been another year of turbulence with the world economy hit by the geopolitical uncertainties and mounting inflationary pressures largely attributable to the persisting Russia-Ukraine war leading to impaired growth of major economies, despite the receding effects of the pandemic. While Indian economy remained resilient, aided by healthy performance by agriculture and service sectors, agrochemical sector witnessed inventory pile-up and demand contraction owing to excess supplies in the market in the last couple of quarters.

Against this backdrop, your company has posted commendable numbers by surpassing the INR Five Hundred crore turnover mark during the year. The gross income improved to ₹ 503.93 Cr from ₹ 436.53 Cr of the previous year, registering a growth of 15.44%. The profit before tax jumped to ₹ 65.04 Cr from ₹ 51.46 Cr of the previous year, clocking a growth of 26.38%. The profit after tax stood at an all-time high of ₹ 46.40 Cr recording an improvement of 29.27% over the PAT of previous year. There has been a contraction in the export sales from ₹ 105.42 Cr to ₹ 53.29 Cr, in keeping with the business strategy and prevailing overseas market conditions. Our proactive measures included increasing safety stocks, strengthening procurement arrangements, and adjusting prices to accommodate the market dynamics. By swiftly adapting to the changing environment, we ensured the uninterrupted supply of our products to meet the demands of our valued customers.

Indian agrochemical industry has huge unrealized potential for growth as the application of agrochemicals per acre is very low compared to other large countries. Therefore, its role in realizing the government's vision of USD 5 Trillion economy by the year 2025 cannot be overemphasized, as it not only ensures food security and provides livelihood but also provides impetus to the growth of industrial and service sectors. Your Company is already among the top 1000 companies of the country in terms of market capitalization and aspires to be an important spoke in realizing the government's vision in the coming years.

The dedication and tenacity of our personnel have been integral to upholding our cherished legacy of 30 years. Through their unwavering commitment, we have been able to build trust and deliver excellence to our valued clients over the years. Their sense of belongingness and relentless pursuit of quality have played a crucial role in driving our growth and delivering significant value to our stakeholders.

The China +1 strategy will be beneficial for India as major consumers might prefer to shift their supplier base to India. This, along with sustained demand from countries like the US, Brazil and European Union and the improving pesticide consumption trends in our country should contribute to the growth of agrochemical industry in India. Your Company is looking forward to capitalize on such available opportunities in the domestic as well as the overseas markets. Powered by a competent team with the mind-set to deliver, I am confident in our ability to create value for all our stakeholders, even though uncertainties prevail.

I extend my deepest gratitude to our esteemed shareholders who stood with us and believed in our vision. I would also like to express our sincere thanks to the state and central governments, our customers, vendors, bankers, Merchant bankers, Registrars and all other stakeholders who have played a crucial role in our journey. Together, we will continue to navigate uncertainties and seize opportunities, ensuring a prosperous future for our company and all our stakeholders.

Best Regards,
K. Satyanarayana Raju

Managing Director's message

S. Chandra Sekhar
Managing Director

The financial year year 2022-23 has been an important year for our company, as we celebrate three decades of existence reflecting our enduring commitment to excellence and growth. Despite the challenges faced in our operating environment during this period, we have demonstrated resilience and come back strongly every time we faced a setback.

I feel extremely happy in sharing with you the performance highlights of your company for the year under review. While the revenues from operations crossed the five hundred crore milestone and stood at ₹ 502.09 Cr compared to ₹ 435.67 Cr of the previous year, the EBITDA improved

to ₹ 79.69 Cr against the previous year's ₹ 69.19 Cr, registering a growth of 15.25% and 15.17 % respectively. The profit before tax rose to ₹ 65.04 Cr from the previous year's ₹ 51.46 Cr and the profit after tax stood at ₹ 46.41 Cr against the previous year's ₹ 35.90 Cr, clocking growth of 26.38% and 29.27 % respectively. This impressive performance is achieved with strong focus on domestic sales.

To overcome the pressure on margins, we have been making capital investments over the years to facilitate backward integration of certain processes as a strategy, which has yielded significant benefits. Our endeavour is to lower our reliance on China for procuring raw materials and achieve cost efficiency. Through meticulous product selection, we have aligned our offerings with market demand, ensuring a competitive edge in the industry. Our R&D team is working overtime to build a robust pipeline of viable products for commercialization in the coming years and we are actively pursuing for expeditious registration approvals for a diverse range of commercially promising products, both in domestic and overseas markets which shall be the drivers of our future growth

and success. The manufacturing plant of our wholly owned subsidiary is under implementation at Kadechur, Yadgir district, Karnataka and additional capacities shall be available at full steam in the next financial year.

We are fuelled by the momentum we have built over the past years and are resolute in our mission to continue exceeding the expectations of our shareholders, customers, and stakeholders. The unwavering commitment shown by our employees at all levels deserves all praise and I sincerely thank everyone of them.

We thank the shareholders for their confidence reposed in us. We understand the importance of earning and maintaining the trust and confidence of all the stakeholders as we venture into uncharted territories, seeking new opportunities for innovation and advancement.

Warm regards,

CEO's message

A. Arvind Kumar
Chief Executive Officer

We are aiming to have registration approvals in place during the current year for a couple of products which have significant commercial potential and also focusing on improving our overseas footprint with appropriate strategies.

Dear Shareholders,

As your company steps into its 31st year of existence with rich legacy, I feel immensely happy that we could come out with an outstanding performance in the financial year 2022-23.

We have crossed the key milestone of ₹ 500 Cr sales during the year and achieved the highest ever net profit of ₹ 46.41 Cr. These numbers were achieved, despite the slowdown in global economic growth due to trade tensions, continuing Russia- Ukraine war and elevated inflation levels among other factors. Our steadfast commitment to our medium to long term vision, combined with a dynamic

and result-oriented team, backed by the able guidance of our Board Members, has propelled us to achieve this remarkable performance.

While the global economic outlook continues to remain fragile and concerns of glut in the agrochemical market place loom large, we are confident of navigating successfully through these testing times with proper strategies and sustain the momentum of growth demonstrated by us over the years. We are aiming to have registration approvals in place during the current year for a couple of products which have significant commercial potential and also focusing on improving our overseas footprint with appropriate strategies.

The civil works relating to the manufacturing facility of our wholly owned subsidiary, Bheema Fine Chemicals Private Limited, at Kadchur, Karnataka, are under progress and the much needed

capacity augmentation shall happen in the next fiscal and this will not only create new revenue streams but will also enable us to meet the evolving demands of our valued customers.

With a proven track record of operational excellence, robust research and development capabilities, strategic plans for capacity expansion, uncompromising thrust on quality and an experienced management team at the helm, we have confidence in our ability to generate long-term value for our shareholders.

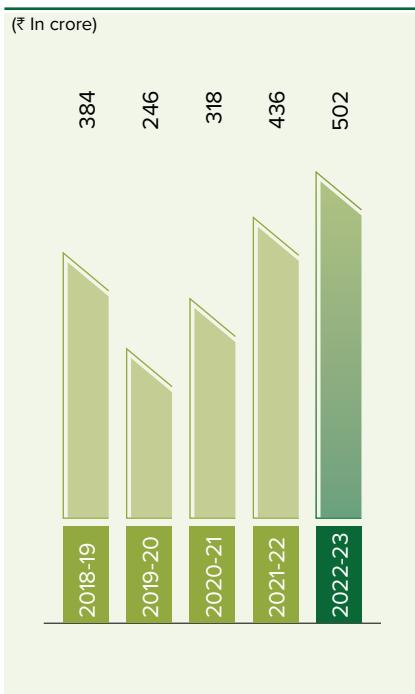

I sincerely thank all my colleagues, who have given their best to the company, and all our stakeholders who have kept their faith in us.

Warm regards,
A. Arvind Kumar

Strengthening our core capabilities

MANUFACTURING FACILITIES

BCIL is operating its manufacturing facility in Cheruvukommupalem, Ongole, Andhra Pradesh. More than sixty percent of the 71.68 acres of factory land is open area covered with green belt and its three production blocks catering to five process lines, utilities, quality assurance block, warehouse, R&D facility etc. are located in a well-planned layout. .

We are putting in the best of efforts not to be left behind in adopting latest technologies in the wake of fundamental shift in advanced manufacturing landscape. Through thoughtful application of these

new technologies and capabilities, BCIL is aiming at automation of processes wherever possible and enacting new safety protocols for employees. The CAPEX incurred by BCIL over the past few years has gone into modernizing the plant operations in line with the changing requirements of the customers to stay relevant in the market. Its Effluent Treatment Plant has undergone a thorough overhaul during the last five years and conforms to the best of standards, equipped with Stripper, Multiple Effect Evaporators, forced Evaporation system, Agitated Thin Film Dryers, Biological Treatment Plant and Reverse Osmosis plant. Inorganic sludge

generated in the process is disposed to secured land fill approved by the regulatory authorities after necessary treatment.

The company has consistently received quality certifications from various independent bodies endorsing that the practices and systems followed by it under various parameters relating to various facades of the manufacturing operations and environmental and regulatory norms, conform to the required standards.

QUALITY ASSURANCE, CONTROL & COMPLIANCE

Efficient quality management has all along been the hallmark of BCIL over the years and forms part of its core legacy. BCIL has a modern laboratory equipped with contemporary instruments and technical tools situated within the factory premises, where the Quality Assurance and Control departments function. Standard daily checks are conducted to identify defects in the incoming raw materials and finished products. Regular quality checks are conducted to pinpoint defects and course corrections at all stages of the manufacturing process. Process gaps identified during Quality assurance and Control checks are analyzed and the Standard Operating Procedures are updated accordingly. Regular schedule of plant inspection and compliance audits help us in identifying inadequacies to come out with solutions to improve the processes quickly.

RESEARCH AND DEVELOPMENT

The company's R&D department functions within the factory premises in Cheruvukommupalem. A compact yet competent team of BCIL has demonstrated its capabilities time and again coming out with novel processes and cost optimizing solutions on a regular basis. Inspired by the Founding Director, Dr Malladi Pardhasaradhi, who kindled passion, the team is ceaselessly putting efforts to roll out un-infringing processes for the generic molecules identified based on its commercial potential. During the year under review, two Indian patents have been granted for the following processes developed in our R&D.

- PREPARATION OF HIGH PURITY TRIFLUOROMETHYL SULFINYL CHLORIDE USING HYPERVALENT IODINE CATALYST
- PROCESS FOR PREPARATION OF [1,4,5]-OXADIAZEPANE OR ITS SALTS

A semi Commercial plant has been set up alongside the present R&D block to accelerate the process of full scale production for those of the products proposed for commercialization in the near future.

ENVIRONMENTAL HEALTH AND SAFETY MANAGEMENT SYSTEM

BCIL believes that EHS management is a crucial aspect of its operations, as it not only minimizes environmental impact and improves worker safety and well-being but also improves employee retention, productivity and enhances the company's brand image, spurring customer and corporate growth. EHS systems are constantly monitored and fine-tuned to address the new risks and hazards related to the work place and the environment surrounding the company's operations and the EHS policy is updated from time to time. An onsite Occupational Health Centre operates round the clock with necessary medical infrastructure and deals with health issues or emergencies. Qualified medical personnel man this Medical Centre and conduct medical checkup of all employees periodically.

Effectively dealing with industrial waste water is a legal obligation and a matter of strict regulatory compliance. To ensure this, an efficient Zero Liquid Discharge system is in place forming part of the in house effluent treatment plant which separates solid waste and water from the effluent. The water is recycled and used in the cooling towers, while the solid waste is disposed to approved landfills, thus ensuring that no water or air pollution is caused on account of company's operations.

Identifying opportunities in a dynamic market

DEMAND FOR SUSTAINABLE PRODUCTS

Our nation is the world's largest producer of pulses and spices and has the most land planted to wheat, rice, and cotton. It is the second-largest producer of rice, wheat, cotton, sugarcane, and fruits and vegetables. Agriculture sector in India holds the record for second-largest agricultural land in the world generating employment for about half of the country's population. The Indian agricultural sector is predicted to increase to US\$ 24 billion by 2025 and rapid population expansion in India is the main factor driving the industry. Despite the potential and crucial role played by this sector, it faces several challenges that hinder its growth and profitability due to lack of needed awareness and apprehensions on the part of farmers and also the slow pace of registrations leading to high R&D costs and turnaround time. BCIL is committed to quality and it will thrive to follow the best of manufacturing processes to rollout sustainable generic agrochemicals at affordable cost to its customer.

ADOPTION OF CONTEMPORARY TECHNOLOGY

The rapid adoption of advanced technology in the chemical industry has led to the development of new-age products that help to optimise farming practices and improve crop yield. To sustain our position in a competitive market, we are utilising advanced technology for our production processes as well as to enhance our research capabilities.

INCREASED FOCUS ON RESEARCH AND DEVELOPMENT

Crop protection sector has played an important role in bringing change from subsistence farming, low growth in crop and grain production to the green revolution that propelled surplus production over the last four decades in India. R&D has played a crucial role in making this transition possible and its contribution continues to be vital for the growth of crop protection sector. Founded by visionary Scientists, Bhagiradha is continuing its journey in upgrading its Research & Development capabilities and facilities to harness their power independently. As a good number of molecules have gone off patent in the recent years and some more are set to follow suit, Bhagiradha is strategically implementing its plans to fortify its R&D infrastructure and resources to take advantage of the opportunities that have been unfolding.

GOVERNMENT'S EMPHASIS ON AGROCHEMICAL SECTOR

India has emerged as one of the largest producers of agrochemicals in the world, mainly due to the government's agriculture focused initiatives to increase production and reduce crop loss. Several revolutionary reforms and initiatives have already been implemented with the goal of achieving world-class agricultural productivity. With a vision of achieving 'Atmanirbhar Bharat', the government is turning every stone in the form of 'Make in India' reforms in law, benefits to marginal farmers, and crop based subsidies to meet the United Nations' goals of sustainable development. We have a balanced portfolio of fungicides, insecticides and herbicides. It would mean a great push to our company, if the benefits of Production Linked Incentive scheme launched by the central government are also made available to the agrochemical sector.

ESG

Nurturing sustainability – for people and the planet

ENVIRONMENT

As a responsible Corporate, ESG forms the core of our business philosophy and is closely integrated with our operational initiatives. BCIL conducts its manufacturing operations in an environmentally responsible manner. About 60% of BCIL's plant area is covered under green belt. The company continues to upgrade its infrastructure to reduce emissions and has installed Online Continuous Emission Monitoring System to record real time data and is following the 'Miyawaki Plantation' Methodology as per the directions of the Pollution Control Board.

SOCIAL

Employee engagement

BCIL believes in creating sustainable value for all its stakeholders, and sustainability is closely integrated into the company's philosophy. The Company's social commitments span in the areas of education, health and community development.

Training and development

The development of our people is vital to sustained growth of the organisation. We initiate different types of training and development programmes to foster skill development and create a future ready workforce.

GOVERNANCE

We believe that a strong system of corporate governance gives us the ability to cultivate an ethical and sustainable work environment. As a result, we are committed to upholding high standards of corporate governance in conducting our business and upholding a strong self-regulatory system that safeguards the interests of different stakeholders. We do this by regularly reviewing our policies, creating an environment that encourages ethical behaviour, and promptly informing our staff of important policy changes. Our goal is to operate at the highest level of excellence while maintaining an ethical and transparent organisational culture.

People that help build our Legacy

Making meaningful change possible

At Bhagiradha, we are dedicated to making a meaningful difference through our Corporate Social Responsibility initiatives.

We believe that by conducting our business with utmost respect for the environment and the community, we can contribute to a sustainable and inclusive future for all.

Our commitment to society evolved into a well established and highly-appreciated CSR activity engaged in education, healthcare, and community/rural development surrounding our plant.

During the Financial Year 2022-23, the company, through its CSR Implementing Partner “Singavarapu Koteswara Rao Charitable Trust (SKR Charitable Trust)” set up a Reverse Osmosis Plant to cater to the drinking water needs of the villagers of Cheruvukommupalem, Prakasam District, Andhra Pradesh, which would operate under the aegis of SKR Charitable Trust as part of BCIL’s CSR obligation.

Health & Safety

Ensuring health and safety, physical as well as mental, of our employees remains at the core of our policy. We have robust safety programs that are crucial for the overall safety and well-being of our employees. To guarantee that our current health and safety standards are met, new additions and adjustments are made to the systems on a regular basis.

Being a people-centric employer, we continuously invest towards ensuring employee well-being, health and skill upgradation. To build a strong company and strong individuals, we employ a mix of strategies which include conducting interactive sessions, undertaking engagement initiatives and providing training and skill development programs to employees and workers.

Management and Discussion Analysis

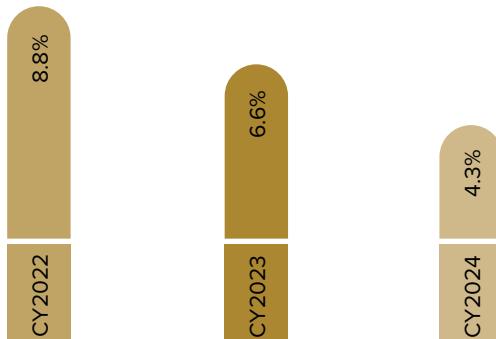

Global economy

In CY 2023, the world's economies faced major economic challenges as a result of the geopolitical crisis in Europe and mounting inflationary pressures across the globe. Persistent inflation has resulted in a synchronised tightening of monetary policies and the counter measures taken by Central Banks and governments for containing inflation are limiting the economy's growth.

Owing to high volatility in the major economies of the world, including the US, Europe and China, the risks of a global recession loom large. However, appropriate regulation of monetary policies, resolution of geopolitical conflicts and supply-chain disruptions, as well as effective management of the lingering effects of the COVID are expected to restore the pre-pandemic growth levels of the global economy. In the course of 2023, though inflation has receded with central banks raising interest rates, underlying price pressures are proving sticky, with labor markets being tight in several economies. Going forward, global inflation is expected to decelerate from 8.8% in CY2022 to 6.6% in CY2023 and 4.3% in CY2024 . It is likely that the world's emerging and developing economies will contribute significantly to accelerating global economic growth in the years ahead.

Gradual decline of global inflation

Outlook

In its report of April 2023, the IMF predicts uncertain outlook amid financial sector turmoil, high inflation, ongoing effects of Russia-Ukraine war and three years of Covid. The baseline forecast is for growth to fall from 3.4 percent in 2022 to 2.8 percent in 2023, before settling at 3.0 percent in 2024. Advanced economies are expected to see an especially pronounced growth slowdown, from 2.7 percent in 2022 to 1.3 percent in 2023. In a plausible alternative scenario with further financial sector stress, global growth declines to about 2.5 percent in 2023 with advanced

¹ <https://www.imf.org/en/Publications/WEO/Issues/2023/01/31/world-economic-outlook-update-january-2023>

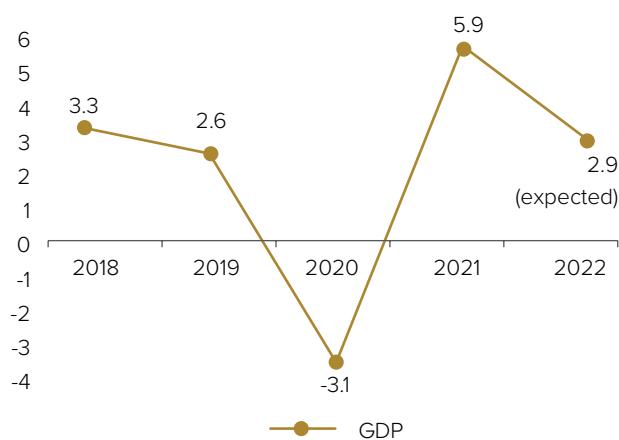

economy growth falling below 1 percent. Global headline inflation in the baseline is set to fall from 8.7 percent in 2022 to 7.0 percent in 2023 on the back of lower commodity prices but underlying (core) inflation is likely to decline more slowly. Inflation's return to target is unlikely before 2025 in most cases.

Global growth is anticipated to touch 2.9% in CY2023 before peaking at 3.1% in CY2024. According to the IMF, India and China will account for more than half of global growth in CY2023. As per the latest projections, Emerging Markets and Developed Economies (EMDEs) are expected to grow by 5.3% in CY2023, demonstrating the fading impact of economic headwinds in the Asia Pacific region. Leveraging the pent-up demand, economic strength is likely to be bolstered in the near future and is expected to create more opportunities of growth.

According to the IMF, India and China will contribute more than half of the world's growth in CY2023, with the rest of Asia adding a further quarter. The IMF predicted that in CY2023, the EMDEs would grow by 5.3%, demonstrating the fact that the economic headwinds in the Asia and Pacific region have begun to ease.

⁴Economic Times Delhi 10/01/2023

Indian economy

India's growth continues to be resilient despite some signs of moderation in growth, says the World Bank in its latest India Development Update, the World Bank India's biannual flagship publication. "The Indian economy continues to show strong resilience to external shocks," said Auguste Tano Kouame, World Bank's Country Director in India. "Notwithstanding external pressures, India's service exports have continued to increase, and the current-account deficit is narrowing.

The Update notes that although significant challenges remain in the global environment, India was one of the fastest growing economies in the world. The overall growth remains robust and is estimated to be 6.9 percent for the full year with real GDP growing 7.7 percent year-on-year during the first three quarters of fiscal year 2022/23. There were some signs of moderation in the second half of FY 22/23. Growth was underpinned by strong investment activity bolstered by the government's capex push and buoyant private consumption, particularly among higher income earners. Inflation remained high, averaging around 6.7 percent in FY22/23 but the current-account deficit narrowed in Q3 on the back of strong growth in service exports and easing global commodity prices.

The World Bank has revised its FY23/24 GDP forecast to 6.3 percent from 6.6 percent (December 2022). Growth is expected to be constrained by slower consumption growth and challenging external conditions. Rising borrowing costs and slower income growth will weigh on private consumption growth, and government consumption is projected to grow at a slower pace due to the withdrawal of pandemic-related fiscal support measures.

Despite global economic unrest, India maintained its position as one of the fastest-growing economies in the world, recording a significant growth of 8.7% in FY22. But the rapid tightening of monetary policies in advanced economies has resulted in the depreciation of the Indian rupee against the US dollar. The Indian economy expanded significantly in FY22, and as the nation marked its 75th year of independence, it became the sixth-largest economy in the world. Nominal gross domestic product (GDP) growth is projected to be 15.4% in FY23, far higher than the 11.1% assumed in the Union Budget.

Outlook

The Indian economy is on track to grow by 7% of GDP in FY2022-23, notwithstanding the prevalence of high inflationary trends. The higher volume of e-way invoices generated, increased electronic toll collections and a sustained rise in GST Collections, all demonstrate a positive trend. Manufacturing activity continues to expand gradually, as shown by indicators such as the PMI for manufacturing, the Index of Industrial Production and the Index of Core Industries (ICI). Services sector indices (UPI transactions, high credit demand) also point to continued growth.

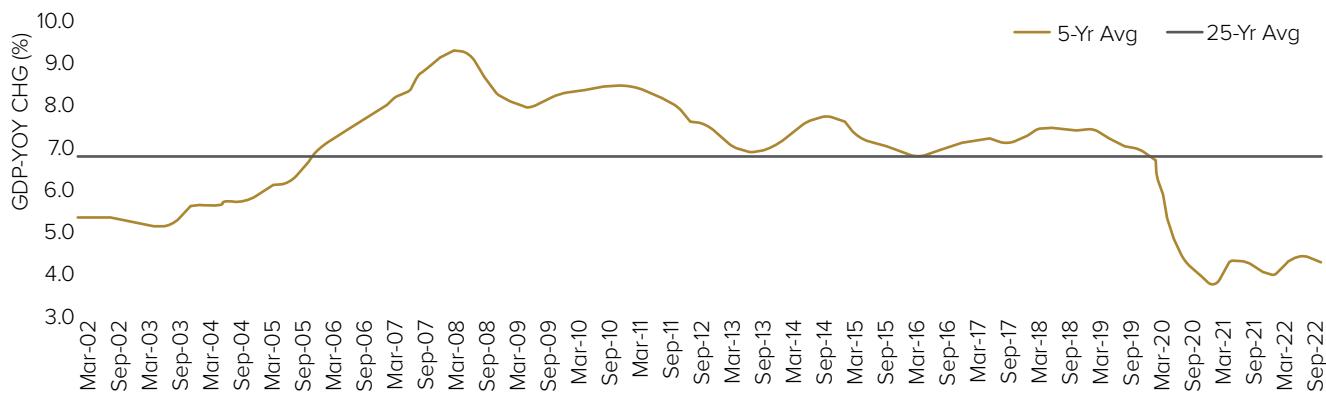

India is expected to be a USD 3.5 trillion economy by the end of FY2022-2023 as per the economic survey report tabled in the Parliament and is anticipated to touch USD 7 trillion within the next seven years. Favourable policies continue to support economic recovery and have also improved investor sentiment.

However, monetary and fiscal tightening over the forecast horizon is anticipated to be less prominent in India than in the rest of the South Asian region.

Overall, India's demand outlook continues to be favourable for sustaining economic growth. India is in a sweet spot to step into the current fiscal year backed by underlying and overall macroeconomic stability. However, India remains vigilant about geopolitical and geo-economic concerns.

Industry overview

Global crop protection chemical industry

In CY2022, the global crop protection chemical market was worth USD 88 billion. The market is expected to reach USD 116.5 billion by CY2028, with a 4.28% CAGR from CY2023 to CY2028. Crop protection products are used to prevent pest and disease-caused crop output losses and keep crops healthy. These can be made using both synthetic and biological compounds and are primarily classified as insecticides, fungicides and herbicides. Currently, a variety of pesticides are available to protect crops from bacteria, rodents, insects and birds. As the world's population is expanding, the application of crop protection chemicals is on the increase to safeguard crops against pests and diseases while increasing agricultural yields.

With the rapid adoption of digital technologies in agriculture, such as precision farming, precision agriculture and precision pesticide application, the market is likely to expand. The Asia-Pacific region has a growing population and increasing food consumption levels as a consequence. These factors are favourable for positioning the region as a leader in this segment.

India's agrochemical industry

India's agrochemicals market is projected to grow at an 8% CAGR and reach USD 4.7 billion by FY25. India is a leading producer of agrochemicals and is considered the ideal location for export-oriented agrochemical production. To develop better farming solutions that are more efficient and comply with international standards, the crop protection industry in India is increasingly leveraging its R&D resources. The Government has published

an SOP (Standard Operating Procedure) for the use of drones to spray pesticides, favouring the agricultural industry. Drone-assisted agrochemical application is a fantastic step towards ensuring greater precision in Indian agriculture. There is a growing demand for agrochemical R&D investment in the chemical and biological sectors, as it will not only strengthen the crop protection and nutrition sectors in India but also provide a way to advance towards sustainable agriculture.

The Indian government recognises the agrochemical sector as one of its top 12 industries that would help it achieve global leadership and grow at 8% to 10% through FY2025, according to the Federation of Indian Chambers of Commerce and Industry. As long as exports remain strong and domestic demand is stable, India's agrochemicals sector is expected to continue its strong double-digit growth of 15–17% in FY23, following an increase of 23% in the previous fiscal.

Government initiatives

- Based on the Union Budget for 2023, over the next three years, the Government will assist 1 crore (10 million) farmers switch to natural (or chemically-balanced) farming. The PM Program for Restoration, Awareness, Nutrition and Improvement of Mother Earth (PM PRANAM) will be implemented to encourage states and union territories to promote alternative fertilisers and the balanced use of chemical fertilisers.
- Kisan drones for crop assessment, agrochemical spraying and land record digitisation were initiated by the Government. The establishment of the digital public infrastructure supported Indian agriculture and boosted the digital ecosystem for agriculture.
- To increase the production of different chemicals, such as agrochemicals, petroleum and petrochemical goods, the Indian government has established a number of Petroleum, Chemical and Petrochemical Investment Regions (PCPIR) throughout the nation. These PCPIRs are equipped with all necessary facilities and enjoy policy support.

Opportunities

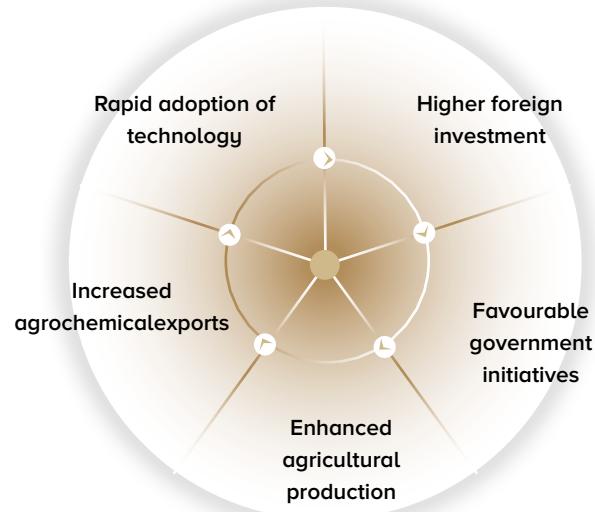

Increased agrochemical exports - India exported agrochemicals worth about ₹ 24,045 billion in FY22, while its total export value was ₹ 52.34 lakh billion. The domestic agrochemicals industry makes a small contribution, but it has the potential to do more if government policies and assistance from the private sector enable India to become a global hub for agrochemical production on a global scale.

Enhanced agricultural production – India has a limited amount of agricultural land and it has been shrinking over time. By using fertilisers, irrigation facilities and seed varieties with early maturities and high yields, crop productivity can be improved. Agrochemical application boosts output while reducing damage from pests.

Favourable government initiatives - As part of its regulatory framework for agrochemicals in the country, the Indian government is implementing guidelines, standards and laws for the use of drones to apply pesticides. Additionally, the Government has begun accelerating the registration of novel crop protection molecules in the nation and is creating the necessary frameworks.

Higher foreign investment – The agrochemical industry has seen a consistent inflow of foreign capital, largely as a result of measures taken to promote the expansion of agriculture. Apart from assisting regional and small enterprises, it has given Indian businesses access to superior manufacturing facilities.

Rapid adoption of technology - Higher-quality products can now be produced and trade channels can now be more diverse thanks to the employment of the latest technology, a broader client base and the adoption of digital information dissemination techniques. It has also contributed to raising awareness of the products' more recent uses.

Challenges

Increased reliance on generic molecules - Agrochemical manufacturers are introducing new and improved molecules, but the adoption is slow and requires substantial marketing and promotion expenditures. The high R&D expenses related to agrochemicals and a difficult registration process have both slowed down businesses' introduction of new compounds to the market.

Inadequate awareness and non-scientific application- Retailers of agricultural inputs and other farmers may have an influence on a farmer's choice to purchase seeds, fertilisers, or agrochemicals. In many cases, this leads to improper application, underuse, overuse, or non-scientific usage. As a result, agricultural input products perform worse, and yields are lower than expected.

Minimal use of agrochemicals - While nations like Brazil, China and the US use agrochemicals 10–20 times more than India, India uses only 0.31 kg/ha of them. Inappropriate application, lower usage in less commercialised and subsistence crops as well as a lack of funding for agrochemical investments are some of the major concerns.

Rising demand for eco-friendly pesticides - Lack of resources and technology to meet the rising demand for eco-friendly pesticides would pose a challenge for the industry. R&D expenses for new product development would be high.

Outlook

The Indian government recognizes its agrochemical industry as one of its top 12 industries to achieve global leadership growing at 8% to 10% through 2025, according to the Federation of Indian Chambers of Commerce and Industry. Products worth \$4.2 billion are expected to go off patent by 2023, and that will present opportunity for manufacturing a good number of active ingredients as generic molecules for some of the R&D based agrochemical manufacturers in the country.

According to the report published by McKinsey & Co in March 23, the Agrochemicals in India is currently a USD 5.5 billion market, growing at a CAGR of 8.3 percent and enjoys cost leadership globally. By 2040, it is expected to account for almost 40 percent of India's overall chemicals exports and nearly 13 percent of the global agrochemical market.

Risk management

Type of Risks	Description	Mitigation
Operational Risk		
Market risk	The fierce competition in the agrochemical industry may pose a threat to business growth.	The Company closely observes the strengths and weaknesses of its competitors as well as the dynamics of the market. Effective measures are continuously taken to lower the cost of production, including budgetary controls and other management control systems.
Financial Risk		
Credit Risk	Risks in the settlement of dues by customers can have an impact on the Company's financial performance.	The Company has systems in place to assess the creditworthiness of customers. Realization of receivables is closely monitored and adequate Provision for bad and doubtful debts is made in the books of accounts on a realistic basis. A proper recovery management and follow-up mechanism are in place.
Foreign Exchange Risk	Foreign currency exposure for sales in other countries and purchases from overseas suppliers in US dollars expose the Company to significant risks due to currency fluctuations in global foreign exchange markets, which can affect profitability.	The objective of the Company's risk management policy is to reduce risks from adverse currency fluctuations by managing the uncertainty and volatility of foreign exchange through a Board approved forex hedging policy.
Talent acquisition and retention Risk	To retain high-performing employees and implement business strategies effectively, talent retention and engagement are essential.	The Company has an appropriate recruitment strategy in place for employing people at all levels of the organization. It ensures that the right people are placed in the right positions to achieve organisational excellence while also ensuring career growth for the personnel
Environmental Risk	There is a risk of Pollutants being released into the environment, endangering the ecosystem and harming the Company's reputation.	The Company operates its own Effluent Treatment Plant comprising agitated thin film dryers, Multiple Effect Evaporators, Scrubbers etc besides a Sewage Treatment Plant and ensures zero liquid discharge. Green belt is developed all around the manufacturing plant to strictly comply with regulatory norms. Solid effluent is sent to government approved agencies for incineration.

Company overview

Bhagiradha Chemicals and Industries Limited (BCIL) is a professionally run public limited company headquartered in Hyderabad, India. The Company focuses on producing premium pesticides, including various technical-grade insecticides, herbicides and fungicides at a capacity of 3250 tonnes per year. Beginning modestly in Cheruvukommupalem village, in Prakasam District of Andhra Pradesh three decades back, company has grown from strength to strength providing direct and stable employment to about 700 personnel. During the year, the company crossed ₹ 500 Cr sales turnover, about 10 % of which are exports. The noble objectives of its founder, late Sri S Koteswara Rao, for building a sustainable organization that caters for the community and customers and creates value for its stakeholders, are being pursued by his successors in all earnestness.

To meet the rising demands for providing quality products, the Company's R&D team is consistently working to build a robust scientific base. To make it easier for these products to be registered in the countries where they will be imported, the Company has also produced authentic chemical and toxicological data for some of its flagship products.

3250
tons capacity per annum

Quality control

The company has a complete in-house quality control laboratory with modern analytical equipment and well documented procedures and an established quality assurance system manned by experienced and qualified personnel.

Environmental, health and safety

Protecting the environment as well as ensuring employee safety and health are all priorities of the Company. For the waste water treatment process, the Company implemented a Zero Liquid Discharge (ZLD) system. Treatment facilities include strippers, multiple-effect evaporators, agitated thin film dryers, biological electro-thermal purification system and a RO system. For cooling tower makeup, treated wastewater is used. A fire hydrant system that covers the entire plant is part of the Company's safety infrastructure. Efficient fire detection system with modern apparatus is in place. To enhance process safety, nitrogen blanketing is provided to create protective atmosphere and reduce hazards. Periodical training is imparted to employees and regular safety audits and drills are conducted. On-site occupational health centre (OHC) is available and staffed round-the-clock. The centre has the required medical infrastructure and qualified medical professionals. Both medical and occupational health checks are conducted on a regular basis.

Research and development

The R&D unit situated within the factory premises is one of the key strengths of the company and serves as an enabler of the Company's business model. It is well equipped with contemporary instruments and machines. A highly talented and experienced R&D team committed to developing non-infringing and commercially viable processes up to pilot scale functions under the guidance of the Managing Director and assists the production division in case of glitches during commercial production. The processes for all those products that have been commercially produced so far by the company were developed in-house. Developing new processes apart, the R&D team constantly works on process modification to achieve cost optimization for the existing products which is vital to cope with competition.

CAPEX

During the year under review, the Company has allocated CAPEX on various technologies which resulted in cost optimisation, process improvement and closed handling. Process optimization was done in one of the key intermediates, resulting in increase of product yield and reduction of waste. Powder handling systems, sample valves were provided for closed handling to improve the safety of reactor operations. Nitrogen blanketing was provided for storage tanks and reactors handling flammable material to create an inert atmosphere.

Human resources

The employee life cycle has been recognised by the Company as part of efficient human resource management. The Company is especially proud of the commitment, talent and dedication shown by its people in all business-related endeavours. The Company believes in recognizing and rewarding talent through an efficient appraisal system put in place. In line with the policies of the government, majority of employees are drawn from local areas only.

Company outlook

Having crossed a sales turnover of ₹ 500 Cr during the year under review, the company is aspiring to enter the top rung in the agrochemical manufacturing space of the country with suitable plans. It is focusing on new registrations in the domestic as well as overseas arenas for certain existing and products in its pipeline. These initiatives are expected to translate into accelerated revenue streams in the coming years. The construction of its subsidiary's manufacturing plant in Kadchur, Yadgir District, Karnataka is progressing after obtaining the necessary regulatory clearances. Early commercial launch of its operations holds the key to Bhagiratha's growth plans.

Raw material prices for agrochemicals have been in a downward trajectory for the last few months, led primarily by adverse weather conditions in certain key geographies like the US and Europe - resulting in lower demand and also due to better availability of raw materials, with China opening up after COVID-19 related lockdowns.

In the current context, it is to be noted that the agrochemical industry is facing a pile-up of high-cost inventory due to oversupply situations in the marketplace. This will certainly put pressure on the revenue as well as margins on most of the companies including ours. But we are confident that we will navigate these challenges and remain committed to our long-term growth strategy.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

The following explanatory Statement sets out all the material facts relating to the Special Business mentioned in Item No. 4,5,6 of the Notice of 30th Annual General Meeting:

Item No. 4.

To ratify the remuneration of Cost Auditors for the financial year 2023-24:

The Board of Directors of the Company, on the recommendation of the Audit Committee, at its meeting held on May 13, 2023 has approved the appointment of M/s. Sagar & Associates, Cost accountants (FRN: 000118), Hyderabad, to conduct the Cost audit of the Company for the Financial Year 2023-24 at a remuneration of ₹1,00,000 (Rupees One Lakh) excluding applicable taxes and reimbursement of actual out of pocket expenses in performance of their duties

In terms of the provisions of Section 148(3) of the Companies Act, 2013 read with Rule 14(a)(ii) of the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditor has to be ratified by the Members of the Company. Accordingly, consent of the Members is sought for the ratification of the remuneration payable to the Cost Auditors for the Financial Year 2023-24 as approved by the Board of Directors on the recommendation of the Audit Committee.

Accordingly, consent of the members is sought for item no. 4 of this notice by way of an Ordinary Resolution for ratification of the remuneration payable to the Cost Auditors for the financial year 2023-24.

None of the Directors or the Key Managerial Personnel of the Company and/or their relatives are in any way concerned or interested financially or otherwise, in the resolution as set out in item no. 4 of this notice.

Item No. 5

To increase the overall Borrowing Limits of the Company

The members are informed that as per Section 180(1)(c) of the Companies Act, 2013 read with the rules made thereunder as amended from time to time, the Board of Directors of the Company shall, with the consent of the Company by passing a Special Resolution, borrow money, where the money to be borrowed, together with the money already borrowed by the company will exceed aggregate of its paid-up share capital, free reserves and securities premium , apart from temporary loans obtained from the company's bankers in the ordinary course of business.

The members are informed that at the 27th Annual General Meeting of the company held on Friday, September 04, 2020, the members of the company authorised the Board to borrow including moneys already borrowed not exceeding ₹150 Crore (Rupees one hundred and fifty Crore Only) apart from temporary loans obtained from the Company's bankers in the ordinary course of business.

The members are further informed that keeping in view the overall growth plan of the Company and also the Company's existing and future financial requirements to support its business operations, the Company needs additional working capital and deployment of resources on capital expenditure on strengthening/expanding capacity and/or maintenance etc. Accordingly, the company may require to borrow funds from time to time by way of inter alia working capital/loan/financial assistance from various bank(s)/financial institution(s) and other lender(s). The borrowings of the Company, where necessary, would be secured by way of charge/mortgage/extension of mortgage on the Company's assets/movable/ immovable properties in favour of the eligible lenders/security holders.

Accordingly, consent of the members is sought for item no. 5 of this notice by way of a Special Resolution to borrow such moneys or sum of moneys, from time to time, at the discretion of the Board, with or without security and upon such terms and conditions as the Board may think fit, for the purpose of business of the Company, notwithstanding that the money to be borrowed together with the money already borrowed by the Company (apart from temporary loans obtained from the company's bankers in the ordinary course of business), may exceed aggregate of the paid-up share capital, free reserves and securities premium, provided that the total amount borrowed and outstanding at any point of time shall not exceed a sum equivalent to ₹ 500 crores (Rupees Five Hundred Crores) and to create charge / provide security for the sum borrowed on such terms and conditions and in such form and manner and with such ranking as to priority, as the Board in its absolute discretion thinks fit, on the assets of the Company as may be agreed to between the Company and the lenders so as to secure the borrowings by the Company, together with interest costs, charges, expenses and all other monies payable by the Company to the concerned Lenders / Institutions, under the respective arrangements entered into / to be entered by the Company and/or Board, pursuant to 180(1)(c) of the Companies Act, 2013 read with the rules thereunder as amended from time to time

None of the Directors or the Key Managerial Personnel of the Company and/or their relatives are in any way concerned or interested financially or otherwise, in the resolution as set out in item no. 5 of this notice.

Item No. 6

To approve the re-appointment of Sri. Krishna Rao S V Gadeppalli (DIN: 08199210), as an Independent Director of the Company for a second term of five consecutive years and in this connection, if thought fit, to pass, with or without modification(s), the following resolution as a Special Resolution

The members are informed that Sri. Krishna Rao S V Gadeppalli (DIN:08199210) was appointed as an Independent Director of the Company pursuant to Section 149 of the Act, read with the Companies (Appointment and Qualification of Directors) Rules, 2014, by the Members at the 26th Annual General Meeting held

on Friday, August 09, 2019 for a term of 5 consecutive years with effect from 13th November, 2018. In terms of his appointment as an Independent Director of the company, he is due for retirement on November 12, 2023.

The Nomination and Remuneration Committee, after evaluating his performance and considering his knowledge, experience, expertise and his contribution to the Board deliberations during his first term, had recommended to the Board his reappointment as a Non-Executive Independent Director of the Company for the second term of 5 consecutive years. The Board at its meeting held on May 13, 2023 has recommended the re-appointment of Sri. Krishna Rao S V Gadeppalli (DIN:08199210) as a Non – Executive Independent Director of the company for second term of 5 consecutive years, effective immediately after expiry of his current term on November 12, 2023, i.e. commencing from November 13, 2023, till November 12, 2028, who shall not be liable to retire by rotation

Further, the Company has received from Sri. Krishna Rao S V Gadeppalli (i) consent to act as a director in Form DIR-2, pursuant to Rule 8 of the Companies (Appointment and Qualification of Directors) Rules, 2014; (ii) Intimation in Form DIR-8 in terms of the Companies (Appointment and Qualification of Directors) Rules, 2014, to the effect that he is not disqualified under Section 164 of the Act, and (iii) a declaration to the effect that he meets the

criteria of independence as provided under Section 149(6) of the Act. The Company has also received a notice in writing under Section 160 of the Act, proposing his candidature for the office of the Director of the Company. Hence, in the opinion of the Board, Sri. Krishna Rao S V Gadeppalli fulfils all the conditions as specified in the Act, rules made thereunder and Listing Regulations for his re-appointment as an Independent Director of the Company.

A copy of the draft letter for the re-appointment of Sri. Krishna Rao S V Gadeppalli setting out the terms and conditions is available for electronic inspection.

The details seeking re-appointment of Sri. Krishna Rao S V Gadeppalli as a Non-Executive Independent Director of the Company at the 30th Annual General Meeting is provided in Annexure 2. – Information about Director.

Accordingly, consent of the members is sought for item no. 6 of this notice by way of a Special Resolution for re-appointment of Sri. Krishna Rao S V Gadeppalli as a Non-Executive Independent Director of the Company.

Except Sri. Krishna Rao S V Gadeppalli, none of the other Directors or Key Managerial Personnel of the Company and/or their relatives are concerned or interested, financially or otherwise, in the resolution as set out in item no. 6 of this notice.

4. Has the Company implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

The company has implemented Zero Liquid Discharge, details of which are given below.

The plant is having following systems for effluent treatment:

- Volatile Organic Compound (VOC) Strippers
- Multiple Effect Evaporators (MEE)
- Agitated Thin Film Dryers (ATFD)
- Biological Treatment Plant (BTP)
- Sewage treatment Plant (STP)
- Reverse Osmosis Plants (RO)

The main sources of effluent generation from plant are from process, blow downs from boiler and cooling tower and domestic effluents. The effluents generated in the process are both Organic and inorganic in nature. For efficient treatment, the effluents are segregated as process effluents and Non process effluents. Process effluents are sent to VOC stripper for separation of VOC's. After stripping, the stripped organic (VOC) is sent to TSDF / authorized cement plants for co-incineration. After stripper, the process effluents are sent to MEE. The condensate from MEE is collected and further treated in Biological treatment plant. The residue from the MEE is dried in ATFD. The condensate from ATFD is collected and treated in Biological treatment plant. The dried mass from ATFD is packed in 1ton HDPE bags and sent to TSDF, for safe disposal to secured land fill. Blow downs from cooling tower and boiler are sent to biological treatment plant. The treated water from Biological treatment plant is sent to RO. The RO Permeate is used for cooling tower makeup and rejects is sent to MEE for further treatment.

Domestic effluents are treated in Sewage treatment plant. The treated wastewater in STP is sent to RO, the RO Permeate is used for cooling towers makeup and the reject water from the RO is sent to MEE for further treatment.

AUDITOR'S CERTIFICATE ON CORPORATE GOVERNANCE

Requirements under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

To

The Members of

Bhagiradha Chemicals & Industries Limited

We have examined the compliance of conditions of corporate governance by **Bhagiradha Chemicals & Industries Limited** (CIN: L24219TG1993PLC015963) ('the Company') for the year ended 31 March, 2023, as stipulated in regulations 17 to 27, clauses (b) to (i) of sub-regulation (2) of regulation 46 and paragraph C, D and E of Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") with Stock Exchanges in India.

The compliance of conditions of Corporate Governance is the responsibility of the Company's management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above mentioned Listing regulations.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

Independent Auditor's Report

The Members of
Bhagiradha Chemicals and Industries Limited

Report on the Audit of the Standalone financial statements

Opinion

We have audited the accompanying standalone financial statements of **Bhagiradha Chemicals and Industries Limited** (the "Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sl. No	Key Audit Matter	Auditor's Response
1.	Valuation of inventories	<p>a) Inventories represent a significant portion of total assets as at March 31, 2023. The Company writes down inventories to net realisable value on account of quality, shelf life and non or slow moving inventories, based on the management's assessment. Assessing net realizable value and identification of quality, non or slow moving inventories are areas which require use of significant judgements and owing to the inherent complexities.</p> <p>b) Finished goods are valued at lower of cost or net realizable value. Considering that there is always a volatility in the selling price of the agro-chemicals, which is dependent upon various market conditions, determination of net realizable value for these chemicals involves significant management judgement.</p> <p>Therefore, it has been considered as a key audit matter.</p> <p>Our principal procedures included the following, but were not limited to:</p> <ul style="list-style-type: none"> a) Evaluated the design and tested operating effectiveness of internal controls over inventory valuation. Tested the valuation of inventories, on sample basis by comparing the value of raw materials with the underlying supporting documents. For work in process and manufactured finished goods, verified the bill of materials and tested overhead absorption; b) Evaluated the design of internal controls relating to the management judgments and estimates relating to quality, purity, fair value less costs to sell and also tested the operating effectiveness of the aforesaid controls. c) Understood and evaluated the process relating to determination of net realizable value of inventories and identification of quality, shelf life of inventories; d) Obtained age wise analysis of inventories, and evaluated the adequacy of write-down of inventories provided by the management; e) Obtained the market information for the fair values and compared them with the rates considered by the management in determining the fair values. and f) Assessed the appropriateness of disclosures in standalone financial statements in accordance with the applicable accounting standards.

Information Other than the Standalone financial statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably

be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The standalone financial statement of the Company for the year ended 31 March 2022 has been audited by the predecessor auditor whose report dated 26th May 2022 had expressed an unmodified opinion. Our conclusion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
 2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31st March, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2023 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended.
- In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
 - ii. The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred on account of unpaid dividend, to the Investor Education and Protection Fund by the Company as at 31st March, 2023.
 - iv. (a) As per the written representation received from the management and to the best of its knowledge and belief other than as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity, including foreign entities ("Intermediaries"), with the understanding, that the Intermediary shall, whether, directly Or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) As per the written representation received from the management and to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds (which are material

- either individually or in the aggregate) have been received by the company from any person(s) or entity, including foreign entities ("Funding Parties"), with the understanding, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- (c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.
- v. (a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in compliance with Section 123 of the Companies Act, 2013
- (b) The interim dividend declared and paid by the Company during the year until the date of this report is in compliance with section 123 of the Companies Act, 2013.

Annexure “A” to the Auditor’s Report

Referred to in paragraph 1 under the head “Report on other legal & regulatory requirements” of our report of even date.

- i) a. (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right of use assets.
-
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- b. The Company has a program of verification to cover all the items of Property, Plant and Equipment and right of use assets in a phased manner which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment and right of use assets were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification
- c. According to the information and explanations given to us and the records examined by us and based on the examination of the registered title deeds of immovable properties provided to us, we report that, the title deeds, comprising all the immovable properties of land and buildings which are freehold and included in Property, Plant and Equipment, are held in the name of the Company as at the balance sheet date. In respect of immovable properties of land and buildings that have been taken on lease and disclosed as Right of Use assets in the standalone financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.
- d. The Company has not revalued its Property, Plant and Equipment (including right of use assets) or intangible assets or both during the year.
- e. No proceedings have been initiated or are pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made there under.
- ii). a. The inventory has been physically verified during the year by the management at reasonable intervals and coverage and procedure of such verification is appropriate. In our opinion, the frequency of verification is reasonable. No discrepancies were noticed on verification between the physical verification and the book records that were more than 10% in the aggregate of each class of inventory.
- b. The Company has been sanctioned working capital limit of ₹ 4150.00 Lakhs, in aggregate, during the year, from bank on the basis of security of its current assets. In our opinion and based on the information and explanations given to us and our verification of the stock statements submitted by the Company to the bank in relation to the aforesaid working capital limits, such stock statements are, broadly in all material respect, in agreement with the books of account of the Company except for the deviations detailed in Note No. 48 of the audited standalone financial statements.
- iii). The Company has made investments in and granted loans or advances in the nature of loans, unsecured, to its subsidiary company during the year. However the company has not provided any guarantee or security to the companies, firms, limited liability partnership or any other parties during the year.
 - a. According to the information and explanations given to us, during the year the Company has provided loans to its subsidiary company and the aggregate amount of loan given was ₹ 3040.00 Lakhs and balance outstanding as at balance sheet date is ₹ Nil.
 - b. According to the information and explanations given to us and based on the audit procedures performed by us, we are of the opinion that during the year investment made and the terms and conditions of the grant of loans are, *prima facie*, not prejudicial to the interest of the Company.
 - c. The company has not granted any loans where the schedule of repayment of principal and payment of interest has been stipulated. Hence reporting under clause 3(iii)(c) of the Order is not applicable.
 - d. In respect of loans granted by the Company to its subsidiary, there is no overdue amount remaining outstanding as at the balance sheet date.

Report on Internal Financial Controls Over Financial Reporting

Annexure “B” to the Independent Auditor’s Report

of even date on the Standalone financial statements of Bhagiradha Chemicals and Industries Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Bhagiradha Chemicals and Industries Limited (“the Company”) as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that :

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based

on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Standalone Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

1. Overview of the Company

Bhagiradha Chemicals & Industries Limited was incorporated on 7th July, 1993 in Hyderabad (Telangana). The Company is a public limited company incorporated and domiciled in India and has its registered office at Hyderabad (Telangana). It is incorporated under the Companies Act and its shares are listed on the Bombay Stock Exchange Limited and National Stock Exchange of India Limited. It has got its manufacturing facility in Ongole, Prakasam District of Andhra Pradesh and is engaged in manufacture of Crop Care Chemicals.

2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation and compliance with IND AS

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the "Act") read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The accounting policies are applied consistently to all the years presented in the standalone financial statements.

The Standalone Financial statements have been prepared on an accrual basis under the historical cost convention except for the following that are measured at fair value as required by relevant Ind AS.

- Certain financial assets and liabilities are measured at fair value (Refer accounting policy on financial instruments)
- Defined benefit and other long term Employee Benefits.
- Current versus non current classification: All the assets and liabilities have been classified as current and non current as per the Company's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

2.2 Uses of Estimates & judgments

The preparation of Financial Statements in conformity with the generally accepted accounting principles requires

management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenue and expenses and disclosure of contingent liabilities. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements and reviewed on an ongoing basis. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Any revision to accounting estimates is recognised prospectively in current and future periods. Refer Note 2.27 for detailed discussion on Significant accounting judgments, estimates and assumptions.

2.3 Measurement of Fair Values

The accounting policies and disclosures require the measurement of fair values for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values, which includes overseeing all significant fair value measurements, including Level 3 fair values by the management. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 - Quoted price (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted price included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 - Inputs for the asset or liability that is not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.4 Property Plant and Equipment and Depreciation

- a) Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less

Notes to Standalone Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

accumulated depreciation and accumulated impairment losses, if any. Cost includes taxes, duties, freight and other incidental expenses directly related to acquisition/ construction and installation of the assets. Any trade discounts and rebates are deducted in arriving at the purchase price.

- b) Subsequent expenditure is capitalised only when cost can be measured reliably and it is probable that the future benefits will flow to the company.
- c) Capital work-in-progress includes property, plant and equipment not ready for their intended use and related incidental expenses and attributable interest.
- d) Advances given towards acquisition of property, plant and equipment outstanding at each balance sheet date are disclosed as "Other Non-Current Assets".
- e) Expenditure during construction period:

Expenditure (direct & indirect) incurred during the construction period which are attributable to acquisition/ construction of property, plant and equipment, will be capitalized with the respective Plant, Property & Equipment at the time of commissioning of such assets.

- f) The estimated useful life of assets are as follows:

Building	03 - 60 Years
Plant and equipment	20 - 25 Years
Plant and equipment - R & D	10 Years
Furniture and fixtures	10 Years
Vehicles	8 Years
Office equipment	5 Years
Computer and data processing equipment	3 Years

- g) The accounting policy related to Leases has been disclosed in Note 2 (13).
- h) Depreciation on tangible property, plant and equipment has been provided on Straight Line Method. Depreciation is provided on a pro-rata basis, i.e. from the date on which asset is ready for use. Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.
- i) Items of property, plant and equipment that are held for disposal are stated at the lower of their net book value and net realizable value and are shown separately under other current assets in the financial statements. Any expected loss is recognized immediately in the Statement of Profit and Loss.
- j) The Company reviews the residual value, useful lives and depreciation method annually and, if expectations differ from previous estimates, the change is accounted

for as a change in accounting estimate on a prospective basis.

- k) An item of property, plant and equipment is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal are recognised in the Statement of Profit and Loss.

2.5 Intangible Assets

- a) Intangible assets are stated at cost of acquisition less accumulated amortisation and accumulated impairment losses, if any.
- b) Subsequent expenditure related to an item of intangible assets is added to its book value, only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.
- c) In respect of Intangible fixed assets amortised on straight line basis - Technical know how over a period of their useful life of 4 years. Computer software over a period of useful life of 3 years and product development expenses are to be amortised over a period of their useful life of 4 years.
- d) An intangible asset is derecognised on disposal, or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an item of intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of such item of intangible asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.
- e) Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

2.6 Impairment of non-financial assets

The Company assesses at each year end whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be

Notes to Standalone Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is higher of an asset's fair value less costs of disposal and its value in use. The consequential amendments are made in Ind AS 105, Ind AS 16 and Ind AS 28., the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

2.7 Borrowing Costs

Borrowing costs directly attributable to acquisition and construction of assets that necessarily takes substantial period of time are capitalised as part of the cost of such assets up to the date when such assets are ready for intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.8 Research and Development Cost

Research and development costs incurred for development of products are expensed as incurred, except for development costs that relate to the design and testing of new or improved materials, products or processes, which are recognized as an intangible asset to the extent that it is technically feasible to complete the development of such asset and future economic benefits are expected to be generated from such assets. Capital expenditure on research and development is included as part of assets and depreciated on the same basis as other assets.

2.9 Non Current Assets held for Sale

The Company classifies non-current assets (or disposal group) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

The criteria for held for sale classification is regarded met only when the assets (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal group), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset (or disposal group) to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group),

- An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification , and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets (or disposal group) held for sale are measured "higher of an asset's fair value less costs of disposal and its value in use. Assets and liabilities (or disposal group) classified as held for sale are presented separately in the balance sheet.

2.10 Inventories

- Inventories are valued at lower of cost or net realizable value on an item-by-item basis.
- Cost of finished goods, traded goods and work in progress is determined by considering materials, labour and other related costs incurred in bringing the inventories to their present condition and location. Cost of raw materials, packing materials and consumables is determined on weighted average basis.
- Cost of Finished goods, work in progress and traded goods : Cost includes cost of direct materials, labour and other related conversion costs incurred in bringing the inventories to their present condition & location.
- Goods in transit are valued at cost which represents the cost incurred up to the stage at which the goods are in transit.
- Provision of obsolescence on inventories is considered on the basis of management's estimate based on demand and market of the inventories.
- Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

2.11 Cash and Cash Equivalents

Cash comprises of cash at bank and on hand and cash equivalents comprise of short-term bank deposits with an original maturity of three months or less.

2.12 Cash Flow Statement

Cash flows are reported using indirect method as set out in IND AS 7, "Statement of Cash Flows", whereby profit /

(loss) before tax is adjusted for the effects of transactions of non cash nature and deferrals of accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.13 Leases

A lease is classified at the inception date as finance lease or an operating lease. Leases under which the Company assumes substantially all the risk and rewards of ownership are classified as finance leases. When acquired, such assets are capitalised at fair value or present value of the minimum lease, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of Profit and loss. Other leases are treated as operating leases, with payments recognised as expenses in the statement of profit and loss on a straight line basis over the lease term.

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets, the Company assesses whether:

- (i) the contact involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

As a lessee, the Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment/primary period of lease. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate.

Generally, the Company uses its incremental borrowing rate as the discount rate. Lease payments included in the measurement of the lease liability comprise the fixed payments, including in substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method.

The Company has used number of practical expedients when applying Ind AS 116: - Short term leases, leases of low-value assets and single discount rate.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term.

2.14 Revenue Recognition

- a) Sale of goods is recognized as revenue when the significant risks and rewards of ownership of the goods have been passed on to the buyer. Revenues are recognized when collectability of the resulting receivable is reasonably assured. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts, volume rebates and goods and service tax (GST).
- b) Income from services rendered is recognized based on agreements with the customers using the proportionate completion method, when services are performed and no significant uncertainty exists regarding the amount of the consideration that will be derived from rendering of service.
- c) Export incentives are recognised when the right to receive credit as per the terms of incentives is established in respect of exports made.
- d) Interest income is recognized on a time proportionate basis, taking into account the amount outstanding and the rates applicable. For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate method to the net carrying amount of the financial assets.

2.15 Income Tax

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law), deferred tax charge or credit (reflecting the tax

Notes to Standalone Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

effects of timing differences between accounting income and taxable income for the period) and Minimum Alternate Tax (MAT) credit entitlement.

a) Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

b) Deferred Tax

Deferred tax is recognised in respect of temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income (OCI) or directly in other equity.

Deferred tax assets and liabilities are offset only if: a) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

c) Minimum Alternate Tax

MAT is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised, it is credited to the statement of profit and loss and is considered as (MAT credit entitlement). The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period. MAT credits are in the form of unused tax credits that are carried forward by the Company for a specified period of time, hence, it is presented as Deferred Tax Asset.

2.16 Employees Benefits

a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

b) Other long-term employee benefit obligations

I. Defined contribution plans

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

Employees' State Insurance Scheme: Contribution towards employees' state insurance scheme is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

II. Defined benefit plans

Gratuity: The Company provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a

Notes to Standalone Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise.

The gratuity benefit is funded with the Life Insurance Corporation of India (LIC).

Compensated Absences: Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the statement of profit and loss in the year in which they arise.

Leaves under define benefit plans can be encashed only on discontinuation of service by employee.

The compensated absences scheme is funded with the Life Insurance Corporation of India (LIC)."

2.17 Foreign Currency Transactions

a) Functional and presentation currency

Initial recognition - Foreign currency transactions are recorded in the functional currency by applying to the foreign currency amount, the exchange rate between the functional currency and the foreign currency at the date of the transaction. The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

b) Transactions and balances

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/ Losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised in the Statement of Profit and Loss.

All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

2.18 Provisions and Contingencies

- A provision is recognised, if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.
- A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation of a present obligation in respect of which the likelihood of outflow of resources is remote, no provision is made but disclosed in the notes.

Contingent assets are not disclosed in the financial statements unless an inflow of economic benefits is probable.

2.19 Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

2.20 Earnings per Shares

Basic EPS is calculated by dividing the net profit or loss before OCI for the year by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted EPS, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.21 Operating Cycles

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Based on the nature of products/ activities of

Notes to Standalone Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

the Company, the management has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.22 Contributed equity

Equity shares are classified as equity share capital.

Incremental costs directly attributable to the issue of new shares or options are shown in other equity as a deduction, net of tax, from the proceeds.

2.23 Dividend

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and Interim dividends are recorded as a liability on the date of declaration by the Company's board of directors.

2.24 Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

2.25 Financial Instruments

a) Financial Assets

i) Recognition and initial measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value through profit and loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the statement of profit and loss.

ii) Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Any gain or loss on derecognition is recognised in the statement of profit and loss.

Financial assets at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and

impairment are recognised in the statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the statement of profit and loss.

Financial assets at fair value through profit (FVTPL)

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit and loss.

Financial instruments measured at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to the statement of profit and loss.

iii) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, It recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Notes to Standalone Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

b) Financial Liabilities

i) Recognition and initial measurement

All financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial liability is initially measured at fair value, in case of financial liability which is recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the issue of a financial liability.

ii) Subsequent measurement

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL, if it is classified as held-for-trading, or as a derivative or if designated as such on initial recognition. Financial liabilities 'at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss 'on derecognition is also recognised in the statement of profit and loss.

iii) Derecognition

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability is extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

iv) Setting off financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

c) Derivative Financial Instruments

The Company uses derivative financial instruments, such as forward currency contracts to hedge its interest

rate risk. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any changes therein are generally recognised in the profit and loss account.

2.26 Investments in subsidiary

Investment in subsidiary are measured at cost less impairment loss, if any.

Where an indication of impairment exists, the carrying amount of the investment is assessed. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference is transferred to the Statement of Profit and Loss. On disposal of investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Profit and Loss.

2.27 Significant accounting judgments, estimates and assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

a) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

b) Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Notes to Standalone Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

The Company neither has any taxable temporary difference nor any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. On this basis, the Company has determined that it cannot recognize deferred tax assets on the tax losses carried forward except for the unabsorbed depreciation.

c) Defined benefit plans (gratuity benefits and Compensated Absences)

The cost of the defined benefit plans such as gratuity and Compensated Absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each year end.

The principal assumptions are the discount and salary growth rate. The discount rate is based upon the market yields available on government bonds at the accounting date with a term that matches that of liabilities. Salary increase rate takes into account inflation, seniority, promotion and other relevant factors on long term basis.

d) Impairment of non-financial assets and goodwill

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

2.28 Segment reporting

Based on "Management Approach" as defined in Ind AS 108 -Operating Segments, the Chief Operating Decision Maker evaluates the Company's performance and allocates the resources based on an analysis of various performance indicators by business segments. Inter segment sales and transfers are reflected at market prices. Unallocable items include general corporate income and expense items which are not allocated to any business segment.

Segment Policies:

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

2.29 Standards (including amendments) issued but not yet effective

Recent accounting pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

Ind AS1- Presentation of Financial Statements - This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and the impact of the amendment is insignificant in the standalone financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors - This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

Ind AS 12 - Income Taxes - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its standalone financial statement.

2.30 Standards that became effective during the year

There are no new Standards that became effective during the year.

2.31 Rounding off amounts

All amounts disclosed in financial statements and notes have been rounded off to the nearest lakhs as per requirement of Schedule III of the Act, unless otherwise stated.

61 Fair values of financial assets and financial liabilities

The fair value of other current financial assets, cash and cash equivalents, trade receivables, investments, trade payables, short-term borrowings and other financial liabilities approximate the carrying amounts because of the short term nature of these financial instruments.

The amortized cost using effective interest rate (EIR) of non-current financial assets consisting of security and term deposits is not significantly different from the carrying amount.

Financial assets that are neither past due nor impaired include cash and cash equivalents, security deposits, term deposits, and other financial assets.

Non-current borrowing comprise term loan from the banks. The impact of fair value on such portion is not material and therefore not considered for above disclosure.

Non-current borrowings comprises of inter corporate borrowing have been valued at amortised cost using Effective Interest Rate (EIR).

The carrying amounts and fair values of financial instruments by category are as follows:

Particulars	Carrying value		Fair value	
	March 31, 2023	March 31, 2022	March 31, 2023	March 31, 2022

62 Risk management

Financial Risk Management objectives & Policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's activity exposes it to market risk, commodity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company, the Company evaluates various options and may enter into derivative financial instruments like foreign exchange forward contracts, foreign currency option contracts in order to hedge certain foreign currency risk exposures and interest rate swaps to hedge variable interest rate exposures. Derivatives, if entered into, are used exclusively for hedging purposes and not as trading or speculative instruments.

The Company's financial risk management policy is set by the Managing Director and governed by overall direction of Board of Directors of the Company. Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rate, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

62 Risk management (Contd..)

62.1 Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

a) Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also have an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Summary of the Company's exposure to credit risk by age of the outstandings from various customers is as follows:

Particulars	March 31, 2023	March 31, 2022
Not Due	10085.22	9033.54
0 - 90 Days	2791.30	624.66
90 - 180 Days	-	.59
180 - 270 Days	-	.08
270 - 365 Days	-	-
More than 360 Days	-	-
Total	12876.52	9658.86

The Company allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of loss (e.g. timeliness of payments, available press information etc.) and applying experienced credit judgment. Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Given that the macro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of minimal credit losses to continue.

b) Cash and Cash Equivalents

The Company held cash and cash equivalents of ₹ 216.67 lakhs - at March 31, 2023 (March 31, 2022: ₹ 218.17 lakhs). This includes the cash and cash equivalents held with the bank and the cash on hand with the Company.

62.2 Liquidity Risk

Liquidity risk is the risk in terms of difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has obtained fund and non-fund based working capital loans from bank. The borrowed funds are generally applied for Company's own operational activities.

Exposure to liquidity risk:

a) The following are the remaining contractual maturities of financial liabilities at the reporting date.

The amounts are gross and undiscounted :

b) Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. The company's exposure to the risk of changes in the market interest rate relates primarily to the company's long term debt obligations with floating interest rates. The company's interest rate exposure is mainly related to variable interest rates debt obligations. The Company manages the liquidity and fund requirements for its day to day operations through credit facilities like cash credit, suppliers/buyers credit.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. Borrowings issued at fixed rates exposes to fair value interest rate risk. The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

Particulars	March 31, 2023	March 31, 2022
Floating rate instruments		
Financial Liabilities - measured at amortised cost		
Term loan from banks	1943.51	1278.16
Working capital facilities from bank	2018.29	3938.84
Bills Discounting	852.82	2486.37

Fixed rate instruments		
Loan from intercorporates (Unsecured)	-	-
Loan from Directors (Unsecured)	-	-
Total	4814.62	7841.01

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

The risk estimates provided assume a change of 25 basis points interest rate for the interest rate benchmark as applicable to the borrowings summarised above. This calculation assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date assuming that all other variables, in particular foreign currency exchange rates, remain constant. The period end balances are not necessarily representative of the average debt outstanding during the period.

Cash flow sensitivity (net)	Profit or loss	
	25 bp increase	25 bp decrease
31-Mar-23		
Variable rate loan instruments	12.04	(12.04)

62 Risk management (Contd..)

62.3 a) Market Risk

Market risk is the possibility of losses that may be incurred by the company due to factors that affect the overall performance of the company – such as foreign exchange rates, interest rates, recessions etc. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily due to the fluctuations in the rate of interest for borrowings from banks, recession in the market, foreign exchange rate fluctuation etc.

b) Currency Risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar against the functional currencies of the Company. The Company, as per its risk management policy, uses natural hedge technique of adjusting foreign currency receivables against currency payables. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. Exposure to all other foreign currencies other than US Dollar is not material.

c) Exposure to currency risk

The currency profile of financial assets and financial liabilities as at March 31, 2023 & March 31, 2022 are in lakhs

Particulars	March 31, 2023		March 31, 2022

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against US dollars as at March 31 would have affected the measurement of financial instruments denominated in US dollars and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

62 Risk management (Contd..)

D) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

63 Disclosure Regarding Derivative Instruments and Unhedged Foreign Currency Exposure

Foreign currency exposures not covered by derivative instruments or otherwise as at 31st March, 2023 and 31st March, 2022 are as under :

Notes:

As at 31st March, 2023 1 USD = INR 82.1700

As at 31st March, 2022 1 USD = INR 75.79250

64 Capital risk management

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves. The primary objective of the Company's Capital Management is to maximize shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital, using adjusted net debt to equity ratio. For this purpose, adjusted net debt is defined as total debt less cash and bank balances.

Particulars	March 31, 2023	March 31, 2022

Independent Auditor's Report

The Members of
Bhagiradha Chemicals and Industries Limited

Report on the Audit of the Consolidated financial statements

Opinion

We have audited the accompanying consolidated financial statements of **Bhagiradha Chemicals & Industries Limited** (the "Company") and its subsidiary (the Company and its subsidiary together referred to as the "Group") which comprise the Consolidated Balance Sheet as at March 31, 2023, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2023 and their consolidated profit, their consolidated total comprehensive income, their consolidated change in equity and their consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sl. No	Key Audit Matter	Auditor's Response
1.	Valuation of inventories a) Inventories represent a significant portion of total assets as at March 31, 2023. The Group writes down inventories to net realisable value on account of quality, shelf life and non or slow moving inventories, based on the management's assessment. Assessing net realizable value and identification of quality, non or slow moving inventories are areas which require use of significant judgements and owing to the inherent complexities. b) Finished goods are valued at lower of cost or net realizable value. Considering that there is always a volatility in the selling price of the agro-chemicals, which is dependent upon various market conditions, determination of net realizable value for these chemicals involves significant management judgement. Therefore, it has been considered as a key audit matter.	Our principal procedures included the following, but were not limited to: a) Evaluated the design and tested operating effectiveness of internal controls over inventory valuation. Tested the valuation of inventories, on sample basis by comparing the value of raw materials with the underlying supporting documents. For work in process and manufactured finished goods, verified the bill of materials and tested overhead absorption; b) Evaluated the design of internal controls relating to the management judgments and estimates relating to quality, purity, fair value less costs to sell and also tested the operating effectiveness of the aforesaid controls. c) Understood and evaluated the process relating to determination of net realizable value of inventories and identification of quality, shelf life of inventories; d) Obtained age wise analysis of inventories, and evaluated the adequacy of write-down of inventories provided by the management; e) Obtained the market information for the fair values and compared them with the rates considered by the management in determining the fair values. and f) Assessed the appropriateness of disclosures in consolidated financial statements in accordance with the applicable accounting standards.

Information Other than the consolidated financial statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the consolidated financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Boards of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Companies, as aforesaid.

In preparing the consolidated financial statements, the respective Boards of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters

related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intend to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary company have adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained

- up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

The consolidated financial statement of the Group for the year ended 31st March 2022 has been audited by the predecessor auditor whose report dated 26th May 2022 had expressed an unmodified opinion. Our conclusion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law relating to preparation of aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Company as on March 31, 2023 taken on record by the Boards of Directors of the Company and the reports of the statutory auditors of its subsidiary company incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Company and its subsidiary company incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended.
- In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.
 - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts including derivative contracts;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary company incorporated in India.

- iv. (a) As per the written representation received from the management of the Company and its subsidiary and to the best of its knowledge and belief other than as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company and its subsidiary to or in any other person(s) or entity, including foreign entities ("Intermediaries"), with the understanding, that the Intermediary shall, whether, directly Or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company or its subsidiary ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) As per the written representation received from the respective managements of the Group and to the best of their knowledge and belief, other than as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been received by the company and its subsidiary from any person(s) or entity, including foreign entities ("Funding Parties"), with the understanding, that the company and its subsidiary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - (c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.
- v. (a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in compliance with Section 123 of the Companies Act, 2013.
- (b) The interim dividend declared and paid by the Company during the year until the date of this report is in compliance with section 123 of the Companies Act, 2013.
 - (c) The Board of Directors have proposed final dividend for the year which is subject to the approval of the members at the ensuing annual general meeting. The amount of dividend proposed is in accordance with section 123 of the Companies Act, 2013 as applicable.
- vi. Proviso to Rule 3(1) of companies (Accounts) Rule,2014 for maintaining of books of accounts using accounting software which has feature of recording audit trail (edit log) facility is applicable with effect from April 1, 2023 to company and its subsidiary, which are incorporated in India, and accordingly, reporting under Rule 11(g) of Companies (Audit & Auditor) Rule, 2014 is not applicable for the Financial year ended March 31, 2023
2. With respect to the matters specified in paragraphs 3 (xxi) and 4 of the Companies (Auditors Report) Order, 2020 (the "order" /"CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's Report, according to the information and explanations given to us and based on CARO reports issued by us for the Company and its subsidiary included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

Report on Internal Financial Controls over Financial Reporting

Annexure “A” to the Independent Auditor’s Report

of even date on the Consolidated Financial Statements of Bhagiradha Chemicals & Industries Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2023, we have audited the internal financial controls over financial reporting of Bhagiradha Chemicals & Industries Limited (hereinafter referred to as the “Company”) and its subsidiary company, incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Boards of Directors of the Company and its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary company, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”) and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary company, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Consolidated Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Consolidated Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiary company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system

over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to Consolidated Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

1. Overview of the group

Bhagiradha Chemicals & Industries Limited was incorporated on 7th July, 1993 in Hyderabad (Telangana). The Company is a public limited company incorporated and domiciled in India and has its registered office at Hyderabad (Telangana). It is incorporated under the Companies Act and its shares are listed on the Bombay Stock Exchange Limited and National Stock Exchange of India Limited. It has got its manufacturing facility in Ongole, Prakasam District of Andhra Pradesh and is engaged in manufacture of Crop Care Chemicals.

The Group's consolidated financial statements are approved for issue by the Company's Board of Directors on May 13, 2023.

2. Principles of Consolidation

2.1 Business Combination

In accordance with Ind AS 103, the group accounts for these business combinations using the acquisition method when control is transferred to the group. The consideration transferred for the business combination is measured at fair value as at the date the control is acquired (acquisition date), as are the net identifiable assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in Other Comprehensive Income (OCI) and accumulated in equity as capital reserve if there exists clear evidence of the underlying reasons for classifying the business combination as resulting in a bargain purchase; otherwise the gain is recognised directly in equity as capital reserve. Transaction costs are expensed as incurred, except to the extent related to the issue of debt or equity securities.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured subsequently and settlement is accounted for within equity. Other contingent consideration is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in the consolidated statement of profit and loss. If a business combination is achieved in stages, any previously held equity interest in the acquiree is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in the consolidated statement of profit and loss or OCI, as appropriate.

2.2 Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The Subsidiary companies considered in the Consolidated Financial Statements are as follows:

Name of the Company - Bheema Fine Chemicals Private Limited

Country of incorporation- India

% age voting power held as at 31 March 2023 - 100%

% age voting power held as at 31 March 2022 - 100%

2.3 Non Controlling Interest

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

2.4 Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in consolidated statement profit or loss.

2.5 Transactions eliminated on consolidation

The Parent consolidates the financial statements of the subsidiaries it controls. Financial statements of Group entities are consolidated on a line by line basis. If a subsidiary of the Group uses accounting policies other than those adopted in the consolidated financial statements for similar transactions and events in similar circumstances, appropriate adjustments are made to that Group entity's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies. All intragroup assets, liabilities, equity, income, expense, cash flows, and unrealized gains/losses relating to transactions between Group entities are eliminated on consolidation.

3. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1 Basis of preparation and compliance with IND AS

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the "Act") read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Notes to Consolidated Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

The accounting policies are applied consistently to all the years presented in the consolidated financial statements.

The consolidated Financial statements have been prepared on an accrual basis under the historical cost convention except for the following that are measured at fair value as required by relevant Ind AS.

- Certain financial assets and liabilities are measured at fair value (Refer accounting policy on financial instruments)
- Defined benefit and other long term Employee Benefits.
- Current versus non current classification: All the assets and liabilities have been classified as current and non current as per the Company's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

3.2 Uses of Estimates & judgments

The preparation of Consolidated Financial Statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenue and expenses and disclosure of contingent liabilities. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements and reviewed on an ongoing basis. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Any revision to accounting estimates is recognised prospectively in current and future periods. Refer Note 2.27 for detailed discussion on Significant accounting judgments, estimates and assumptions.

3.3 Measurement of Fair Values

The accounting policies and disclosures require the measurement of fair values for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values, which includes overseeing all significant fair value measurements, including Level 3 fair values by the management. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is

used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 - Quoted price (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted price included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 - Inputs for the asset or liability that is not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

3.4 Property Plant and Equipment and Depreciation

- a) Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost includes taxes, duties, freight and other incidental expenses directly related to acquisition/ construction and installation of the assets. Any trade discounts and rebates are deducted in arriving at the purchase price.
- b) Subsequent expenditure is capitalised only when cost can be measured reliably and it is probable that the future benefits will flow to the company.
- c) Capital work-in-progress includes property, plant and equipment not ready for their intended use and related incidental expenses and attributable interest.
- d) Advances given towards acquisition of property, plant and equipment outstanding at each balance sheet date are disclosed as "Other Non-Current Assets".
- e) Expenditure during construction period:
Expenditure (direct & indirect) incurred during the construction period which are attributable to acquisition/

Notes to Consolidated Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

construction of property, plant and equipment, will be capitalized with the respective Plant, Property & Equipment at the time of commissioning of such assets.

- f) The estimated useful life of assets are as follows:

Building	03 - 60 Years
Plant and equipment	20 - 25 Years
Plant and equipment - R & D	10 Years
Furniture and fixtures	10 Years
Vehicles	8 Years
Office equipment	5 Years
Computer and data processing equipment	3 Years

- g) The accounting policy related to Leases has been disclosed in Note 2 (13).
- h) Depreciation on tangible property, plant and equipment has been provided on Straight Line Method. Depreciation is provided on a pro-rata basis, i.e. from the date on which asset is ready for use. Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.
- i) Items of property, plant and equipment that are held for disposal are stated at the lower of their net book value and net realizable value and are shown separately under other current assets in the consolidated financial statements. Any expected loss is recognized immediately in the Statement of Profit and Loss.
- j) The Company reviews the residual value, useful lives and depreciation method annually and, if expectations differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.
- k) An item of property, plant and equipment is eliminated from the consolidated financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal are recognised in the Statement of Profit and Loss.

3.5 Intangible Assets

- a) Intangible assets are stated at cost of acquisition less accumulated amortisation and accumulated impairment losses, if any.
- b) Subsequent expenditure related to an item of intangible assets is added to its book value, only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.
- c) In respect of Intangible fixed assets amortised on straight line basis - Technical know how over a period of their useful life of 4 years. Computer software over a period of useful life of 3 years and product development expenses are to be amortised over a period of their useful life of 4 years.

- d) An intangible asset is derecognised on disposal, or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an item of intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of such item of intangible asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.
- e) Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

3.6 Impairment of non-financial assets

The Company assesses at each year end whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is higher of an asset's fair value less costs of disposal and its value in use. The consequential amendments are made in Ind AS 105, Ind AS 16 and Ind AS 28., the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash in flows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

3.7 Borrowing Costs

Borrowing cost directly attributable to acquisition and construction of assets that necessarily takes substantial period of time are capitalised as part of the cost of such assets up to the date when such assets are ready for intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Notes to Consolidated Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

3.8 Research and Development Cost

Research and development costs incurred for development of products are expensed as incurred, except for development costs that relate to the design and testing of new or improved materials, products or processes, which are recognized as an intangible asset to the extent that it is technically feasible to complete the development of such asset and future economic benefits are expected to be generated from such assets. Capital expenditure on research and development is included as part of assets and depreciated on the same basis as other assets.

3.9 Non Current Assets held for Sale

The Company classifies non-current assets (or disposal group) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

The criteria for held for sale classification is regarded met only when the assets (or disposal group) is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal group), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset (or disposal group) to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification , and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets (or disposal group) held for sale are measured “higher of an asset’s fair value less costs of disposal and its value in use. Assets and liabilities (or disposal group) classified as held for sale are presented separately in the balance sheet.

3.10 Inventories

- a) Inventories are valued at lower of cost or net realizable value on an item-by-item basis.
- b) Cost of finished goods, traded goods and work in progress is determined by considering materials,

labour and other related costs incurred in bringing the inventories to their present condition and location. Cost of raw materials, packing materials and consumables is determined on weighted average basis.

- c) Cost of Finished goods, work in progress and traded goods : Cost includes cost of direct materials, labour and other related conversion costs incurred in bringing the inventories to their present condition & location.
- d) Goods in transit are valued at cost which represents the cost incurred up to the stage at which the goods are in transit.
- e) Provision of obsolescence on inventories is considered on the basis of management's estimate based on demand and market of the inventories.
- f) Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

3.11 Cash and Cash Equivalents

Cash comprises of cash at bank and on hand and cash equivalents comprise of short-term bank deposits with an original maturity of three months or less.

3.12 Cash Flow Statement

Cash flows are reported using indirect method as set out in IND AS 7, “Statement of Cash Flows”, whereby profit / (loss) before tax is adjusted for the effects of transactions of non cash nature and deferrals of accruals of past or future cash receipts or payments. The cash flows from operating, Investing and financing activities of the group are segregated based on the available information.

3.13 Leases

A lease is classified at the inception date as finance lease or an operating lease. Leases under which the group assumes substantially, all the risk and rewards of ownership are classified as finance leases. When acquired, such assets are capitalised at fair value or present value of the minimum lease, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of Profit and loss. Other leases are treated as operating leases, with payments recognised as expenses in the statement of profit and loss on a straight line basis over the lease term.

The group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified

Notes to Consolidated Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets, the group assesses whether:

- (i) the contact involves the use of an identified asset
- (ii) the group has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the group has the right to direct the use of the asset.

As a lessee, the group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment/primary period of lease. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the group's incremental borrowing rate.

Generally, the group uses its incremental borrowing rate as the discount rate. Lease payments included in the measurement of the lease liability comprise the fixed payments, including in substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method.

The group has used number of practical expedients when applying Ind AS 116: - Short term leases, leases of low-value assets and single discount rate.

The group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The group recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term.

3.14 Revenue Recognition

- a) Sale of goods is recognized as revenue when the significant risks and rewards of ownership of the

goods have been passed on to the buyer. Revenues are recognized when collectability of the resulting receivable is reasonably assured. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts, volume rebates and goods and service tax (GST).

- b) Income from services rendered is recognized based on agreements with the customers using the proportionate completion method, when services are performed and no significant uncertainty exists regarding the amount of the consideration that will be derived from rendering of service.
- c) Export incentives are recognised when the right to receive credit as per the terms of incentives is established in respect of exports made.
- d) Interest income is recognized on a time proportionate basis, taking into account the amount outstanding and the rates applicable. For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate method to the net carrying amount of the financial assets.

3.15 Income Tax

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law), deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period) and Minimum Alternate Tax (MAT) credit entitlement.

a) Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

b) Deferred Tax

Deferred tax is recognised in respect of temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Notes to Consolidated Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income (OCI) or directly in other equity.

Deferred tax assets and liabilities are offset only if: a) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

c) Minimum Alternate Tax

MAT is recognised as an asset only when and to the extent there is convincing evidence that the group will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised, it is credited to the statement of profit and loss and is considered as (MAT credit entitlement). The group reviews the same at each Balance Sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the group will pay normal income tax during the specified period. MAT credits are in the form of unused tax credits that are carried forward by the group for a specified period of time, hence, it is presented as Deferred Tax Asset.

3.16 Employees Benefits

a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be

paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

b) Other long-term employee benefit obligations

I. Defined contribution plans

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the group has no further obligations. Such benefits are classified as Defined Contribution Schemes as the group does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

Employees' State Insurance Scheme: Contribution towards employees' state insurance scheme is made to the regulatory authorities, where the group has no further obligations. Such benefits are classified as Defined Contribution Schemes as the group does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

II. Defined benefit plans

Gratuity: The group provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise.

The gratuity benefit is funded with the Life Insurance Corporation of India (LIC).

Compensated Absences: Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long term employee benefits. The group's

Notes to Consolidated Financial Statements

liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the statement of profit and loss in the year in which they arise.

Leaves under defined benefit plans can be encashed only on discontinuation of service by employee.

The compensated absences scheme is funded with the Life Insurance Corporation of India (LIC).

3.17 Foreign Currency Transactions

a) Functional and presentation currency

Initial recognition - Foreign currency transactions are recorded in the functional currency by applying to the foreign currency amount, the exchange rate between the functional currency and the foreign currency at the date of the transaction. The consolidated financial statements are presented in Indian rupee (INR), which is the group's functional and presentation currency.

b) Transactions and balances

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised in the Statement of Profit and Loss.

All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

3.18 Provisions and Contingencies

a) A provision is recognised, if, as a result of a past event, the group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

b) A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation of a present obligation in respect of which the likelihood of

outflow of resources is remote, no provision is made but disclosed in the notes.

Contingent assets are not disclosed in the consolidated financial statements unless an inflow of economic benefits is probable.

3.19 Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

3.20 Earnings per Shares

Basic EPS is calculated by dividing the net profit or loss before OCI for the year by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted EPS, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

3.21 Operating Cycles

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Based on the nature of products/activities of the group, the management has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.22 Contributed equity

Equity shares are classified as equity share capital.

Incremental costs directly attributable to the issue of new shares or options are shown in other equity as a deduction, net of tax, from the proceeds.

3.23 Dividend

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and Interim dividends are recorded as a liability on the date of declaration by the group's board of directors.

3.24 Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the consolidated financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

3.25 Financial Instruments

a) Financial Assets

i) Recognition and initial measurement

Financial assets are recognised when the group becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value through profit and loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the statement of profit and loss.

ii) Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Any gain or loss on derecognition is recognised in the statement of profit and loss.

Financial assets at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the statement of profit and loss.

Financial assets at fair value through profit (FVTPL)

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit and loss.

Financial instruments measured at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to the statement of profit and loss.

iii) Derecognition

The group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

iv) Impairment of Financial Assets

In accordance with Ind AS 109, the group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- Trade receivables.

The application of simplified approach does not require the group to track changes in credit risk. Rather, It recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

b) Financial Liabilities

i) Recognition and initial measurement

All financial liabilities are initially recognised when the group becomes a party to the contractual provisions of the instrument. A financial liability is initially measured at fair value, in case of financial liability which is recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the issue of a financial liability.

ii) Subsequent measurement

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL, if it is classified as held-for-trading, or as a derivative or if designated as such on initial recognition. Financial liabilities 'at FVTPL are measured at fair value and net gains

Notes to Consolidated Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

and losses, including any interest expense, are recognised in the statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss on derecognition is also recognised in the statement of profit and loss.

iii) Derecognition

The group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability is extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

iv) Setting off financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

c) Derivative Financial Instruments

The group uses derivative financial instruments, such as forward currency contracts to hedge its interest rate risk. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any changes therein are generally recognised in the profit and loss account.

3.26 Investments in subsidiary

Investment in subsidiary are measured at cost less impairment loss, if any.

Where an indication of impairment exists, the carrying amount of the investment is assessed. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference is transferred to the Statement of Profit and Loss. On disposal of investment, the difference between the net

disposal proceeds and the carrying amount is charged or credited to the Statement of Profit and Loss.

3.27 Significant accounting judgments, estimates and assumptions

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the grouping disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

a) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the group. Such changes are reflected in the assumptions when they occur.

b) Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

The group neither has any taxable temporary difference nor any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. On this basis, the group has determined that it cannot recognize deferred tax assets on the tax losses carried forward except for the unabsorbed depreciation.

c) Defined benefit plans (gratuity benefits and Compensated Absences)

The cost of the defined benefit plans such as gratuity and Compensated Absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from

Notes to Consolidated Financial Statements

for the year ended March 31, 2023

(Amount in Indian Rupees in lakhs unless otherwise stated)

actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each year end.

The principal assumptions are the discount and salary growth rate. The discount rate is based upon the market yields available on government bonds at the accounting date with a term that matches that of liabilities. Salary increase rate takes into account inflation, seniority, promotion and other relevant factors on long term basis.

d) Impairment of non-financial assets and goodwill

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

3.28 Segment reporting

Based on "Management Approach" as defined in Ind AS 108 -Operating Segments, the Chief Operating Decision Maker evaluates the group's performance and allocates the resources based on an analysis of various performance indicators by business segments. Inter segment sales and transfers are reflected at market prices.

Unallocable items include general corporate income and expense items which are not allocated to any business segment.

Segment Policies:

The group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the consolidated financial statements of the group as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

3.29 Standards (including amendments) issued but not yet effective

Recent accounting pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

Ind AS 1- Presentation of Financial Statements - This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The group has evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors - This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The group has evaluated the amendment and there is no impact on its consolidated financial statements.

Ind AS 12 - Income Taxes - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The group has evaluated the amendment and there is no impact on its consolidated financial statement.

3.30 Standards that became effective during the year

There are no new Standards that became effective during the year.

3.31 Rounding off amounts

All amounts disclosed in consolidated financial statements and notes have been rounded off to the nearest lakhs as per requirement of Schedule III of the Act, unless otherwise stated.

Financial Risk Management objectives & Policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's activity exposes it to market risk, commodity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company, the Company evaluates various options and may enter into derivative financial instruments like foreign exchange forward contracts, foreign currency option contracts in order to hedge certain foreign currency risk exposures and interest rate swaps to hedge variable interest rate exposures. Derivatives, if entered into, are used exclusively for hedging purposes and not as trading or speculative instruments.

The Company's financial risk management policy is set by the Managing Director and governed by overall direction of Board of Directors of the Company. Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rate, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

67.1 Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

a) Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:

Particulars	March 31, 2023	March 31, 2022
Not Due	10085.22	9033.54
0 - 90 Days	2791.30	624.66
90 - 180 Days	-	.59
180 - 270 Days	-	.08
270 - 365 Days	-	-
More than 360 Days	-	-
Total	12876.52	9658.86

The Company allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of loss (e.g. timeliness of payments, available press information etc.) and applying experienced credit judgment. Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Given that the macro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of minimal credit losses to continue.

b) Cash and Cash Equivalents

The Company held cash and cash equivalents of ₹ 216.67 Lakhs at March 31, 2023 (March 31, 2022: ₹ 218.17 Lakhs). This includes the cash and cash equivalents held with the bank and the cash on hand with the Company.

67.2 Liquidity Risk

Liquidity risk is the risk in terms of difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has obtained fund and non-fund based working capital loans from bank. The borrowed funds are generally applied for Company's own operational activities.

	12805.93	723.70	273.42	106.72	13909.77

- b) Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. The company's exposure to the risk of changes in the market interest rate relates primarily to the company's long term debt obligations with floating interest rates. The company's interest rate exposure is mainly related to variable interest rates debt obligations. The Company manages the liquidity and fund requirements for its day to day operations through credit facilities like cash credit, suppliers/buyers credit.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. Borrowings issued at fixed rates expose to fair value interest rate risk. The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

Particulars	March 31, 2023	March 31, 2022
Floating rate instruments		
Financial Liabilities - measured at amortised cost		
Term loan from banks	1943.51	1278.16

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

The risk estimates provided assume a change of 25 basis points interest rate for the interest rate benchmark as applicable to the borrowings summarised above. This calculation assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date assuming that all other variables, in particular foreign currency exchange rates, remain constant. The period end balances are not necessarily representative of the average debt outstanding during the period.

Cash flow sensitivity (net)	Profit or loss	
	25 bp increase	25 bp decrease
31-Mar-23		
Variable rate loan instruments	12.04	(12.04)
31-Mar-22		
Variable rate loan instruments	19.60	(19.60)

67.3 a) Market Risk

Market risk is the possibility of losses that may be incurred by the company due to factors that affect the overall performance of the company – such as foreign exchange rates, interest rates, recessions etc. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily due to the fluctuations in the rate of interest for borrowings from banks, recession in the market, foreign exchange rate fluctuation etc.

b) Currency Risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar against the functional currencies of the Company. The Company, as per its risk management policy, uses natural hedge technique of adjusting foreign currency receivables against currency payables. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. Exposure to all other foreign currencies other than US Dollar is not material.

c) Exposure to currency risk

The currency profile of financial assets and financial liabilities as at March 31, 2023 & March 31, 2022 are in Indian Rupees.

Particulars	March 31, 2023	March 31, 2022

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against US dollars as at March 31 would have affected the measurement of financial instruments denominated in US dollars and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Effect in INR	Profit or loss		Equity, net of tax	
	Strengthening	Weakening	Strengthening	Weakening
31-Mar-23				
1% movement				
USD	(11.70) (11.70)	11.70 11.70	-	-

Effect in INR	Profit or loss		Equity, net of tax	
	Strengthening	Weakening	Strengthening	Weakening
31-Mar-22

D) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

69 Capital risk management

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves. The primary objective of the Company's Capital Management is to maximize shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using adjusted net debt to equity ratio. For this purpose, adjusted net debt is defined as total debt less cash and bank balances.

Particulars	March 31, 2023	March 31, 2022
Non Current borrowings	1657.19	1003.01
