Making the Right Moves

Creating Value

We are determined to meet the growing expectations of our stakeholders in an evolving world and well-set to augment our innovation and R&D capabilities to develop processes for such technicals and intermediates that meet our clients' needs. We are going to invest in new capacities to meet the growing demand for agrochemicals and making our business more sustainable through cost effective technologies thus placing ourselves in a better position to create long-term value for our stakeholders.

OUR SIX CAPITALS

Financial capital

The multiple sources of funds (both debt and equity) we use to create wealth.

Manufacturing capital

The physical assets and equipment in which we have invested to build capacities and enhance operational efficiency.

Intellectual capital

Our market intelligence, quality, R&D capabilities that enhance our competitiveness.

Social & Relationship capital

Long-term relationships with the supply partners and customers that we are nurturing to make our business more stable.

Human capital

Investments made in the welfare, engagement, skill enhancement, health and safety of our people to ensure value creation.

Natural capital

The natural resources we use conservatively and the impact of our operations on the environment which we strive to reduce.

Making the right move necessitates a deep understanding of the business, a clear vision of the future and an unflinching willingness to take the right risks and push beyond current competencies.

This is how, we, at Bhagiradha Chemicals have grown in our 25+ years of existence. We always looked beyond the available product basket with us by leveraging our R&D competencies and consistently came out with new processes for different products. Spread across multiple geographies as a preferred supplier to leading companies with our unwavering focus on quality and timely supplies, we have set new benchmarks in operational excellence and viable practices.

Today, we are a respected brand in the agrochemical industry. With a capacity of 3,250 MTPA and a range of 15 products, we are ably meeting the growing needs of our customers across 14 countries in 5 continents.

We believe that it is time now for us to make the right moves and graduate to the next level of growth.

We are consolidating our multiple years of knowledge and R&D capabilities to broaden the portfolio of our value added products. Steps are on the anvil to expand production capacity and drive operational excellence by investing in a state of the art manufacturing facility through our subsidiary, Bheema

Fine Chemicals Private Limited for expanding the much needed production capacity of the group.

Actions are being taken to expedite products registration across different geographical segments given its importance in capturing market share.

To enable informed decision making and achieve high level of efficiency in company's management operations, implementation of ERP solutions across modules has been initiated.

We are modernising our manufacturing facilities with emphasis on enhancing safety, operational efficiency, quality control and regulatory compliance.

With our concerted efforts, we are confident of a bigger, better and stronger future.

Bhagiradha Chemicals: A Trusted Name in the Agrochemicals Landscape

PROFILE

Promoted by Late Sri Singavarapu Koteswara Rao and Sri Doddha Sadasivudu in 1993, Bhagiradha Chemicals is a globally known R&D driven Agrochemical Company headquartered in Hyderabad, India. Inspired by its promoters and by dint of hard work of their successors and committed workforce, Bhagiradha has emerged as a leading manufacturer of high quality technical grade agrochemicals and their intermediates, positively impacting industries, customers and farmers. Led by a highly qualified and passionate top management with proven skills, it is making steady progress in realizing its long-term growth objectives. Its shares are listed on BSE Limited.

OUR MANUFACTURING FACILITY

Spread across 29.00 hectares, our plant is located at eastern coastal town of Ongole (Andhra Pradesh), 95 miles from the state capital of Andhra Pradesh. It has three production blocks with a cumulative reactor volume of 1076 KL and aggregate built up area of 76,000 Sq ft.

The facility has an extensive storage area – 7,200 sq ft for raw materials, 4,000 sq ft for finished product and 3,200 sq ft for packing materials – which ensures uninterrupted operations. It is equipped with farm tanks for bulk storage of solvents.

OUR DIVERSE MANUFACTURING CAPABILITIES

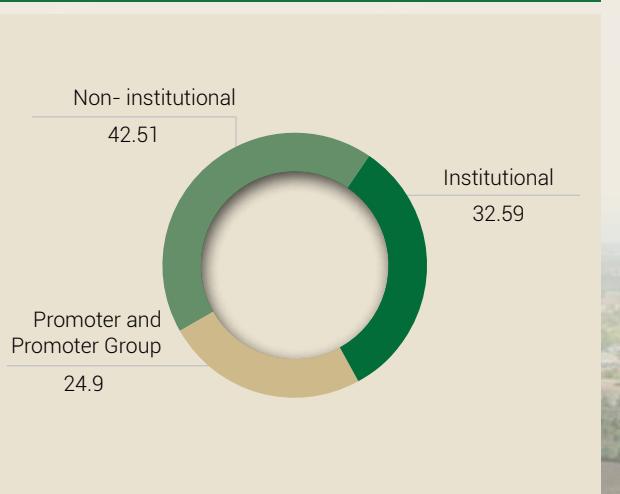

- Synthesis of substituted pyridines / pyrimidines
- Pressure reactions
- Optically active propionates
- C-C coupling
- Side chain and ring chlorination
- Bromination
- Halex reactions using KF
- Low temperature diazotization
- Reactive distillations
- Amination
- Claisen condensation

**VISION**

To emerge as a leading agrochemical Company with a decent market share in the domestic segment and a strong presence in the overseas market. Strong emphasis on new markets to ensure diversified revenue streams.

OUR REPUTATION

5 Things that make Bhagiradha Chemicals a Proxy of the Growing Chemical Industry

1 DEEP INNOVATION CAPABILITIES

Our R&D Center situated within the factory premises is recognized by Ministry of Science & Technology, Government of India. Having latest equipment and instruments and an expert team of qualified personnel, it is instrumental for the development of viable processes for new products, process upgrades through backward integration and for optimizing existing technologies and scale.

R&D DRIVEN PORTFOLIO

Our deep innovation capabilities have enabled us to establish a portfolio of 15 products spread across various insecticides, herbicides and fungicides and other intermediates.

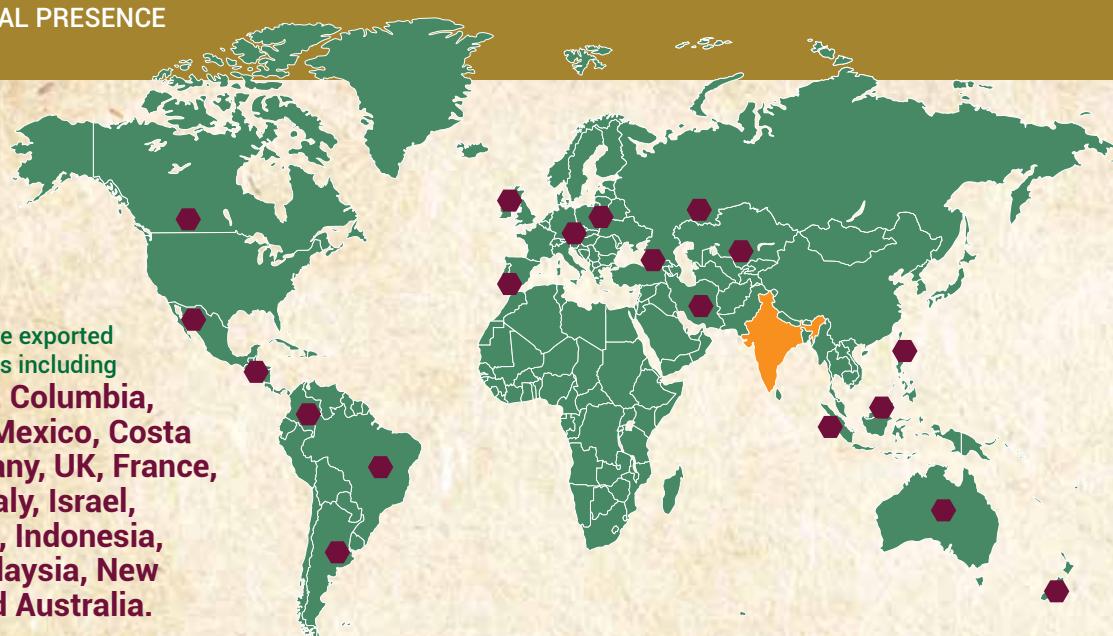

Product	Application
Azoxystrobin	A broad-spectrum fungicide for protecting plants and vegetables/fruits from fungal diseases.
Chlorpyrifos	A broad-spectrum insecticide to control various kinds of pests and insects.
Triclopyr	Controlling broadleaf weeds without affecting grasses and conifers, and rust diseases on crops.
Fipronil	A broad-spectrum insecticide to control cockroaches, termites, fleas etc.
Other products	Imidacloprid, Diafenthizuron, Clodinafop Propargyl, Cloquintocet Mexyl and intermediates of Sulfosulfuron, Penoxsulam, Diclosulam, Pyroxasulam, Pinoxaden etc.

2 INTEGRATED OPERATIONS AND MANUFACTURING EXCELLENCE

We have contemporary production facilities with skilled people and advanced production techniques supported by quality control teams to ensure high-quality of products and better overall performance. To cut reliance on imports and ensure un-interrupted operations and to have a competitive edge in pricing, substantial investment has been made for backward integration of few product processes.

3 GLOBAL PRESENCE

Our products are exported across countries including **USA, Brazil, Columbia, Argentina, Mexico, Costa Rica, Germany, UK, France, Portugal, Italy, Israel, Turkey, Iran, Indonesia, Taiwan, Malaysia, New Zealand and Australia.**

4 CONCERN FOR ENVIRONMENT, HEALTH AND SAFETY (EHS) STANDARDS

We are amongst the most responsible manufacturers of agrochemicals. Keeping in view the environmental, legal and regulatory requirements, our organization has been following all such effluent treatment methods to remain as a Zero Liquid Discharge (ZLD) plant since inception. Strippers, multiple effect evaporators, agitated thin film dryers, biological ETP system and RO system are installed in the plant to achieve ZLD. Effective management of wastes – liquid organic waste is sent to cement plants for co-processing and solid waste to secured land filling. Treated effluent is used for cooling tower make up. Emission is controlled through a multi-stage scrubber for all processes, dry vacuum pumps with exhaust condenser, chilled brine condenser and VOC monitoring in processes and use of mechanical dust collector and bag filter in boilers. A sewage treatment plant is installed to treat and reuse water from toilets and canteen.

We have also adopted best safety practices and infrastructure. Occupational Health Center with necessary medical facilities and qualified medical practitioners is set up within the facility. Safety training and audits are carried out periodically to prevent and face any untoward incident. Our plant is also equipped with fire hydrant system, auto fire extinguishers and earth fault protection system.

5 CLIENTELE AND LONG-STANDING RELATIONS

Leading MNCs like Corteva have longstanding relationship with us. The likes of UPL, NACL, Nichino India, Sumitomo India, Sulphur Mills, Gharda Chemicals, and Dhanuka are our important customers in the domestic market.

Challenging Journey in Pursuit of Excellence

Our journey of 25+ years has not just been about creating a big company, but rather a better and responsible one that makes a difference to the customers and the society. We have ensured this by using best of the technologies to produce best quality products.

- Built a process line for Fipronil manufacture and launched its sale
- Breakthrough into Top 1,000 BSE Companies

- Launched Diafenthiuron insecticide

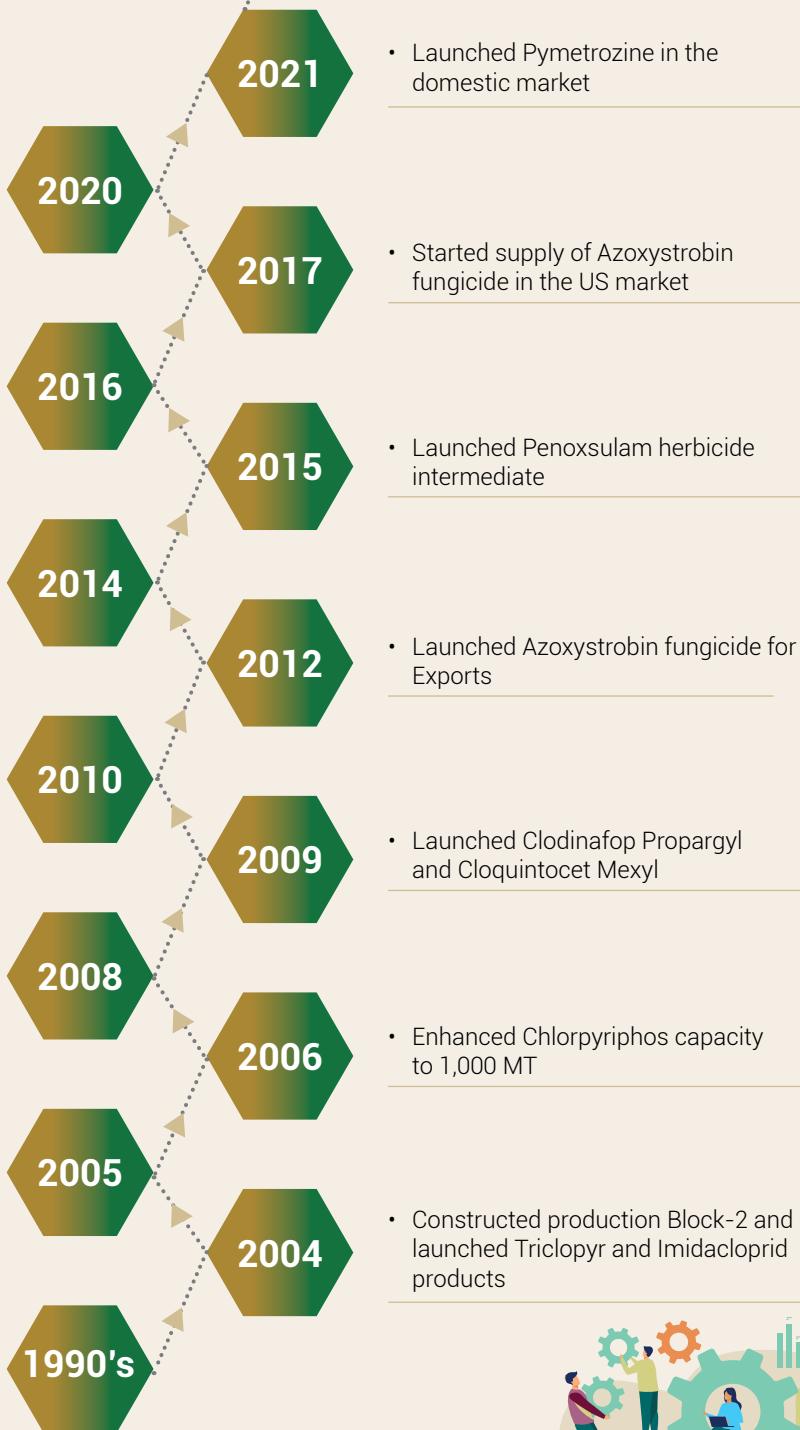

- Launched 2, 6-dichloroaniline as a herbicide and pharma intermediate

- Launched Thiamethoxam

- Constructed Production Block -3, enhancing capacity to 3,250 MT
- Turnover crossed ₹100 Cr

- Started manufacturing of Triclopyr and Fluroxypyr

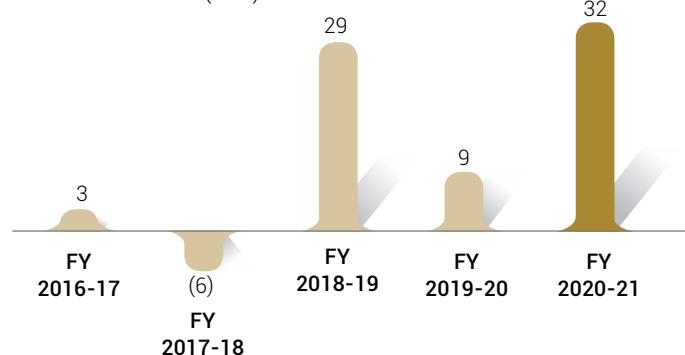

- **1993:** The Company was established

Our Inspirers

Sri Singavarapu Koteswara Rao (07.09.1945 to 04.07.2010)

Our Founder-Our Visionary

"Sri Koteswara Rao was a Post Graduate in Chemical Engineering from IIT, Madras and a former Scientist of the Indian Institute of Chemical Engineering, Hyderabad. He was assigned a critical role in IICT's maiden project for development of processes for commercial manufacture of pesticides by virtue of his prior experience in various facets of plant operations in Germany. He received accolades for successfully completing those assignments."

At the age of 47, with limited economic resources, he ventured to set up Bhagiradha in the remote Cheruvukommupalem village of Prakasam District, to realize his dream of making affordable agrochemicals available to the farmer community. It was his belief in his ability to succeed that made him to give up a rewarding career in the IICT and many other lucrative overseas assignments. Today, Bhagiradha is a

testimony of his vision and spirit creating employment and succour for hundreds of locals.

We, Bhagiradhians, owe our beloved founder a debt of gratitude for all that we are today and continue to derive inspiration from his positive legacy to live up to his values.

Dr. M Pardhasaradhi

The Man behind our R&D credentials

"It was in the year 2004, that Bhagiradha established its R&D unit at Hyderabad under the aegis of Dr Parthasaradhi as its Director. Dr Parthasaradhi nurtured and ignited passion in the R&D team of Bhagiradha in its nascent stage till the unit was relocated to Ongole in the year 2008. It also gained the recognition of the DSIR during his stewardship. Manufacturing processes for a good number of Bhagiradha's products were developed and commercialized under his direction."

Dr. Parthasaradhi, was awarded a Ph.D. degree in Chemistry for the research in Natural Products by Andhra University. He developed the process for preparation of Unsymmetrical Dimethyl Hydrazine (UDMH) a rocket propellant for DRDL Hyderabad. In 1975, he coordinated the first M Phil course in chemistry for University of Hyderabad and went as Research Associate to University of California, Berkeley and worked on Morphinan Synthesis.

In the year 1998, Dr. Pardhasaradhi demonstrated the process for preparation of Phenylacetic acid via carbonylation to Rashtriya Chemicals and Fertilizers (RCF) Mumbai and a catalytic process for

preparation of ethyl chloroacetate from chloroacetic acid to M/S Lupin Chemicals. Dr Pardhasaradhi's research work also includes process development for Amylmetacresol, an anti-protozoal to M/S Makson Pharmaceuticals Ltd., Gujarat and for Losartan-K and Doxazocin, antihypertensives to M/S Cadilla. Dr Pardhasaradhi published several research papers and processes which were patented in India and the USA. During the period from 2004-2008, he was a member of AP Pollution Control Appellate Authority.

Bhagiradha values and acknowledges his significant contribution in its journey as a research based Agrochemical Company.

Sri Dodda Sadasivudu

Natural Partner

"Sri Sadasivudu, a Senior Assistant Director of the Indian Institute of Chemical Technology, was associated with our founder on developing process technology for manufacture of pesticides, during his stint with IICT. He chose to take voluntary retirement and partnered with our founder to co-promote Bhagiradha and has been its Executive Director till August 2012. He is currently a Director on the Board of Bhagiradha."

A Post Graduate in Chemical Plant Engineering from NIT (REC), Warangal and an M.Sc. from the University of Salford, England, Sri Sadasivudu specialized in Process development and design of Commercial Chemical Plants. He played a significant role from

conception to commissioning of Bhagiradha's manufacturing plant at Ongole. His guidance over the years has been of utmost value to the organization.

Message from the Desk of the Chairman

I am pleased to present your Company's Annual Report for the financial year 2020-21. Your Company delivered a spirited performance in unprecedented times backed by the determination of our people, diversified product portfolio and responsive measures taken at various levels in the wake of uncertainties caused by COVID-19.

That most of our clients continued doing business with us in the face of challenges is a validation of their trust in us and in our ability to deliver in difficult times. We put in our best efforts to meet their expectations by moving swiftly to ensure timely deliveries, despite lower manpower availability and disruption in supply chain and logistics, which resulted in operations at lower capacity level.

Ensuring the safety and welfare of our people has always been our first priority and employees were encouraged to work from home as far as possible during the year. Safety measures and protocols as per government guidelines were implemented for those having to work on site. We leveraged technology to ensure internal and external communication virtually.

Coming to business matters, our exports were impacted due to global lockdowns and restriction on movement of logistics during the initial outbreak of pandemic. We realigned our strategy and focused on the domestic market playing to our strengths and managed to achieve our business goals. During the year under review, your company posted a gross revenue of ₹ 318.54 Cr against that of ₹ 247.34 Cr in the previous year, registering a growth of 28.78 %. We achieved an all-time high Profit after Tax of ₹ 23.46 Cr as against ₹ 6.51 Cr in the previous, clocking a growth of 261%.

Indian agrochemical industry has huge unrealized potential for growth due to very low level of agrochemical consumption as compared to global norms. Therefore, its role in achieving the government's vision of USD 5 trillion economy by 2025 cannot

"Your Company is Making the Right Moves to seize the emerging opportunities in the domestic and overseas markets and I am hopeful that shareholders shall be rewarded with the improved performance of your Company in the coming years."

be undermined, as it not only ensures food security and provides livelihoods but also provides impetus to the growth of industries and service sectors. The key factors guiding the growth of the industry in India include increasing investment in the protection of crops, and the development of integrated farming practices and their growing acceptance among the farmers in the region. Your Company is Making the Right Moves to seize the emerging opportunities in the domestic and overseas markets and I am hopeful that shareholders shall be rewarded with the improved performance of your Company in the coming years.

COVID-19 has been playing havoc for about 18 months now across all facets of human life, the world over and more than three million humans succumbed to the deadly virus. My thoughts are with those impacted. Fortunately, the vaccines have been made available since January 2021 in our country and the Central and State Governments are now acting on mission mode to vaccinate people above 18 years of age during this second wave. A much severe third wave is anticipated in the coming months. Having learnt the lessons, I am confident that we will respond to the challenge with greater vigilance and remain safe.

On behalf of the Board, I would like to thank all our customers, suppliers, Bankers and the government for their support to the company. I convey my sincere appreciation to Team Bhagiratha for its performance and thank all the shareholders for their trust reposed in us.

Stay safe.

Warm regards,
K Satyanarayana Raju
Chairman

Message from Managing Director

"Our committed and competent workforce has all along been our core asset and source of our strength. We owe our performance to the dedicated efforts of our employees at all levels."

The socio-economic impact triggered by COVID-19 pandemic has taken the world unguarded. The unexpected and prolonged length of the pandemic was a tough challenge faced by all the manufacturers in the year under review. Your company has not been an exception. Lockdowns and restrictions impacted our business as the plant was shut down initially for few days in the financial year. Being a chemical plant, restart of production operations in the plant entails eventual loss of few more production days. Incidence of fire and other accidents in other chemical industries elsewhere during the lockdown period, warranted initiation of special safety measures by conducting frequent internal inspections, testing and mock drills besides facing inspection by the government departments frequently. Quite a good number of our employees were unfortunately affected by COVID-19 virus leading to loss of further man days. Against this backdrop, your company did considerably well to post better numbers during the year under review.

PERFORMANCE REVIEW FY 2020-21

Measures like extended work shifts and meticulous and timely procurement of raw materials helped overcome the initial backlog. Better product pricing in the market owing to supply demand imbalance ensured higher product realisation. As a result, our sales revenues increased 29.40% to ₹ 317.90 Crores in the year. Lockdown and trade restrictions in key global markets hit exports business, and it fell by 49.63% to ₹ 71.52 Crores. We overcame this holdup by increasing focus on domestic business which grew by 146.67% to ₹ 246 Crores. EBITDA increased by 131% to ₹ 48.69 Crores and PAT by 260% to ₹ 23.46 Crores. The sale of Fipronil insecticide began from April 2021, contributing about 26% to the net sales revenue. Commercial production of Pymetrozine too materialized during the year in accordance with our business plan.

WELL-POSITIONED TO SEIZE OPPORTUNITIES

It is expected that plentiful opportunities will be available to the Indian Agrochemical industry as the world's focus shifts from

China to India. However, the dependence of Indian companies on China for basic materials is a major impediment and that has to be overcome by building basic raw material infrastructure in our country, if we were to become an alternative manufacturing hub to China. BCIL is confident that it will reap benefits from the opportunities created on account of these major developments, given its R&D capabilities, low turn-around time for developing new processes and excellence in quality it has established over the years.

The acquisition process of industrial land in Karnataka by Bheema Fine Chemicals Private Limited, our newly formed 100% subsidiary, was completed and early implementation of its 1st phase will be an important part of our growth strategy.

COMMITTED WORKFORCE

Our committed and competent workforce has all along been our core asset and source of our strength. During the COVID-19 peak periods, our workforce has shown exemplary discipline in adhering to the guidelines in place and yet put in their best efforts in overcoming the downsides caused by COVID-19 in terms of factory operations. We owe our performance to the dedicated efforts of our employees at all levels.

FAVOURABLE CLIMATIC CONDITIONS

The domestic demand for agrochemicals is expected to remain elevated with favourable agronomical conditions such as good monsoon and adequate water levels in reservoirs which bode well for us. The thrust given by the government to the agricultural sector in general and the proposals under the 'Aatmanirbhar Bharat' package in particular augur well to the agrochemical industry.

Warm regards,

S Chandra Sekhar
Managing Director

In Conversation with Chief Executive Officer

"We see opportunities to manufacture several agrochemical products nearing off patent. Supported by our R&D team, we have already lined up some molecules for commercialization."

I feel immensely happy that your Company could salvage the lost ground during the year under review with its splendid performance. Tough operational difficulties faced on account of the virus were overcome with tenacity and resolve and your Company emerged ever stronger. Best practices have been put in place to avoid disruption of production activity and measures have been taken to make sure that timely procurement of raw materials is done for unhindered production. Sharp focus was maintained on liquidity and working capital management by negotiating appropriate payment terms for all sales and procurements. All these steps have helped us perform better during a year that was fraught with challenges.

In the year gone by, our country has been mired in deep crises; a devastating pandemic and consequent economic meltdown. We have been forced to learn new technologies that, in many cases, have been the only safe way to continue to live and stay connected to our loved ones during the pandemic. Technology adoption and its use became the order of the day. One of the major impacts of the new working-from-home focus is that more jobs are becoming non-location-specific. The crowds will return, but we gather carefully. For some, hard times bring opportunity. The above lessons have to be put into practice wisely in all sincerity and one has to adopt to the changing practices and preferences; be it corporates or individuals.

I am very glad that the transition has been smooth for our organization with most of our employees embracing the new order quickly. Under the aligned and consistent direction given by the Board of directors, your Company is aspiring to make rapid strides

in its business endeavours. In order to facilitate informed decision making and to put in place a better Management Information system, we are implementing ERP solutions across many organizational functionalities.

We see opportunities to manufacture several agrochemical products nearing off patent. Supported by our R&D team, we have already lined up some molecules for commercialization. Keeping in view the products in our repertoire and to broaden our customer base, we are focusing on new domestic and overseas registrations. As a step in this direction, the registration department has been strengthened with senior executives and personnel.

The agrochemicals industry has been buoyant led by normal monsoons and remunerative prices, all of which are positive growth promoters. Your Company has a robust growth strategy and is making responsible moves to implement its plans for creating value for all stakeholders.

We look forward for the continued support and trust from all our stakeholders to realise our goals.

Warm regards,
A. Arvind Kumar

Management Discussion and Analysis

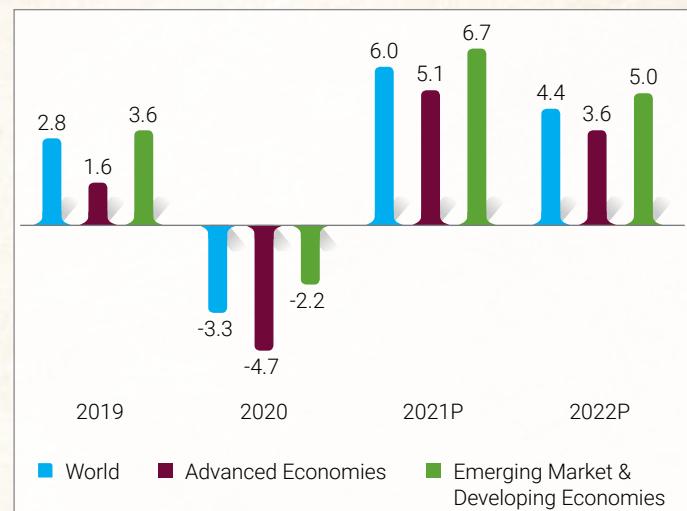

ECONOMY OVERVIEW

World Economy

The global economy is showing signs of recovery from the deep recession caused by the COVID-19 pandemic in 2020. Governments, central banks and other public agencies across countries have responded unprecedentedly to mitigate its impact. The International Monetary Fund (IMF) has estimated global economic growth to have contracted by 3.3% in 2020 despite better-than-expected actual performance by key economies in the second half of 2020.

While the global health crisis continues in the early months of 2021 with second and even third waves of the virus in many regions, accelerating vaccine rollouts and major stimulus packages in many advanced economies, most recently in the United States and Japan have raised hopes of an eventual end to the pandemic and prospects of a stronger-than-expected recovery. IMF, in its world economic outlook in April 2021, projected world economy to grow by 6.0% in 2021 and 4.4% in 2022 amid exceptional uncertainty. Economic recoveries are expected to be uneven across countries and sectors, reflecting variation in pandemic-induced disruptions, pace of global vaccine rollouts and the extent of policy support.

World Economic Growth (%)

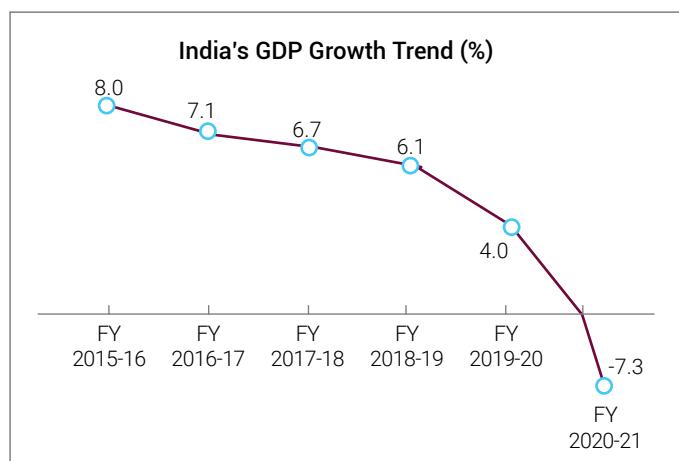

Source: IMF World Economic Outlook, April 2021

Indian Economy

The economic impact of the COVID-19 pandemic in India has been largely disruptive, which has resulted in fiscal strains and weakening of demand conditions. The economy witnessed sharpest contraction ever of 23.9% YOY in the first quarter of FY 2020-21, owing to the stringent pandemic-induced lockdown imposed by the government. Agriculture was the only high performing sector of the economy in Q1 of FY 2020-21 with a growth of 3.4%, driven by normal monsoon, record-high production and strong policy support.

There has been rapid recovery in India's economic activity from the COVID-19 pandemic induced unprecedented lows of the first quarter of FY 2020-21 on the back of easing of restrictions, extraordinary fiscal and monetary support provided by the Government and RBI. As per the provisional National Income estimates by the National Statistics Organization (NSO), the Indian economy contracted by 7.3% in FY 2020-21, as compared to a 4% economic growth recorded in FY 2019-20. The Economic Survey 2020-21 estimates a 'V-shaped' recovery of the economy with India's real GDP estimated to record 11.0% growth in FY 2021-22 – the highest since independence. However, the second wave of COVID-19 hitting the country poses risk to economic recovery, even as growing vaccine coverage lifts sentiment.

Source: National Statistics Office provisional estimates dated 26th Feb, 2021

Agriculture and its allied sectors continue to remain central to the Indian economy, contributing nearly 17% to our Gross Domestic Product (GDP). More importantly, it is a source of livelihood for more than 50% of the country's population. As a result, a sector like agrochemicals, is a far more reliable venture than many others in the economy, driven by facilitative government actions and interventions.

Indian economy is estimated to have contracted by 7.3% in FY 2020-21, as compared to 4.0% economic growth recorded in FY 2019-20.

India is an emerging agrochemicals production base, along with Vietnam, Indonesia and Taiwan, which have gradually joined the global production community, supplementing the supply chain. From the perspective of the industrial chain, India relied heavily on China for pesticide supplies in the past several years. India's overall chemical infrastructure is still relatively underdeveloped, and its access to key intermediates and raw materials is limited. Indian chemical companies are increasingly focusing on independent research and development, forward and backward integration along with scale effect. Despite some difficulties, the Indian market can be considered a strategic alternative in the near future, rather than a cornerstone.

INDUSTRY OVERVIEW

Global Agrochemical Industry

The global agrochemicals market size is estimated at USD 208.6 billion in 2020 and is projected to reach USD 246.1 billion by 2025, registering a CAGR of 3.4% during the forecast period. Increasing demand for food supply due to the rapid growth in the human population has triggered agricultural intensification during the last few decades. However, concurrently unbalanced use of agrochemicals also causes environmental deterioration and poses severe challenges to aquatic and terrestrial ecosystems. Various research studies have indicated that the use of fertilizers and pesticides in agriculture has substantially increased in developed and developing countries in recent years for attaining maximum yields of crops.

The agrochemicals sector is witnessing huge demand in recent years, with its increasing importance on the well-being of the consumers. The components that are used in the production of agrochemicals ultimately help in controlling the pests from damaging the crops or in improving soil fertility. There are broadly 4 categories of crop protection products: Insecticides, fungicides, herbicides and others (include bio pesticides, nematocides, rodenticides etc.).

Types of key Agrochemicals and their primary uses

Insecticides

Control insect pests which reduce crop yields and quality

Fungicides

Prevent and cure fungal diseases of plants

Herbicides

Prevent or reduce weeds which hamper crop growth and harvest

Also, Globalization of the agrochemical industry has a huge impact on the Asian crop protection markets. With high rates of population growth, the need for increased food production, and economic growth, the demand for various agrochemicals such as herbicides and fungicides is increasing.

But the market for agrochemicals is highly fragmented, comprising of a large number of big and small players. The majority of players in the market are located in the European region who offer a variety of products. With the growing demand for various agrochemical products, the major players in the market are focusing on R&D investments to launch products, which would cater to the requirements of the consumers and simultaneously focusing on making investments in innovations, collaborations, and expansions, in order to increase their market share through mergers & acquisitions and partnerships.

COVID-19 impact on the agrochemicals market globally

Agrochemicals, such as pesticides and fertilizers serve as an important solution for farmers across the globe. But due to the outbreak of COVID-19 pandemic, there has been a supply chain disruption because of which the agricultural sector had to face problems such as labor unavailability, transportation barriers, restriction for market access, and lack of inventories in some regions. Many fertilizer and pesticide manufacturers were facing issues due to lack of raw material availability impacting their production schedules and levels.

Trends in International Agrochemicals exports during the year under review:

Overall exports were affected by drought conditions in South Africa, Southeast Asia and Eastern Australia. Dry weather condition prevailed in most of the Northern Europe region which resulted in reducing the herbicide and fungicide applications leading to the fall of fungicide exports. Trade tensions between China and the U.S. have led to imposition of steep tariffs on U.S. Wildfires in Australia which were caused by a combination of extreme heat, prolonged drought and strong winds affected the demand from Oceania.

Indian Agrochemical Industry

India is the fourth-largest producer of agrochemicals in the world. According to FICCI-PWC Report on 9th Agrochemicals Conference 2020, the Indian agrochemicals industry was valued at around ₹ 42,000 Cr in FY 2020-21, out of which domestic consumption was around ₹ 20,000 Cr, while exports during the same period were worth around ₹ 22,000 Cr. The industry is expected to grow at a CAGR of 8–10% till FY 2024-2025.

The domestic demand for agrochemicals is expected to rise with a need to increase farm output to meet food requirements of the growing population, demand for high-value agricultural products, decrease in arable land and loss of yield due to pest attacks. It will be further aided by the timely onset of monsoons in the year gone by and the recent proposals under the 'Atmanirbhar Bharat' package pertaining to the agrarian economy which are focused on boosting the agriculture and allied sectors by strengthening its infrastructure and logistics.

On the flipside, companies are likely to face input constraints as Indian manufacturers depend heavily on imports of raw materials and intermediates from China and given the anti-China sentiments prevalent in the country, it might be a while till manufacturers will be able to diversify their supply chain needs.

In a scenario where COVID-19 cases increase and restrictions are applied again, supply constraints could become much more crucial. Companies might also face challenges in terms of availability of labour, availability of manpower and staggered timing of plant operations in order to follow the protocol of social distancing. The export demand for pesticides is likely to take a hit in the ongoing financial year because of the spread of the pandemic across the globe. Financial constraints of the global farm sector and restriction imposed by countries across the globe on imports and exports will adversely hit pesticide trade volumes during FY 2021-22.

COVID-19 impact on the domestic market

The domestic agrochemical industry in India started on a positive note in FY 2020-21, driven by a surge in herbicide sales in Q1, pre-buying led by robust demand expectations and price increase in generic molecules. Moreover, generic molecules have seen 5% price increase due to short supply in India as the COVID-19 outbreak impacted production in China. The industry expects a strong growth in FY 2021-22 with even better prospects given the confluence of factors such as: (a) healthy monsoon trend, (b) better price realizations, (c) strong demand for herbicides to fill in for labour shortage, (d) locust infestation, and (e) higher cash transfers by government, higher MSP for select crops, higher procurement and increasing focus on farmer incomes in view of the COVID-19 pandemic.

COMPANY OVERVIEW

Company Background

Founded in 1995, by late Sri S. Koteswara Rao, whose name is well known in the agrochemical circles of the country, Bhagiradha Chemicals & Industries Ltd. (BCIL) carved a niche for itself alongside the best in the industry as a manufacturer of high quality technical grade agrochemicals and their intermediates in the country. Distinguished as an R&D driven company, led by highly qualified and passionate top management with proven skills, the Company is making steady progress in realizing its determined long term growth objectives.

For Bhagiradha, quality has always been its best strategy for success that helped in establishing strong and long lasting business relationships with reputed multinational and domestic chemical companies. It earned significant forex revenues over the years for the country, with exports to more than a dozen countries, including the USA, constituting more than fifty percent of its annual sales, the year under review being an exception.

The domestic agrochemical industry in India started on a positive note in FY 2020-21, driven by a surge in herbicide sales in Q1, pre-buying led by robust demand expectations and price increase in generic molecules.

Beginning modestly in Cheruvukommupalem, Village, Prakasam District of Andhra Pradesh, with an annual manufacturing capacity of 300 metric tonnes per annum (MTPA), 25 years ago, the Company has attained production capacity of 3,250 MTPA as on March 31, 2021, providing direct and stable employment to about 600 skilled and unskilled personnel. The noble objectives of the founder, for building a sustainable organization that cares for the community and caters to the needs of its customers and creates value for its investors, are being pursued by his successors in all earnestness.

Incorporation of Wholly-Owned Subsidiary

During the year under review, BCIL has incorporated a wholly owned Subsidiary Company, named 'Bheema Fine Chemicals Private Limited' (CIN: U24299TG2020PTC142050), on July 22, 2020, with its registered office at Plot no- 3, Sagar Society, Road No 2, Banjara Hills, Hyderabad -500034. It will engage in manufacturing and marketing of various agrochemical intermediates and technicals at its proposed plant in Kadечur Industrial area, Yadgir district, Karnataka. The Company is in the process of seeking initial approvals from the Ministry of Environment and Forests, Government of India.

BCIL's Strengths

Well laid out manufacturing facility

The facility is spread across 29.00 hectares and has three production blocks for manufacture of insecticides, herbicides & herbicide intermediates and Fungicides. BCIL has permitted capacity of 3250 MTPA for production of agrochemical active ingredients and their intermediates in addition to pesticide formulations. The Company has received quality certifications under various parameters for its products and production facilities

It is a zero liquid discharge facility with an Effluent Treatment facility that conforms to the best of standards and equipped with Stripper, Multiple Effect Evaporators, Forced Evaporation System, Agitated Thin Film Dryers, Biological treatment plant and Reverse Osmosis plant. Inorganic sludge generated in the process is disposed to secured land fill as approved by the regulatory authorities.

Innovation led Product portfolio

Bhagiradha's products are well known for their quality. The Company has in its product basket a range of insecticides, herbicides and fungicides that command good market across the domestic and international markets. The Company has effectively executed the Capex for the large scale commercialization of Fipronil, an insecticide, the commercial sales of which commenced in April 2020. Another insecticide, Pymetrozine too was commercialized during the year. A few products lying in the pipeline shall be launched as soon as approvals for registration in different geographies are received.

Strong in-house Research and Development

The Department of Scientific & Industrial Research (DSIR) recognized R&D unit is one of the key strengths of BCIL and serves as a great enabler of Company's business model. Qualified and talented scientific personnel with proven chemistry skills are the biggest assets for the Company. All the process technologies implemented in the manufacture of different products by the Company since inception were developed In-House. The R&D unit has the capability to develop new and alternative technologies swiftly.

Diversified customer base across geographies

The Company caters to both domestic as well as international customers with exports contributing about 50% of total revenues in general. Over the years, the Company has developed a global brand equity as a reliable source for elite MNCs and its products are sold by such MNCs across various overseas markets.

Competent Management Bandwidth

BCIL has an experienced leadership team of highly qualified professionals with a demonstrated track record. The promoters have rich industry expertise across various technical and business functions and hands on approach in R&D segment. The composition of the Board is an optimal mix of professionalism, knowledge and experience that enables the Board to discharge its responsibilities effectively and provides leadership to the business.

Business Development Strategies

Strong emphasis on registrations of new products

Crop protection product companies need local registrations to enable them to sell their products in different countries in the world. In accordance with its long term plans, the Company has taken steps to strengthen its registration department. During the year under review, the Company received approvals for the registration of an insecticide, Pymetrozine in the domestic market. Domestic approvals for a few more molecules are awaited. BCIL aims to increase the number of registrations for its existing and proposed products in India and various other countries to facilitate faster product launches and increase in revenue.

Augmenting production capacity

In order to enhance the production capacity, BCIL has proposed to set up another manufacturing plant in the name of its wholly owned subsidiary, Bheema fine Chemicals Private Limited. Land of 33.90 acres was acquired from Karnataka Industrial Areas Development Board in Kadegur Industrial area, Yadgir District, Karnataka for setting up the plant. The plan is to manufacture various agrochemical intermediates and technicals with an annual production capacity of 9000 MTPA which shall be implemented over a period of 5 to 6 years in three phases. Application has been submitted to the Ministry of Environment and Forests, seeking clearances. Works relating to construction of the plant shall commence after all the necessary approvals are in place.

Intensive Focus on R&D

The Company is distinguished globally as an R&D driven agrochemical Company. The team is currently focused on developing processes for making products which are becoming off patent in the coming few years. Processes developed for a few proposed products by the unit shall be taken up for commercialization in a phased manner when additional production capacities are set up.

Steps and initiatives taken by the Company in the wake of COVID-19

All safety protocols related to COVID-19 as advised by the Government are being implemented and observed at the Plants. The Company adopted a work from home policy for non-site based employees during COVID-19 Peak periods.

The Company continues to closely monitor national and international sourcing and supply positions to identify any potential supply side risks and chalk out a suitable plan.

The Company at present continues to fulfil its obligations with respect to all the existing contracts and agreements.

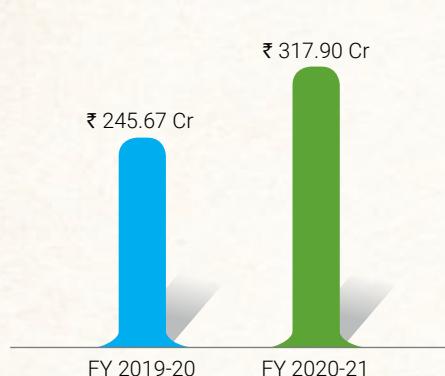

The Company availed COVID-19 emergency loans aggregating to ₹ 6.09 Cr and at the end of the financial year, the liquidity of the Company is satisfactory.

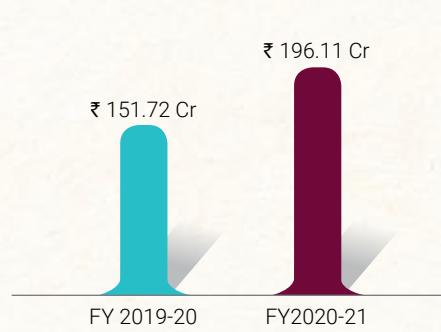

FINANCIAL OVERVIEW ON STANDALONE BASIS

Financial Highlights

Revenue from operations

The revenue from operations increased to ₹ 317.90 Cr in FY 2020-21 from ₹ 245.67 Cr in FY 2019-20. The increase in turnover by 29.40% was made possible with a suitable business strategy in the given conditions, despite the setbacks caused by the prevalence of COVID-19 during the year.

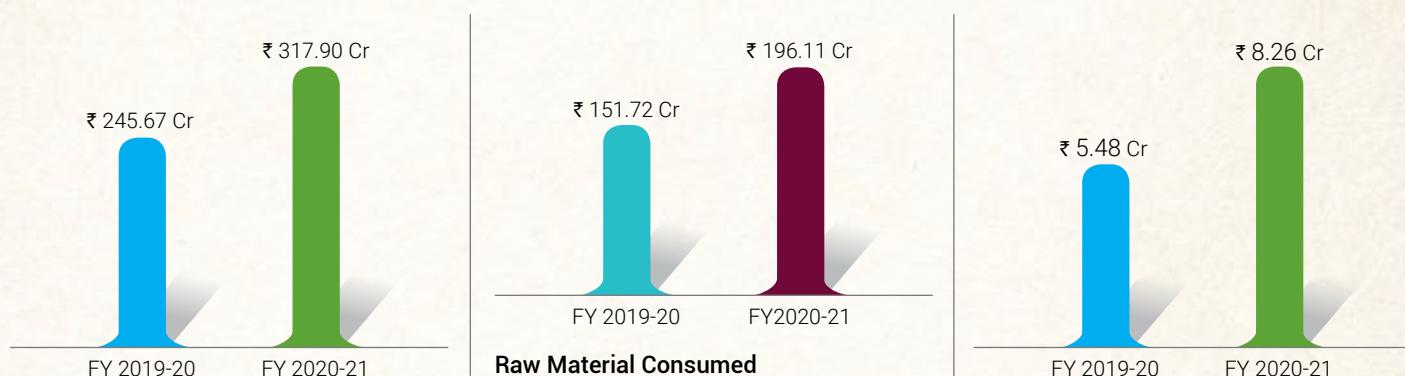

Raw Material Consumed

The consumption of raw materials increased by ₹ 51.75 Cr at 36.42% in FY 2020-21 as against decrease by ₹ 111.89 Cr at 44.05% during the FY 2019-20. The production and turnover were marred by loss of production days due to shutdown of operations for about 100 days during the FY 2019-20. During the year under review, there were no such adverse events other than the impact of COVID-19. Thus the production and turnover returned to normal levels, hence the increase in raw material consumption in absolute terms.

Depreciation Expense

The expenditure under this head increased to ₹ 8.14 Cr in the year from ₹ 6.66 Cr of the previous year, owing to the implementation of Capex during the year and the previous year for setting up Fipronil process line, up gradation of ETP and installation of equipment relating to backward integration of the production processes of certain products.

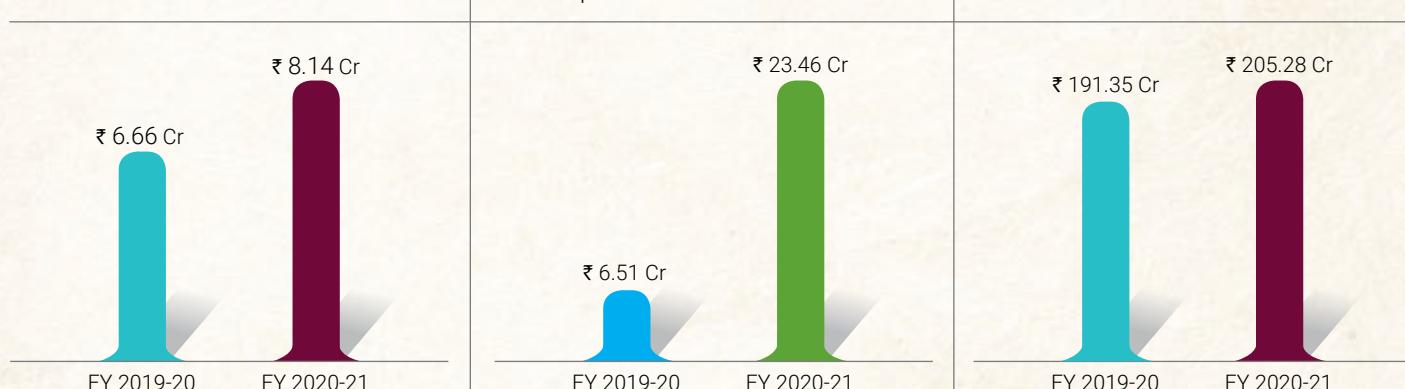

Finance Cost

The expenditure under this head increased to ₹ 8.26 Cr from ₹ 5.48 Cr during the year. The increase was on account of increased borrowings by way fresh term loan, COVID-19 loans and increased utilization of working capital limits from banks in line with increased production and turnover levels.

Profit after Tax

The profit after tax increased to ₹ 23.46 Cr in the year as against ₹ 6.51 Cr in the previous year. The increased production and sales levels in the year were achieved as a result of suitable business plan in place, resulting in improved profit after tax by 261%.

Fixed Assets

The gross carrying value of fixed assets increased to ₹ 205.28 Cr during the year by ₹ 13.93 Cr on account of Capex relating to certain automation works and ETP works.

BUSINESS OUTLOOK

BCIL is well placed in the Indian agrochemical market, led by a robust domestic portfolio with focus on in-licensing and regular launch of new products. Over the years, the Company has demonstrated speedy progress in broad basing its revenue mix by adding new clients, new geographies and new products. The Company aims to become a world class agrochemical manufacturer and preferred partner of choice by creating compelling value for its customers by leveraging its R&D capabilities. BCIL is relentlessly striving to improve its standards by benchmarking against the global best. The Company is also expanding its product portfolio by integrating backward for the manufacture of technical grade pesticides aiming to reduce its reliance on China for its raw materials.

The Company is well equipped with alternative products in the pipeline in the event of any negative headwinds in terms of regulatory ban of any product in any geography. BCIL will continue to derive strength from its experienced management and resourceful team, long track record of operations, advanced technology, talent and R&D skills, reputed customer base across the globe and increase in capacity as well as capabilities. The Company's investment in ERP will further drive its competitiveness in terms of improved efficiency level.

Although, COVID-19 has put uncertainty on the economic recovery of India and the world with increased fears of soaring

infection rate, new mutant of virus and access to vaccination, the overall outlook remains positive. The Government's financial support to farmers and other COVID-19 related relief measures are likely to propel farmer investments in crop inputs. The Company also remains on a strong footing for the long-term despite the challenges of global recession, currency risks and liquidity concerns.

RISK AND MITIGATION

Risks are an integral part of business operations and any Company is exposed to various internal and external risks. BCIL has developed and implemented a robust Risk Management Policy that monitors, identifies and suggests risk mitigation measures. This is reviewed periodically by the Board of Directors. A few inherent risks associated with the Company are discussed herein.

Type of Risk	Description	Mitigation Strategies & measures adopted
Economy Risk 	The recovery of the global economy could be weaker than expected even after the pandemic recedes soon. The reasons include lingering uncertainty about the return of the contagion, confidence failing to improve, establishment closures, massive job losses and purchasing power erosion and structural shifts in business and household behaviour, leading to more supply chain disruptions and weak aggregate demand.	The Company continuously monitors the business and economic environment, adapts new technologies and seeks ways to improve market penetration to counter such an event. The Company's wide and growing portfolio along with geographical diversification further insulates the risks.
Regulatory Risk 	Increased regulatory oversight and adverse changes to regulations in key markets could adversely impact the Company's business of operations.	BCIL works closely with various Indian regulatory agencies and international customers to keep track of the dynamic regulatory requirement. The Company keeps a plan in place to fine-tune and adjust the product portfolio in accordance with anticipated changes.
Innovation Risk 	The Company is exposed to the risk of inability to launch innovative products or failing to identify opportunities in terms of emerging trends. Further, inadequate investment in processes and technology and R&D could also adversely impact BCIL's business.	The Company's strong R&D team focuses on new and innovative processes to remain competitive in the market. BCIL is committed to further strengthen its R&D capabilities. Backed by its sustained R&D efforts, the Company already has a few products in pipeline. The promoters of the Company are technically qualified and they personally drive this initiative.
Competition Risk 	The Company might receive stiff competition from its peers in terms of new market entrants or change in marketing strategy by the competitors.	BCIL has proven competence in research and robust technical expertise in the industry. In addition to well diversified product portfolio, BCIL has built up strong customer relationship and brand equity over the years. The Company has invested in backward integration in terms of expanding its manufacturing capabilities to improve margins and meet the evolving needs of customers. The Company regularly interacts with customers to understand changing requirements and invests in the required technologies to stay ahead of the competitors.
Foreign Exchange Risk 	The Company imports some of the raw material while exports contribute more than 50% of the revenues in general. Any unfavourable movements in the exchange rate would adversely affect the Company's financials and results of operations.	BCIL evaluates exchange rate exposure arising from foreign currency transactions on a continuous basis. The Company uses natural hedge technique of adjusting foreign currency receivables against currency payables. The Company enters into foreign exchange forward contracts to hedge its exposure of foreign currency risk as per the Board laid down policy.

HUMAN RESOURCE

The Company takes pride in the commitment, competence and dedication shown by its employees in all areas of business and these are translated into action at all levels. To ensure good human resources management, the Company focuses on all aspects of the employee lifecycle. This provides a holistic experience to the employee as well. The Company has a structured induction process and management development programs to upgrade skills of managers. Objective appraisal systems based on Key Responsibility Areas are in place for all employees. BCIL is committed to nurturing, enhancing and retaining talent through superior Learning & Organizational Development. This serves as a critical pillar to support the organization's growth and its sustainability in long run.

Immediately after the outbreak of COVID-19, the Company adopted strong measures to safeguard the health of its employees. Work from Home (WFH), social distancing norms, regular sanitization of plant and office premises and enhanced safety measures were among the significant measures taken.

QUALITY AND COMPLIANCE

The Company adheres to the quality standards set for itself and meets the requirements of all its reputed domestic and MNC customers. The manufacturing facilities are in compliance with all the regulatory requirements

INTERNAL CONTROL

The Company has put in place adequate system of internal controls commensurate with its size and the nature of its operations. The Company follows stringent procedures, systems, policies and processes to ensure accuracy in financial information recording, asset safeguarding from unauthorised use, optimum use of resources and compliance with statutes and laws. The Company's internal control system covers the following aspects:

In view of the COVID-19 pandemic, the Ministry of Corporate Affairs ('MCA') vide its General Circular Nos.14/2020,17/2020 and 20/2020 dated 8th April 2020, 13th April 2020 and 5th May 2020, respectively and by General Circular No.02/2021 dated 13th January 2021, allowed companies whose AGMs were due to be held in the year 2020 or become due in the year 2021, to conduct their AGMs through Video Conferencing ("VC") or Other Audio Visual Means ("OAVM"), without the physical presence of the members at a common venue, in accordance with the requirements provided in paragraphs 3 and 4 of the General Circular No. 20/2020 dated 5th May 2020, ("MCA Circulars"). The Securities and Exchange Board of India ('SEBI') also issued Circular No. SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated 12th May 2020 the validity of which has been extended till December 31, 2021 by SEBI, vide its Circular No. SEBI/HO/CFD/CMD2/CIR/P/2021/11 dated January 15, 2021 ("SEBI Circulars"). In compliance with these Circulars, provisions of the Act and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), the 28th AGM of the Company is being conducted through VC/OAVM Facility, which does not require physical presence of members at a common venue. The deemed venue for the 28th AGM shall be the Registered Office of the Company.
2. Pursuant to MCA Circular No. 14/2020 dated April 08, 2020, the facility to appoint proxy to attend and cast vote for the members is not available for this 28th AGM, and hence the Attendance Slip and Proxy Form are not attached to this Notice. However, in pursuance of Section 112 and Section 113 of the Act, representatives of the Members may be appointed for participation in the 28th AGM through VC/OAVM and cast their votes through e-voting.
3. A statement as required under section 102 of the Companies Act, 2013, in respect of items of special business is annexed hereto.
4. Since the AGM will be held through VC/OAVM, the Route Map is not annexed to the Notice.
5. In accordance with the provisions of Section 152 of the Act and the Articles of Association of the Company, Sri D. Sadasivudu, Non-Executive Director of the

Company, retires by rotation at the 28th Annual General Meeting. But, Sri. D Sadasivudu (DIN: 00017637), has expressed his un-willingness to be re-appointed in the ensuing AGM in view of his advancing age.

Based on the current composition of the Directors of the Company, which is in compliance with the provisions of Companies Act 2013 and SEBI Listing Regulations, the Board resolved not to fill the vacancy, for the time being, caused by the retirement of Sri. D. Sadasivudu (DIN: 00017637) at the conclusion of the 28th Annual General meeting.

6. Dispatch of Annual Report through Electronic Mode

In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, and SEBI Circular dated May 12, 2020, Notice of the 28th AGM along with the Annual Report 2020-21 is being sent only through electronic mode to those Members whose email addresses are registered with the Company/ Depositories. Members may note that the Notice can also be accessed from the website of the Stock Exchanges i.e. BSE Limited at www.bseindia.com. The Notice and Annual Report 2020-21 is also disseminated on the Company's website www.bhagirad.com, and also on the website of CDSL at <https://www.evotingindia.com>

7. For receiving all communication (including Annual Report) from the Company electronically:

Members holding shares in physical mode and who have not registered / updated their email address with the Company are requested to register / update the same by writing to the Company with details of folio number, attaching a self-attested copy of PAN card and a photocopy of blank cancelled Cheque of their bank account at investor.bcil@bhagirad.com or to XL Softech Systems Limited at xlfield@rediffmail.com

Members holding shares in dematerialized mode are requested to register / update their email addresses with the relevant Depository Participant.

8. As per Regulation 40 of the Listing Regulations, as amended, securities of listed companies can be transferred only in dematerialized form with effect from April 1, 2019, except in case of request received for transmission or transposition of securities. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, members holding shares in physical

- form are requested to consider converting their holdings to dematerialized form. M/s. XL Softech Systems Limited, Plot No.3, Sagar Society, Road No.2, Banjara Hills, Hyderabad - 500 034 are the Registrar & Share Transfer Agents (RTA) of the Company. All communications in respect of share transfers, dematerialization and change in the address of the members may be communicated to the RTA.
9. M/s. S Singhvi & Co LLP, Chartered Accountants (FRN 003872S) was appointed as Statutory Auditors of the Company at the 24th Annual General Meeting held on September 26, 2017 to hold office till the conclusion of the 29th Annual General Meeting of the Company to be held in the year 2022. Pursuant to notification no: G.S.R. 432 (E) issued by the Ministry of Corporate Affairs Govt. of India on May 7, 2018 amending the provision of section 139 of the Companies Act, 2013 and the Rules framed there under, the mandatory requirement for ratification of appointment of Statutory Auditors by the Members at every Annual General Meeting (AGM) has been omitted/deleted and hence the Board is not proposing to the members for ratification of appointment of Statutory Auditors at this AGM. The Board of Directors was empowered by the shareholders of the company to fix the remuneration of the Statutory Auditor on yearly basis.
10. Members holding shares in the same name under different Ledger Folios are requested to apply for consolidation of such Folios and send the relevant share certificates to the RTA i.e. XL Softech Systems Limited at xlfield@rediffmail.com or the Company at investor.bcil@bhagirad.com.
11. The Corporate members intending to send their authorized representatives to attend the meeting are requested to send to the company a certified copy of the Board resolution authorizing their representative to attend and vote on their behalf at the meeting.
12. Members who hold shares in physical form can nominate a person in respect of all the shares held by them singly or jointly. Members who hold shares in single name are advised, in their own interest to avail the nomination facility. Members holding shares in dematerialized form may contact their respective depository participant(s) for recording nomination in respect of their shares.
13. Members seeking any information or clarification on the accounts are requested to send their queries to the Company, in writing, at least one week before the date of the meeting. Replies will be provided in respect of such written queries at the meeting.
14. Pursuant to the directions/notifications of Securities and Exchange Board of India (SEBI) and Depositories, the Demat account holders can operate their accounts if they had already provided Income Tax Permanent Account Number either at the time of opening of the account or at any time subsequently. In case they have not furnished the Income Tax Permanent Account Number to the Depository Participants, such Demat account holders are requested to contact their DPs with a photocopy of the PAN Card (with original PAN Card for verification), so that the frozen Demat accounts would be available for operation and further consequences of non-compliance with the aforesaid directives would be obviated. SEBI, vide Circular ref. no. MRD/Dop/Cir-05/2009 dated May 20, 2009 made it mandatory to have PAN particulars for registration of physical share transfer requests. Based on the directive contained in the said circulars, all share transfer requests are therefore to be accompanied with PAN details. Members holding shares in physical form can submit their PAN details to the Company at info@bhagirad.com / RTA i.e. XL Softech Systems Limited at xlfield@rediffmail.com.
15. Members may also note that the Notice of the 28th Annual General Meeting is available on the Company's website: www.bhagirad.com All documents referred to in the accompanying Notice and the Statement pursuant to Section 102(1) of the Companies Act, 2013 shall be open for inspection in electronic mode by the Members by writing an e-mail to the Company Secretary at cs@bhagirad.com.
- In compliance with the aforesaid MCA Circulars and SEBI Circular dated May 12, 2020, Notice of the AGM along with Annual Report 2020-21 is being sent only through electronic mode to those Members whose e-mail addresses are registered with the Company/ Depository Participants.
16. To support 'Green Initiative', members who have not registered their email addresses are requested to register the same with the Company's Registrar and Share Transfer Agent/ their Depository Participants in respect of shares held in physical/electronic mode, respectively.

17. Subject to receipt of requisite number of votes, the Resolutions proposed in the Notice shall be deemed as passed on the date of the Meeting, i.e., Tuesday, August 10, 2021.

The Instructions for Shareholders for Remote E-Voting are as under:

- (i) The voting period begins on August 6, 2021 at 9.00 am and ends on August 9, 2021, at 05.00 pm. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date i.e. August 3, 2021, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Board of Directors has appointed Sri Y. Ravi Prasada Reddy, Practicing Company Secretary, to act as Scrutinizer to conduct and scrutinize the electronic

voting process in connection with the ensuing Annual General Meeting in a fair and transparent manner. The members desiring to vote through electronic mode may refer to the detailed procedure on e-voting given hereunder.

- (iii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iv) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (v) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. COVID-19

The COVID-19 pandemic has emerged as a global challenge, creating disorder across the world. The economic impact of the pandemic in India has been largely devastating, which has resulted in fiscal strains, weakening of demand conditions and supply chain disruptions in the Indian agro-chemical industry.

Your Company has taken an active role in implementing all safety protocols related to COVID-19 as advised by the Government in the corporate office as well as at the Plant location. The Company adopted a work from home policy for non-site based employees during COVID-19 peak periods. The physical and emotional wellbeing of employees continues to be a top priority for the Company, with several initiatives to support employees and their families during the pandemic. The Company adhered to all the government advisories and guidelines thoroughly and in good faith.

The Company is taking all necessary measures in terms of mitigating the impact of the challenges being faced in the business and has put in place strict monitoring process for COVID-19 precautions ensuring the following:

- Sanitizing the premises on regular basis
- Maintenance of social distancing at all work places
- Enforcing wearing of masks and face shields
- Regular update of the health of all the employees and their families
- Ensuring that all employees have installed Aarogya Setu Mobile App

The Company has enabled benefits and extended services for all employees and eligible dependents during the COVID-19 pandemic & implemented precautions as follows:

- Proper hygienic working conditions are maintained
- Providing assistance in Vaccination for employees
- Health Insurance Facilities to all the employees and their family members.

Your Company has also contributed ₹ 21.58 lakhs (Rupees Twenty one lakh fifty eight thousand only) towards COVID-19 relief activities, out of its Corporate Social Responsibility budget of ₹ 25.00 lakhs (Rupees Twenty five lakhs only) for FY 2020-21.

In light of COVID-19 and its expected impact on the operating environment, the key priorities of the Company were: (a) to closely monitor supply chain, (b) conserve cash and (c) control fixed costs. During this period, the Company has also initiated digital interventions to honour its commitment to suppliers and partners.

Dividend

The alarming situation in the country today, created by the second wave of COVID-19 pandemic is unprecedented and could cause a serious economic dislocation in industry and commerce. The trend of increasing deaths and COVID-19 cases in the states of Telangana, Andhra Pradesh and elsewhere has given rise to supply side issues of certain critical raw materials, impacting production schedules of the Company in the short term. It is feared that further spread of virus may lead to imposition of curfews and lock-down by government, thereby hampering the production, sales and economic activity in general. Considering these uncertainties and in order to conserve resources, it was decided to not consider payment of dividend for 2020-21 despite better profits.

The company values its shareholder relationship and will make every effort it can to reward its shareholders appropriately once the situation improves. We are confident that the shareholders fully support its decision in these difficult times.

Dividend Distribution Policy

In terms of Regulation 43A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), the Company has formulated and adopted a Dividend Distribution Policy with the objective of providing clarity to its stakeholders on the profit distribution strategies of the Company. During the year, the said Policy has been reviewed by the Board of Directors of the Company and hosted on the website of the Company at <http://www.bhagirad.com/corporate.html>

Change in the nature of the business, if any

There is no change in the nature of the business of the Company or of its subsidiary, during the year under review.

Buy Back of shares and disinvestment

The Company has not bought back any of its securities and there was no disinvestment during the Financial Year ended March 31, 2021.

Deposits

Your Company has not accepted any deposits from the Directors/ Shareholders/Public falling within the ambit of Sections 73 and 74 of the Companies Act, 2013, read with the Companies (Acceptance of Deposits) Rules, 2014, during the year under review and hence there are no unpaid/unclaimed deposits nor amount of principal or interest on public deposits outstanding as on the Balance Sheet date.

Indian Accounting Standards (Ind AS)

The Company has adopted Indian Accounting Standards (Ind AS) with effect from April 1, 2017 pursuant to Ministry of Corporate Affairs' notification of the Companies (Indian Accounting Standards) Rules, 2015. The standalone and consolidated financial statements of the Company, forming part of the Annual Report, have been prepared and presented in accordance with all the material aspects of the Indian Accounting Standards ('Ind AS') as notified under section 133 of the Companies Act 2013 read with the Companies (Indian Accounting Standards) Rules 2015 (by Ministry of Corporate Affairs ('MCA')) and relevant amendment rules issued thereafter and guidelines issued by the Securities Exchange Board of India ("SEBI").

Consolidated Financial Statements

The Consolidated Financial Statements of the Company and its subsidiaries for FY 2020-21, are prepared in compliance with the applicable provisions of the Act and as stipulated under Regulation 33 of the Listing Regulations as well as in accordance with the Indian Accounting Standards notified under the Companies (Indian Accounting Standards) Rules, 2015. The Audited Consolidated Financial Statements together with the Auditor's Report thereon form part of this Annual Report.

Pursuant to the provisions of Section 136 of the Act, the Financial Statements of the Company, Consolidated Financial Statements along with relevant documents and separate annual accounts in respect of subsidiaries are available on the website of the Company. The annual accounts of the subsidiaries and related detailed information will be made available to investors seeking information till the date of the AGM.

Material changes and commitments affecting the financial position of the company between the end of the financial year and the date of the report

There are no material changes and commitments affecting financial position of the company, which occurred after the end of the financial year i.e., March 31, 2021.

Management Analysis

COVID-19 was not only a health crisis, it had far-reaching implications on the global economy also. The pandemic led to a sharp decline in global trade, lower commodity prices and tighter liquidity conditions.

The contraction in GDP seen in many countries, including India, was because of reduced economic activity and restricted mobility, due to COVID-19 as people curtailed discretionary spending and focused on essentials and precautionary savings due to the level of uncertainty. The pandemic affected both demand and supply, at least in the short-term. As lockdowns eased across the world, economic activity gradually started to recover.

The November RBI Consumer Confidence Survey showed that, while consumer sentiment was higher by November, compared to July and September 2020, it remained lower than in November 2019. Exports and imports both declined as a result of reduced consumer and industrial demand.

According to the Economic Survey 2020-2021, the government adopted a four-pillar strategy of containment, fiscal, financial, and long-term structural reforms. India had

good monsoons, and the Indian agriculture sector achieved record food grain production and registered positive growth despite the coronavirus pandemic. Rural consumption was stronger than urban demand.

According to India's Economic Survey 2020-2021, India remained a preferred investment destination in financial year 2020-21.

Risks and Threats

Global and Macro-Economic Factors:

Global and macro-economic factors may lead to an impact in demand and sharp inflation in commodity prices could create risks. Changes as a result of constricted movement impacted the global economy.

Information Technology Vulnerability:

As a result of COVID-19, the dependence on IT increased substantially because of the remote working conditions. However, excessive dependence on IT has also led to vulnerability to cyber-attacks. To address this, your Company has put in place a robust IT system and firewalls to mitigate any threats and risks.

Confronting Climate Emergency

Climate change continues to be a threat to the world. Your Company is committed towards addressing climate change and protecting the environment and has taken important steps towards conserving resources such as energy and water. Your Company is continuously reducing waste and emissions while simultaneously optimizing production operations.

Quality and Safety

Your Company's priorities during the pandemic were to keep its people safe, assure continued supply of essential products for its consumers and support its business partners.

Your Company organized regular awareness sessions for its employees on COVID-19 prevention measures, social distancing and sanitation. Your Company ensured stringent social distancing at workstations through installation of physical barriers as per the standard guidelines.

Management Discussion and Analysis

In terms of the provisions of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 as amended from time to time, the Management's Discussion and Analysis is provided in a separate section and forms an integral part of this Report.

Subsidiaries, Associates and Joint Ventures

During the year under review, your Company has incorporated a wholly owned Subsidiary Company, namely Bheema Fine Chemicals Private Limited "Bheema" (CIN: U24299TG2020PTC142050), on July 22, 2020, with its registered office at Plot no- 3, Sagar Society, Road No 2, Banjara Hills, Hyderabad-500034, with an object to set up an agrochemical manufacturing unit.

"Bheema" acquired 33.90 acres of industrial land from Karnataka Industrial Areas Development Board on 99 year lease basis in Kadegur Industrial Area, Yadgir District Karnataka, for setting up its manufacturing plant. The company is now in the process of seeking approvals from Ministry of Environment and Forests, Government of India. On receipt of necessary approvals, the construction works shall begin. The details of transactions with the subsidiary company are available in the AOC-1 which is forming part of the Annual Report as Annexure-I.

The Company's Policy on determining material subsidiaries, as approved by the Board, is uploaded on the Company's website at <http://www.bhagirad.com/corporate.html>

There are no associates or joint venture companies within the meaning of Section 2(6) of the Companies Act, 2013 ("Act"), and during the financial year under review, your Company has not added/removed any joint ventures or associate companies.

In accordance with Section 136 of the Companies Act, 2013, the audited financial statements, including the consolidated financial statements and related information of the Company and audited accounts of its wholly-owned Subsidiary are available on the website of your Company www.bhagirad.com. These documents will also be available for inspection during the business hours of the Company at its registered office in Hyderabad, India.

Directors and Key Managerial Personnel

Directors

None of the directors of the company is disqualified under the provisions of the Companies Act, 2013 ('Act') or under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. All Independent Directors have provided confirmations as provided under section 149(7) of the Act.

Appointment:

Pursuant to the recommendations of the Nomination and Remuneration Committee ('NRC'), the Board of Directors appointed Sri Kishor Shah (DIN: 00193288) and Dr G Aruna (DIN: 08978947) as Additional Directors of the Company with effect from September 14, 2020, and December 04, 2020, respectively, subject to approval of the Members at the ensuing AGM.

The Board recommends the appointment of Sri Kishor Shah (DIN: 00193288) and Dr G Aruna (DIN: 08978947) as Independent Directors of the Company by way of an Ordinary Resolution.

Cessation and Resignations:

During the year under review, Smt A. Lakshmi Sowjanya, (DIN: 06762052) Non-Executive Independent Director of the Company had resigned from the Board w.e.f. September 09, 2020 due to her personal reasons and other commitments. The Board placed on record its appreciation for the contribution and guidance provided by her during her tenure as Independent Director.

Retirement and Re-appointments:

In accordance with the provisions of Section 152 of the Act and the Articles of Association of the Company, Sri D. Sadasivudu, Non-Executive Director of the Company, retires by rotation at the 28th Annual General Meeting. But, Sri. D Sadasivudu (DIN: 00017637), has expressed his un-willingness to be re-appointed in the ensuing AGM in view of his advancing age.

Based on the current composition of Directors of the Company, which is in compliance with the provisions of Companies Act 2013 and SEBI Listing Regulations, the Board resolved not to fill the vacancy, for the time being, caused by the retirement of Sri. D. Sadasivudu (DIN: 00017637) at the conclusion of the 28th Annual General meeting.

The Board placed on record its deep sense of gratitude and appreciation for the invaluable contribution and guidance provided by him during his tenure as Director of the Company.

Independent Directors:

During the year under review, the following are the Independent Directors of the Company, in terms of Section 149 of the Act:

Name of the Director	DIN	Category
Sri. Sudhakar Kudva	02410695	Non-Executive Independent Director
Sri. G.S.V Krishna Rao	08199210	Non-Executive Independent Director

The Company has adopted the Governance Guidelines on Board Effectiveness to fulfill its corporate governance responsibility towards its stakeholders. The Governance Guidelines cover aspects relating to composition and role of the Board, Chairman and Directors, Board diversity, definition of independence, Director's term, retirement age and Committees of the Board. It also covers aspects relating to nomination, appointment, induction and development of Directors, Director's remuneration, subsidiary oversight, code of conduct, review of Board effectiveness and mandates of Committees of the Board.

Procedure for Nomination and Appointment of Directors

The Nomination and Remuneration Committee (NRC) is responsible for developing competency requirements for the Board based on the industry and strategy of the Company. The Board composition analysis reflects in-depth understanding of the Company, including its strategies, environment, operations, financial condition and compliance requirements.

NRC conducts a gap analysis to refresh the Board on a periodic basis, including each time a Director's appointment or reappointment is required. The Committee is also responsible for reviewing the profiles of potential candidates vis-à-vis the required competencies and meeting potential candidates, prior to making recommendations of their nomination to the Board. At the time of appointment, specific requirements for the position, including expert knowledge expected, is communicated to the appointee.

During FY 2020-21, the Board had also identified the list of core skills, expertise and competencies of the Board of Directors as are required in the context of the businesses and sectors applicable to the Company and those actually available with the Board. The Company has also mapped each of the skills, expertise and competencies against the names of the Board Members possessing the same.

Criteria for determining Qualifications, Positive Attributes and Independence of a Director

The NRC has formulated the criteria for determining qualifications, positive attributes and independence of Directors in terms of provisions of Section 178 (3) of the Act and the Listing Regulations. The relevant information has been given in Annexure-IX which forms part of this Report.

Nomination and Remuneration Policy

The Board has, on the recommendation of Nomination and Remuneration Committee, framed a policy for selection and appointment of Directors, Senior Management Personnel and their remuneration. The Nomination and Remuneration Policy adopted by the Board is available on the Company's website at <http://www.bhagirad.com/corporate.html>

Declaration from Directors

Your Company has received necessary declaration from all directors stating that they are not debarred or disqualified from being appointed or continuing as Directors of companies as per the Securities and Exchange Board of India, Reserve Bank of India, Ministry of Corporate Affairs or any such other Statutory Authority.

Evaluation of the Board

Pursuant to the provisions of the Act, and Regulation 17 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Board had carried out an annual evaluation of the Directors individually and of the committees of the Board.

A structured questionnaire was prepared after taking into consideration, inputs received from the Directors, covering aspects of the Board's functioning such as adequacy of the composition of the Board and its committees, execution and performance of specific duties, obligations and governance.

The performance of the Board and individual Directors was evaluated by the Board after seeking inputs from all the Directors. The criteria for performance evaluation of the Board was based on the Guidance Note issued by SEBI on Board Evaluation which included aspects such as Board composition and structure, effectiveness of Board processes, contribution in the long term strategic planning, etc. The performance of the Committees was evaluated by the Board after seeking inputs from the Committee Members. The criteria for performance evaluation of the Committees was based on the Guidance Note issued by SEBI on Board Evaluation which included aspects such as structure and composition of committees, effectiveness of committee meetings, etc.

In a separate meeting, the Independent Directors evaluated the performance of Non-Independent Directors and performance of the Board as a whole. They also evaluated the performance of the Chairman (as elected by the Board for each meeting of the Board of Directors)

taking into account the views of Executive Directors and Non-Executive Directors. The NRC reviewed the performance of the Board, its Committees and of the Directors. The same was discussed in the Board Meeting that followed the meeting of the Independent Directors and NRC, at which the feedback received from the Directors on the performance of the Board and its Committees was also discussed.

Significant highlights, learning and action points with respect to the evaluation were discussed by the Board. Appropriate actions were taken on the suggestions made by the Board during the Annual Evaluation process and presented to the Board.

Internal Controls

The Company has put in place adequate system of internal controls commensurate with its size and the nature of its operations. The Company's internal control system covers the following aspects:

- Financial propriety of business transactions.
- Safeguarding the assets of the Company.
- Compliance with prevalent statutes, regulations, management authorization, policies and procedures.

The Audit Committee of the Board periodically reviews audit plans, observations and recommendations of the internal and external auditors, with reference to the significant risk areas and adequacy of internal controls and keeps the Board of Directors informed of its observations, if any, from time to time.

Internal Financial Controls

Internal financial control systems of the Company have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable accounting standards and relevant statutes, safeguarding assets from unauthorized use, executing transactions with proper authorisation and ensuring compliance of corporate policies. The Company has a well-defined delegation of authority with specified limits for approval of expenditure, both capital and revenue. The Company uses an efficient accounting system to record day-to-day transactions for accounting and financial reporting.

The Audit Committee deliberated with the members of the management, considered the systems as laid down and met the internal auditors and statutory auditors to ascertain their views on the internal financial control systems. The Audit Committee satisfied itself as to the adequacy and effectiveness of the internal financial control system as laid down and kept the Board of Directors informed.

However, the Company recognizes that no matter how the internal control framework is, it has inherent limitations and accordingly, periodic audits and reviews are put in

place to ensure that such systems are updated on regular intervals.

Details of internal control system are given in the Management Discussion and Analysis Report, which forms part of this Annual Report.

Risk Management

During the year, the risk assessment parameters were reviewed and modified. The audit committee reviewed the elements of risk and the steps taken to mitigate the risks. In the opinion of the Board, there are no major elements of risk which have the potential of threatening the existence of the Company.

The audit committee provides the framework of Risk Management by describing mechanisms for the proactive identification and prioritization of risks based on the scanning of the external environment and continuous monitoring of internal risk factors.

Analysis of the risks identified is carried out by way of focused discussion at the meetings of the Board. The robust governance structure has also helped in the integration of the Enterprise Risk Management process with the Company's strategy and planning processes where emerging risks are used as inputs in the strategy and planning process. Identified risks are used as one of the key inputs in the strategy and business plan.

Corporate Governance Report

The Board of Directors of the Company has pleasure in presenting the Company's Report on Corporate Governance for the Financial Year 2020-21, pursuant to Regulation 34(3) read with Schedule V and other applicable provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulation').

1. Company's philosophy on code of governance:

The Company's philosophy on corporate governance oversees business strategies and ensures fiscal accountability, ethical corporate behavior and fairness to all stakeholders comprising regulators, employees, customers, vendors, investors and the society at large.

The Company has over the years followed best practices of Corporate Governance. Your Company is committed to the Company's Code of Conduct which articulates values and ideals that guide and govern the conduct of the company as well as its employees in all matters relating to business. The Company's overall governance framework, systems and processes reflect and support our Mission, Vision and Values.

Your Company's philosophy on corporate governance oversees business strategies and ensures fiscal accountability, ethical corporate behaviour and fairness to all stakeholders comprising regulators, employees, customers, vendors, investors and the society at large. The Company's corporate governance philosophy has been further strengthened through the BCIL Code of Conduct for Prevention of Insider Trading and the Code of Corporate Disclosure Practices ("Insider Trading Code").

Your Company has a strong legacy of fair, transparent and ethical governance practices and it believes that good Corporate Governance is essential for achieving long-term corporate goals and enhancing stakeholders' value. In this pursuit, the Company's Corporate Governance philosophy is to ensure fairness, transparency and integrity of the management, in order to protect the interests of all its stakeholders.

Your Company continues to strengthen its governance principles to generate long-term value for its various

stakeholders on a sustainable basis thus ensuring ethical and responsible leadership both at the Board and at the Management levels.

Your Company's Corporate Governance Framework ensures making timely disclosures and disclosing accurate information regarding the financial performance of the Company.

Your Company has adopted a Code of Conduct for its employees including the Managing Director, CEO, and other Executive and Non-Executive Directors including Independent Directors, which also suitably incorporates the duties of Independent Directors as laid down in the Companies Act, 2013 ('the Act'). The Company has also adopted the Guidelines on Board Effectiveness to fulfill its responsibilities towards its stakeholders.

Your Company has adhered to the requirements stipulated under Regulations 17 to 27 read with para C and D of Schedule V and clauses (b) to (i) of sub-regulation (2) of Regulation 46 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations') as applicable [including notifications and/or circulars by Ministry of Corporate Affairs (MCA) and Securities and Exchange Board of India (SEBI) in the wake of COVID-19], with regard to Corporate Governance and the same has been disclosed in this Report. The Company endeavours to ensure that highest standards of ethical and responsible conduct are met throughout the organisation.

Transparency and accountability are the two basic requirements of Corporate Governance. Responsible Corporate conduct is integral to the way the Company does the business. The actions are governed by the values and principles which are reinforced at all levels in your Company. The code of business is reflected in the continued commitments to ethical business practices across all the dealings.

Your Company firmly believes that Board independence is essential to bring objectivity and transparency in the management and in the dealings of your Company. As on March 31, 2021, the Board consists of nine

members out of which one (1) is Non-Executive Chairman, two (2) are Executive/ Whole-time Directors, four (4) are Non-Executive Independent Directors including one (1) Non- Executive Independent Woman Director and two (2) are Non-Executive Directors.

Ethics/Governance Policies:

Your company has adopted a set of policies and Codes and ensures that the business of your company is carried out in line with its core value systems. Your Company strives to conduct the business and strengthen the relationship in a manner that is dignified, distinctive and responsible. Your Company adheres to ethical standards to ensure integrity, transparency, independence and accountability in dealing with stakeholders. Your Company has adopted various codes and policies to carry out business in an ethical manner. Some of these codes and policies are:

- Code of Conduct & Ethics for Board & Senior Management
- Code of Conduct for Fair Disclosure of Unpublished Price Sensitive Information
- Code of Conduct to Regulate, Monitor & Report Trading by Insiders
- Policy on Related Party Transactions
- Corporate Social Responsibility Policy
- Sustainability Policy
- Nomination & Remuneration Policy
- Board Evaluation Framework
- Familiarisation Programme for Independent Directors
- Policy on Preservation of Documents
- Whistle Blower Policy
- Policy on Determination of Materiality of Events
- Business Responsibility Policy

Appropriate Governance Structure with defined roles and responsibilities:

Your Company has put in place an internal management structure with defined roles and responsibilities of every constituent of the system. The Company's shareholders appoint the Board of Directors, which in turn governs the Company. The Board has constituted four Committees to discharge its responsibilities in

an effective manner. The Company Secretary acts as the Secretary to all the Committees of the Board constituted under the Companies Act, 2013 and SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 as amended from time to time.

Board Leadership:

An enlightened Board consciously creates a culture of leadership to provide a long-term vision and policy approach to improve the quality of governance. The Board's actions and decisions are aligned with the Company's best interests. It is committed to the goal of sustainably elevating the Company's value creation. Your Company has defined guidelines and an established framework for the meetings of the Board and its Committees. These guidelines seek to methodize the decision making process at the meeting of the Board and its Committees in an informed and efficient manner.

The Board critically evaluates your Company's strategic direction, management policies and their effectiveness. The agenda for the Board reviews include strategic review from each of the Board committees, a detailed analysis and review of annual strategic and operating plans and capital allocation and budgets. Additionally, the Board reviews related party transactions if any, possible risks and risk mitigation measures and the financial reports. Frequent and detailed interaction sets the agenda and provides the strategic roadmap for the Company's future growth.

As the COVID-19 pandemic continues to disrupt every aspect of Business resulting in strained supply chains, liquidity concerns, financial strains, absent employees, a move to remote working: the list of operating challenges seems endless. Your Company has taken a proactive role in ensuring that the Company's operations are carried out efficiently during the pandemic.

2. Board of Directors:

Composition and category of Directors

The Board of your company bears the ultimate responsibility for the organization and administration of your company. It is vital to have a well-balanced Board with a combination of Executive, Non-Executive, Independent and Woman Directors on the Board of the Company to ensure Board's independence and effective management. As on 31st March, 2021,

the Company has nine Directors. Out of the nine Directors seven (i.e. 78%) are Non-Executive Directors out of which 4 (i.e. 35%) are Independent Directors. The composition of the Board is in conformity with Regulation 17 of the SEBI Listing Regulations read with Section 149 of the Act. The Board periodically evaluates the need for change in its composition and size.

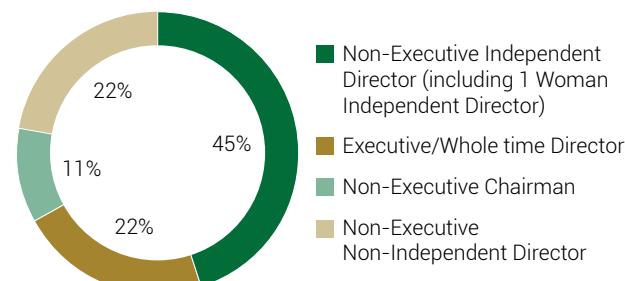

None of the Directors on the Board holds directorships in more than ten public companies. None of the Independent Directors serves as an independent director on more than seven listed entities. Necessary disclosures regarding Committee positions in other public companies as on 31st March, 2021 have been made by the Directors. None of the Directors are related to each other except Smt S. Lalitha Sree and Sri S. Chandra Sekhar.

Independent Directors are non-executive directors as defined under Regulation 16(1) (b) of the SEBI Listing Regulations read with Section 149(6) of the Act along with rules framed there under. In terms of Regulation 25(8) of SEBI Listing Regulations, declarations were received from the Independent Directors and the Board of Directors has confirmed

that all the independent Directors meet the criteria of independence as mentioned under Regulation 16(1) (b) of the SEBI Listing Regulations and that they are independent of the management.

The Company has an active, experienced, diverse and a well-informed Board. The Board along with its Committees undertakes its fiduciary duties keeping in mind the interests of all its stakeholders and the Company's Corporate Governance philosophy. The Nomination and Remuneration Committee of the Board ensures the right composition of the Board. As on March 31, 2021, the composition of the Board of Directors was as under:

Independent Directors

The Company currently has 4 Non-Executive Independent Directors comprising 44.4% of the total strength of the Board of Directors. Smt A. Lakshmi Sowjanya, Non-Executive Independent Director of the Company resigned from the Board w.e.f. September 9, 2020, for personal reasons. During the year, the Board of Directors based on the recommendations made by the Nomination & Remuneration committee, appointed Sri Kishor Shah and Dr G Aruna as Additional Directors (under the category Non-Executive Independent) with effect from September 14, 2020, and December 4, 2020, respectively, subject to approval of the shareholders in this Annual General Meeting.

Selection of Independent Directors:

Considering the requirement of skill sets on the Board, eminent people having an independent standing in their respective field/profession and who can effectively contribute to the Company's business and policy decisions are considered by the Nomination and Remuneration Committee for appointment as Independent Director on the Board. The Committee, inter alia, considers qualification, positive attributes, area of expertise and number of Directorships and Memberships held in various committees of other Companies by such persons in accordance with the Company's Policy for Selection of Directors and determining Directors' independence. The Board considers the Committee's recommendation, and takes appropriate decision.

Independence of Directors

The Company has received declaration from the Independent Directors confirming that they meet the criteria of independence as prescribed under Section 149(6) of the Act read with Regulation 16(1)(b) of the Listing Regulations. In terms of Regulation 25(8) of the Listing Regulations, the Independent Directors have confirmed that they are not aware of any circumstances or situations which exist or may be reasonably anticipated that could impair or impact their ability to discharge their duties.

In the opinion of the Board, the Independent Directors fulfill the conditions of independence specified in the Act and the Listing Regulations and are independent of the management.

Further, the Independent Directors of the Company have taken requisite steps towards the inclusion of their names in the data bank of Independent Directors maintained with the Indian Institute of Corporate Affairs in terms of Section 150 of the Act read with Rule 6 of the Companies (Appointment & Qualification of Directors) Rules, 2014.

Meetings of Independent Directors:

Pursuant to Schedule IV of the Companies Act, 2013 & Rules made there under and SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 as amended from time to time, the independent directors of the Company shall hold at least one meeting in a year, without the attendance of non-independent directors and members of the Management. The meeting shall review the performance of non-independent directors and the Board as a whole; review the performance of the Chairperson of the Board, taking into account the views of the executive directors and non-executive directors; assess the quality, quantity and timeliness of flow of information between the Management and the board that is necessary for it to effectively and reasonably perform its duties.

During the year under review, one meeting of the Independent Directors of the Company was held on January 28, 2021, as required under Schedule IV of the Act (Code of Independent Directors) and Regulation 25(3) of the Listing Regulations. At their Meeting, the Independent Directors reviewed the performance of Non-Independent Directors and the Board as a whole, and also assessed the quality, quantity and timeliness of flow of information between the Company's management and the Board that are necessary for the Board to effectively and reasonably perform their duties. The Meeting was attended by all the Independent Directors as on that date and Sri Sudhakar Kudva chaired the said Meeting.

Terms and Conditions of appointment of Independent Directors

All the Independent Directors of the Company have been appointed as per the provisions of the Act and the Listing Regulations. Formal letters of appointment are issued to the Independent Directors after their appointment by the Members. As required by Regulation 46 of the Listing Regulations, the terms and conditions of their appointment have been disclosed on the website of the Company at www.bhagirad.com.

Familiarisation programmes for Board Members

The Company has a familiarisation programme for its Independent Directors. The objective of the programme is to familiarise the Independent Directors to enable them to understand the Company, its operations, strategies, business, functions, policies, industry and environment in which it functions and the regulatory environment applicable to it and operations of its subsidiaries. These include orientation programme upon induction of new Directors as well as other initiatives to update the Directors on a continuous basis.

Pursuant to Regulation 25(7) of the Listing Regulations, the Company imparted various familiarisation programmes to its Directors including review of long-term strategy, industry outlook, regulatory updates at the Board and Audit Committee Meetings, Corporate Social Responsibility and Litigation updates. The Directors are also kept continuously updated by regularly sharing various useful articles relating to the Company's performance and operations.

During the year, as part of the induction programme, Dr. G Aruna, Independent Director visited the Company's plant at Ongole and met the leadership teams there. The Director spent entire day at the respective plant to get a deeper insight on the Company's operations. Pursuant to Regulation 46 of the Listing Regulations, the details of such familiarisation programme during the year FY 2020-21 are available on the website of the Company at www.bhagirad.com

Criteria for Determining Qualifications, Positive Attributes and Independence of Directors

1. Definition of Independence

- A director will be considered as an 'Independent Director' ('ID') if the person meets with the criteria for 'Independent Director' as laid down in the Companies Act, 2013 ('the Act') and SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015 ('Listing Regulations').
- The definition of Independent Director is as provided in the Act and Listing Regulations.
- Current and ex-employees of a the company may be considered as independent only if he/she has or had no pecuniary relationship with the company (due to employment/receipt of monthly pension by way of Special Retirement Benefits/holding consultant or advisor positions) during the two immediately preceding financial years or during the current financial year.

2. Qualifications of Directors

- Boards will ensure that a transparent board nomination process is in place that encourages diversity of thought, experience, knowledge, perspective, age and gender.
- It is expected that boards have an appropriate blend of functional and industry expertise.
- While recommending appointment of a director, it is expected that the Nomination and Remuneration Committee ('NRC') consider the manner in which the function and domain expertise of the individual contributes to the overall skill-domain mix of the Board.
- IDs ideally should be thought/practice leaders in their respective functions/domains.

3. Positive attributes of Directors

Directors are expected to comply with duties as provided in the Act. For reference, the duties of the Directors as provided by the Act are as follows:

- (i) Act in accordance with the articles of the company.
- (ii) Act in good faith in order to promote the objects of the company for the benefit of its members as a whole and in the best interests of the company, its employees, the shareholders, the community and for the protection of environment.
- (iii) Exercise duties with due and reasonable care, skill and diligence and exercise independent judgement.
- (iv) Not be involved in a situation in which he may have a direct or indirect interest that conflicts, or possibly may conflict, with the interest of the company.
- (v) Not achieve or attempt to achieve any undue gain or advantage either to himself or to his relatives, partners, or associates.
- (vi) Not assign his office.

Additionally, the Directors on the Board are also expected to demonstrate high standards of ethical behaviour, strong interpersonal and communication skills and soundness of judgement. IDs are also expected to abide by the 'Code for Independent Directors' as outlined in Schedule IV to Section 149(8) of the Act and adopted by the Board. The Code specifies the guidelines of professional conduct, role and function and duties of Independent Directors. The guidelines of professional conduct specified in the Code are as follows:

An Independent Director shall:

- (i) uphold ethical standards of integrity and probity;
- (ii) act objectively and constructively while exercising his duties;
- (iii) exercise his responsibilities in a bona fide manner in the interest of the company;
- (iv) devote sufficient time and attention to his professional obligations for informed and balanced decision making;
- (v) not allow any extraneous considerations that will vitiate his exercise of objective independent judgement in the paramount interest of the company as a whole, while concurring in or dissenting from the collective judgement of the Board in its decision making;
- (vi) not abuse his position to the detriment of the company or its shareholders or for the purpose of gaining direct or indirect personal advantage or advantage for any associated person;
- (vii) refrain from any action that would lead to loss of his independence;
- (viii) where circumstances arise which make an independent director lose his independence, the independent director must immediately inform the Board accordingly;
- (ix) assist the company in implementing the best corporate governance practices.

Independent Auditor's Report

To
The Members
of Bhagiradha Chemicals & Industries Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Bhagiradha Chemicals & Industries Limited** (the "Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Sl. No	Key Audit Matter	Auditor's Response
1	Net Realisable value of Finished Goods Finished goods inventory are valued at lower of cost or net realizable value. Considering that there is always a volatility in the Selling price of the Agro-Chemicals, which is dependent upon various market conditions, determination of net realizable value for these chemicals involves significant management judgement and therefore has been considered as a key audit matter. The total value of finished goods (Agrochemicals) as at 31 st March, 2021 is ₹ 20,23,36,625/- which is in accordance with the accounting policies referred to in Note no. 2.10(c).	<ol style="list-style-type: none">Evaluated the design of internal controls relating the management judgments and estimates relating to quantity, purity, fair value less costs to sell and also tested the operating effectiveness of the aforesaid controls.Obtained an understanding of the significant management judgements applied in determination of the quantity, purity and their fair value and assessed and tested the reasonableness of these judgements.Obtained the market information for the fair values and compare them with the rates considered by the management in determining the fair values.Assessed the appropriateness of the disclosure in the financial statements in accordance with the applicable financial reporting framework.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA's) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure

about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Annexure "B" to the Independent Auditor's Report of Even Date on the Financial Statements of Bhagiradha Chemicals & Industries Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Bhagiradha Chemicals & Industries Limited (the "Company") as of March 31, 2021 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

FOR THE YEAR ENDED 31ST MARCH, 2021

1. OVERVIEW OF THE COMPANY

Bhagiradha Chemicals & Industries Limited was incorporated on 7th July, 1993 in Hyderabad (Telangana). The Company is a public limited company incorporated and domiciled in India and has its registered office at 8-2-269/3/A, Plot No 3, Sagar Society, Road No 2, Banjara Hills, Hyderabad - 500 034 (TS). It is incorporated under the Companies Act and its shares are listed on the Bombay Stock Exchange. It has got its manufacturing facility in Ongole, Prakasam District of Andhra Pradesh and is engaged in manufacture of Agrochemicals.

2. SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation & compliance with IND AS

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other relevant provisions of the Act. The financial statements of the company are prepared in accordance with the Indian Generally Accepted Accounting Principles (GAAP) on accrual basis and under the historical cost convention, except for the following material items that have been measured at fair value as required by the relevant Ind AS.

- Certain financial assets and liabilities are measured at fair value (Refer accounting policy on financial instruments)
- Defined benefit and other long term Employee Benefits.
- Current versus non current classification: All the assets and liabilities have been classified as current and non current as per the Company's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

2.2 Uses of Estimates & judgments

The preparation of Financial Statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenue and expenses and disclosure of contingent liabilities. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements and reviewed on an ongoing basis. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Any revision to accounting estimates is recognised prospectively in current and future periods.

2.3 Measurement of Fair Values

The accounting policies and disclosures require the measurement of fair values for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values, which includes overseeing all significant fair value measurements, including Level 3 fair values by the management. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 - Quoted price (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted price included in Level 1 that are observable for the

Notes to Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

- Level 3 - Inputs for the asset or liability that is not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.4 Property, Plant and Equipment and Depreciation

- a) Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost includes taxes, duties, freight and other incidental expenses directly related to acquisition/construction and installation of the assets. Any trade discounts and rebates are deducted in arriving at the purchase price.
- b) Subsequent expenditure is capitalised only when cost can be measured reliably and it is probable that the future benefits will flow to the company.
- c) Capital work-in-progress includes fixed assets not ready for their intended use and related incidental expenses and attributable interest.
- d) Expenditure during construction period: Expenditure (direct & indirect) incurred during the construction period which are attributable to acquisition / construction of fixed assets, will be capitalized with the respective Plant, Property & Equipment at the time of commissioning of such assets.

- e) The estimated useful life of assets is as follows:

Building	30 - 60 Years
Plant and equipment	20 - 25 Years
Plant and equipment - R & D	10 Years
Furniture and fixtures	10 Years
Vehicles	8 Years
Office equipment	5 Years
Computer and data processing equipment	3 Years

- f) Leasehold improvements and leasehold land are amortized over the lease term except for lease hold land acquired under perpetual lease.
- g) Depreciation on tangible fixed assets (property, plant and equipment) has been provided on Straight Line Method. Depreciation is provided on a pro-rata basis, i.e. from the date on which asset is ready for use. Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted, if appropriate.
- h) Items of fixed assets that are held for disposal are stated at the lower of their net book value and net realizable value and are shown separately under other current assets in the financial statements. Any expected loss is recognized immediately in the Statement of Profit and Loss.
- i) An item of property, plant and equipment is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal are recognised in the Statement of Profit and Loss.

2.5 Intangible Assets

- a) Intangible assets are stated at cost of acquisition less accumulated amortisation and accumulated impairment losses, if any.
- b) Subsequent expenditure related to an item of intangible assets is added to its book value, only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Notes to Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

- c) In respect of Intangible fixed assets amortised on straight line basis - Technical know how @ 5.28 % p.a., computer software over a period of useful life of 3 years and product development expenses are to be amortised over a period of their useful life of 4 years.
- d) An intangible asset is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal of fixed assets carried at cost are recognised in the Statement of Profit and Loss.

2.6 Impairment of Property, Plant and Equipment

The carrying values of assets at each balance sheet date are reviewed for impairment, if any indication of impairment exists.

2.7 Borrowing Costs

Borrowing costs incurred on constructing or acquiring a qualifying asset are capitalized as cost of that asset until it is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue and recognized as an expense in the Statement of Profit and Loss.

2.8 Research and Development Cost

Research and development costs incurred for development of products are expensed as incurred, except for development costs that relate to the design and testing of new or improved materials, products or processes, which are recognized as an intangible asset to the extent that it is technically feasible to complete the development of such asset and future economic benefits are expected to be generated from such assets. Capital expenditure on research and development is included as part of assets and depreciated on the same basis as other assets.

2.9 Non Current Assets held for Sale

Non-current assets are classified as held for sale, if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Such assets are generally measured at the lower of their carrying amount and fair value less costs to sell. Losses on initial classification as held for sale and subsequent gains and losses on re-measurement are recognised as profit or loss. Once classified as held-for-sale they are no longer amortised or depreciated.

2.10 Inventories

- a) Inventories are valued at lower of cost or net realizable value on an item-by-item basis.
- b) Cost of finished goods, traded goods and work in progress is determined by considering materials, labour and other related costs incurred in bringing the inventories to their present condition and location. Cost of raw materials, packing materials and consumables is determined on weighted average basis.
- c) Cost of Finished goods and work in progress: Cost includes cost of direct materials, labour and other related costs incurred in bringing the inventories to their present condition & location.
- d) Goods in transit are valued at cost which represents the cost incurred up to the stage at which the goods are in transit.

2.11 Cash and Cash Equivalents

Cash comprises of cash at bank and on hand and cash equivalents comprise of short-term bank deposits with an original maturity of three months or less.

2.12 Cash Flow Statement

Cash flows are reported using indirect method as set out in IND AS 7, "Statement of Cash Flows", whereby profit / (loss) before tax is adjusted for the effects of transactions of non cash nature and deferrals of accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.13 Leases

A lease is classified at the inception date as finance lease or an operating lease. Leases under which the Company assumes substantially all the risk and rewards of ownership are classified as finance leases. When acquired, such assets are capitalised

Notes to Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

at fair value or present value of the minimum lease, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of Profit and loss. Other leases are treated as operating leases, with payments recognised as expenses in the statement of profit and loss on a straight line basis over the lease term. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets, the Company assesses whether:

- (i) the contact involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

As a lessee, the Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment/primary period of lease. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate.

Generally, the Company uses its incremental borrowing rate as the discount rate. Lease payments included in the measurement of the lease liability comprise the fixed payments, including in substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method.

The Company has used number of practical expedients when applying Ind AS 116: - Short term leases, leases of low-value assets and single discount rate.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term.

2.14 Revenue Recognition

- a) Sale of goods is recognized as revenue when the significant risks and rewards of ownership of the goods have been passed on to the buyer. Revenues are recognized when collectability of the resulting receivable is reasonably assured. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.
- b) Income from services rendered is recognized based on agreements with the customers using the proportionate completion method, when services are performed and no significant uncertainty exists regarding the amount of the consideration that will be derived from rendering of service.
- c) Export incentives are recognised when the right to receive credit as per the terms of incentives is established in respect of exports made.

Notes to Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

- d) Interest income is recognized on a time proportionate basis, taking into account the amount outstanding and the rates applicable. For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate method to the net carrying amount of the financial assets.

2.15 Income Tax

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law), deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period) and Minimum Alternate Tax (MAT) credit entitlement.

a) Current Tax

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

b) Deferred Tax

"Deferred tax is recognised in respect of temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised

to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income (OCI) or directly in equity.

Deferred tax assets and liabilities are offset only if: a) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity"

c) Minimum Alternate Tax

MAT is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised, it is credited to the statement of profit & loss and is considered as (MAT credit entitlement). The Company reviews the same

Notes to Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

at each Balance Sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period. MAT credits are in the form of unused tax credits that are carried forward by the Company for a specified period of time, hence, it is presented as Deferred Tax Asset.

2.16 Employee Benefits

Employee benefits payable wholly within twelve months of receiving employees services are classified as short-term employee benefits. The short term employee benefits are accounted on undiscounted basis during the accounting period based on services rendered by employees.

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Company contributes to statutory provident fund in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 that is a defined contribution plan and contribution paid or payable is recognized as an expense in the period in which the employee renders services. Superannuation benefits, a defined contribution plan, has been funded with Life Insurance Corporation of India (LIC) and the contribution is charged to Statement of profit and loss, when the contribution to the Fund is due.

II. Defined benefit plans

The Company provides for gratuity benefit and compensated absences, which are defined benefit plans, covering all its eligible employees. Liability towards gratuity benefits and compensated absences expected to occur after twelve months, is determined using the Projected Unit Credit Method. Actuarial valuations are carried out at the

balance sheet date. Remeasurements of the net defined benefit liability, which comprises actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The retirement benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets. The gratuity benefit and compensated absences scheme is funded with the Life Insurance Corporation of India (LIC). The short term provision for compensated absences has been calculated on undiscounted basis, based on the balance of leave available over and above the maximum accumulation allowed as per the company's policy.

2.17 Foreign Currency Transactions

- a) Initial recognition-Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount, the exchange rate between the functional currency and the foreign currency at the date of the transaction.
- b) Subsequent measurement- Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items that are measured based on historical cost in a foreign currency are not translated.

2.18 Provisions and Contingencies

- a) A provision is recognised, if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an

Notes to Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

- b) A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation of a present obligation in respect of which the likelihood of outflow of resources is remote, no provision disclosure is made.

2.19 Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

2.20 Earnings per Share

Basic EPS is calculated by dividing the net profit or loss before OCI for the year by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted EPS, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.21 Operating Cycles

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Based on the nature of products/activities of the Company, the management has

determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.22 Dividend

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and Interim dividends are recorded as a liability on the date of declaration by the Company's board of directors.

2.23 Financial Instruments

a) Financial Assets

i) Recognition and initial measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value through profit and loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the statement of profit and loss.

ii) Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Any gain or loss on derecognition is recognised in the statement of profit and loss.

Financial assets at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Other net gains and losses are recognised

Notes to Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the statement of profit and loss.

Financial assets at fair value through profit (FVTPL)

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit and loss.

Financial instruments measured at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to the statement of profit and loss.

iii) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost

e.g., loans, debt securities, deposits, and bank balance.

- Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, It recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

b) Financial Liabilities

i) Recognition and initial measurement

All financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial liability is initially measured at fair value, in case of financial liability which is recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the issue of a financial liability.

ii) Subsequent measurement

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL, if it is classified as held-for-trading, or as a derivative or if designated as such on initial recognition. Financial liabilities 'at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. 'Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss on derecognition is also recognised in the statement of profit and loss.

iii) Derecognition

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Company also derecognises a financial liability when its

Notes to Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability is extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

iv) Setting off financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends

either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

c) Derivative Financial Instruments

The Company uses derivative financial instruments, such as forward currency contracts to hedge its interest rate risk. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any changes therein are generally recognised in the profit and loss account.

Notes Forming Part of the Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

21.2 Term loans I, II & III sanctioned by Axis Bank Ltd are secured by exclusive first charge on fixed assets created out of the term loans extended by the term lender and paripassu first charge on the movable fixed assets (Except vehicles) and immovable fixed assets of the Company (including EM of the Company land and buildings but excluding agricultural lands lying in the name of the Company not charged to any bank) along with other lenders except assets funded out of term loans I, II & III and personal guarantee of Sri S Chandra Sekhar, Managing Director of the Company & Smt. S Lalitha Sree, Director of the Company and pledge of 6,66,000 shares of the promoters exclusively in favour of Axis Bank Ltd. However, pledge of 6,66,000 shares of promoters stood released as on 31.03.2021.

21.3 Term Loans sanctioned under GECL 2.0 of ₹ 2.90 Cr & ₹ 1.79 Cr by State Bank of India & Axis Bank Ltd, respectively are secured by extension of charge / security interest (both primary & collateral) currently secured to the banks for their existing credit facilities on a second ranking basis.

21.4 Government of Andhra Pradesh vide letter No.20/2/6/1369/ID dated 08-10-1996 and letter No.30/1/2002/0300/0300/ FD dated 10-04-2002 had sanctioned sales tax deferment for an amount of ₹ 9,18,54,000/- and ₹ 5,14,50,510/- respectively for a period of 14 years to the Company in respect of Chlorpyrifos plant. The sanction of ₹ 9,18,54,000/- under letter No.20/2/6/1369/ID dated 08-10-1996 has expired its utilization on 28th February, 2010 and sanction of ₹ 5,14,50,510/- under letter No.30/1/2002/0300/0300/ FD dated 10-04-2002 has expired its utilisation on 14th February, 2016. The Company has availed an aggregate deferment loan of ₹ 5,63,16,735/- under the above sanctions. The repayment has commenced and an amount of ₹ 2,66,70,167/- has been paid. However, the deferment amount payable for the years 2019-20 & 2020-21 aggregating to ₹ 56,15,611/- was placed in the form of fixed deposits with banks as per orders of the Honourable High Courts of AP & TG. Thus the liability under sales tax deferment reflected is inclusive of the above deposits.

21.5 Loan availed from Intercorporates have been taken with the repayment period of two years from the date of availing such loan. The Interest is paid at the rate of 10% per annum on the principal outstanding.

21.6 Loan availed from Directors have been taken with the repayment period of two years from the date of availing such loan. The Interest is paid at the rate of 10% per annum on the principal outstanding.

Notes Forming Part of the Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

The management assessed that cash and cash equivalents, trade receivables, trade payables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. Further, the management has assessed that fair value of borrowings approximate their carrying amounts largely since they are carried at floating rate of interest.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

51. RISK MANAGEMENT

Financial Risk Management objectives & Policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's activity exposes it to market risk, commodity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company, the Company evaluates various options and may enter into derivative financial instruments like foreign exchange forward contracts, foreign currency option contracts in order to hedge certain foreign currency risk exposures and interest rate swaps to hedge variable interest rate exposures. Derivatives, if entered into, are used exclusively for hedging purposes and not as trading or speculative instruments.

The Company's financial risk management policy is set by the Managing Director and governed by overall direction of Board of Directors of the Company. Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rate, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

51.1 Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed.

To manage this, the Company periodically assesses financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

a) Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:

(in ₹)

Particulars	March 31, 2021	March 31, 2020

	596,578,174	114,925,908

Notes Forming Part of the Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

The Company allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of loss (e.g. timeliness of payments, available press information etc.) and applying experienced credit judgment. Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Given that the macro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of minimal credit losses to continue.

b) Cash and Cash Equivalents

The Company held cash and cash equivalents of ₹ 31,87,323 at March 31, 2021 (March 31, 2020: ₹ 2,74,89,321). This includes the cash and cash equivalents held with the bank and the cash on hand with the Company.

51.2 Liquidity Risk

Liquidity risk is the risk in terms of difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has obtained fund and non-fund based working capital loan from bank. The borrowed funds are generally applied for Company's own operational activities.

Exposure to liquidity risk:

a) The following are the remaining contractual maturities of financial liabilities at the reporting date.

The amounts are gross and undiscounted :

b) Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. The company's exposure to the risk of changes in the market interest rate relates primarily to

Notes Forming Part of the Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

the company's long term debt obligations with floating interest rates. The company's interest rate exposure is mainly related to variable interest rates debt obligations. The Company manages the liquidity and fund requirements for its day to day operations like working capital, suppliers/buyers credit.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. Borrowings issued at fixed rates exposes to fair value interest rate risk. The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

Particulars	(in ₹)	
	March 31, 2021	March 31, 2020

Total	603,411,302	411,978,917

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

The risk estimates provided assume a change of 25 basis points interest rate for the interest rate benchmark as applicable to the borrowings summarised above. This calculation assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date assuming that all other variables, in particular foreign currency exchange rates, remain constant. The period end balances are not necessarily representative of the average debt outstanding during the period.

Cash flow sensitivity (net)	Profit or loss	
	25 bp increase	25 bp decrease
31-Mar-21		
Variable rate loan instruments	1,508,528	(1,508,528)
31-Mar-20

51.3 a) Market Risk

Market risk is the possibility of losses that may be incurred by the company due to factors that affect the overall performance of the company – such as foreign exchange rates, interest rates, recessions etc. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily due to the fluctuations in the rate of interest for borrowings from banks, recession in the market, foreign exchange rate fluctuation etc.

b) Currency Risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income, where any transaction references more than one currency or where

Notes Forming Part of the Standalone Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar against the functional currencies of the Company. The Company, as per its risk management policy, uses natural hedge technique of adjusting foreign currency receivables against currency payables. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. Exposure to all other foreign currencies other than US Dollar is not material.

c) Exposure to currency risk

The currency profile of financial assets and financial liabilities as at March 31, 2021 & March 31, 2020 are in Indian Rupees.

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against US dollars and Pounds at March 31 would have affected the measurement of financial instruments denominated in US dollars and Pounds and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

d) **Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

52. CAPITAL RISK MANAGEMENT

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves. The primary objective of the Company's Capital Management is to maximize shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using adjusted net debt to equity ratio. For this purpose, adjusted net debt is defined as total debt less cash and bank balances.

Independent Auditor's Report

To
The Members
of Bhagiradha Chemicals & Industries Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Bhagiradha Chemicals & Industries Limited** (the "Company") and its subsidiaries (the Company and its subsidiaries together referred to as the "Group") which comprise the Consolidated Balance Sheet as at March 31, 2021, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2021 and their consolidated profit, their consolidated total comprehensive income, their consolidated changes in

equity and their consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sl. No Key Audit Matter

1 Net Realisable value of Finished Goods

Finished goods inventory are valued at lower of cost or net realizable value. Considering that there is always a volatility in the Selling price of the Agro-Chemicals, which is dependent upon various market conditions, determination of net realizable value for these chemicals involves significant management judgement and therefore has been considered as a key audit matter.

The total value of finished goods (Agro chemicals) as at 31st March, 2021 is ₹ 20,23,36,625/- which is in accordance with the accounting policies referred to in Note no. 2.10(c).

Auditor's Response

- Evaluated the design of internal controls relating the management judgments and estimates relating to quantity, purity, fair value less costs to sell and also tested the operating effectiveness of the aforesaid controls.
- Obtained an understanding of the significant management judgements applied in determination of the quantity, purity and their fair value and assessed and tested the reasonableness of these judgements.
- Obtained the market information for the fair values and compare them with the rates considered by the management in determining the fair values.
- Assessed the appropriateness of the disclosure in the financial statements in accordance with the applicable financial reporting framework.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Boards of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial

statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.

In preparing the consolidated financial statements, the respective Boards of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intend to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate

with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Company as on March 31, 2021 taken on record by the Boards of Directors of the Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting and the

operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Company and its subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended.

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.
- ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts including derivative contracts;
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary companies incorporated in India.

Annexure "A" to the Independent Auditor's Report of Even Date on the Financial Statements of Bhagiradha Chemicals & Industries Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2021, we have audited the internal financial controls over financial reporting of **Bhagiradha Chemicals & Industries Limited** (hereinafter referred to as the "Company") and its subsidiary companies, incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Boards of Directors of the Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI") and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note

require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and

expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to Consolidated Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

1. OVERVIEW OF THE COMPANY

Bhagiradha Chemicals & Industries Limited (herein referred to as 'the Parent Company' or the 'the Company') together with its subsidiaries (together referred to as 'the Group') carries on the business of manufacturing and sales of Agro Chemicals. It is incorporated under the Companies Act and its shares are listed on the Bombay Stock Exchange. The registered office of the Company is at 8-2-269/3/A, Plot No 3, Sagar Society, Road No 2, Banjara Hills, Hyderabad - 500 034 (TS)

PRINCIPLES OF CONSOLIDATION

1.1 Business Combination

In accordance with Ind AS 103, the group accounts for these business combinations using the acquisition method when control is transferred to the group. The consideration transferred for the business combination is measured at fair value as at the date the control is acquired (acquisition date), as are the net identifiable assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in Other Comprehensive Income (OCI) and accumulated in equity as capital reserve if there exists clear evidence of the underlying reasons for classifying the business combination as resulting in a bargain purchase; otherwise the gain is recognised directly in equity as capital reserve. Transaction costs are expensed as incurred, except to the extent related to the issue of debt or equity securities. Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured subsequently and settlement is accounted for within equity. Other contingent consideration is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in the consolidated statement of profit and loss. If a business combination is achieved in stages, any previously held equity interest in

the acquiree is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in the consolidated statement of profit and loss or OCI, as appropriate.

1.2 Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The Subsidiary companies considered in the Consolidated Financial Statements are as follows:

Name of the Company	Bheema Fine Chemicals & Industries Limited
Country of incorporation	India
% age voting power held as at 31 March 2021	100%
% age voting power held as at 31 March 2020	N.A

1.3 Non Controlling Interests

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

1.4 Loss of Control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in consolidated statement profit or loss.

Notes to Consolidated Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

1.5 Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intragroup transactions, are eliminated.

2. SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation & compliance with IND AS

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other relevant provisions of the Act. The financial statements of the company are prepared in accordance with the Indian Generally Accepted Accounting Principles (GAAP) on accrual basis and under the historical cost convention, except for the following material items that have been measured at fair value as required by the relevant Ind AS.

- Certain financial assets and liabilities are measured at fair value (Refer accounting policy on financial instruments)
- Defined benefit and other long term Employee Benefits.
- Current versus non current classification: All the assets and liabilities have been classified as current and non current as per the Company's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

2.2 Uses of Estimates & judgments

The preparation of Consolidated Financial Statements in conformity with the generally accepted accounting principles requires management to make estimates and

assumptions that affect the reported amounts of assets and liabilities, revenue and expenses and disclosure of contingent liabilities. The estimates and assumptions used in the accompanying consolidated financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the consolidated financial statements and reviewed on an ongoing basis. Actual results may differ from the estimates and assumptions used in preparing the accompanying consolidated financial statements. Any revision to accounting estimates is recognised prospectively in current and future periods.

2.3 Measurement of Fair Values

The accounting policies and disclosures require the measurement of fair values for both financial and non-financial assets and liabilities. The Group has an established control framework with respect to the measurement of fair values, which includes overseeing all significant fair value measurements, including Level 3 fair values by the management. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 - Quoted price (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted price included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Notes to Consolidated Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

- Level 3 - Inputs for the asset or liability that is not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.4 Property, Plant and Equipment and Depreciation

- a) Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost includes taxes, duties, freight and other incidental expenses directly related to acquisition/construction and installation of the assets. Any trade discounts and rebates are deducted in arriving at the purchase price.
- b) Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company.
- c) Capital work-in-progress includes fixed assets not ready for their intended use and related incidental expenses and attributable interest.
- d) Expenditure during construction period: Expenditure (direct & indirect) incurred during the construction period which are attributable to acquisition / construction of fixed assets, will be capitalized with the respective Plant, Property & Equipment at the time of commissioning of such assets.

- e) The estimated useful life of assets are as follows:

Building	30 - 60 Years
Plant and equipment	20 - 25 Years
Plant and equipment - R & D	10 Years
Furniture and fixtures	10 Years
Vehicles	8 Years
Office equipment	5 Years
Computer and data processing equipment	3 Years

- f) Leasehold improvements and leasehold land are amortized over the lease term except for lease hold land acquired under perpetual lease.
- g) Depreciation on tangible fixed assets (property, plant and equipment) has been provided on Straight Line Method. Depreciation is provided on a pro-rata basis, i.e. from the date on which asset is ready for use. Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted, if appropriate.
- h) Items of fixed assets that are held for disposal are stated at the lower of their net book value and net realizable value and are shown separately under other current assets in the financial statements. Any expected loss is recognized immediately in the Statement of Profit and Loss.
- i) An item of property, plant and equipment is eliminated from the consolidated financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal are recognised in the consolidated Statement of Profit and Loss.

2.5 Intangible Assets

- a) Intangible assets are stated at cost of acquisition less accumulated amortisation and accumulated impairment losses, if any.
- b) Subsequent expenditure related to an item of intangible assets is added to its book value, only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Notes to Consolidated Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

- c) In respect of Intangible fixed assets amortised on straight line basis - Technical know how @ 5.28 % p.a., computer software over a period of useful life of 3 years and product development expenses are to be amortised over a period of their useful life of 4 years.
- d) An intangible asset is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal of fixed assets carried at cost are recognised in the Statement of Profit and Loss.

2.6 Impairment of Property, Plant and Equipment

The carrying values of assets at each balance sheet date are reviewed for impairment, if any indication of impairment exists.

2.7 Borrowing Costs

Borrowing costs incurred on constructing or acquiring a qualifying asset are capitalized as cost of that asset until it is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue and recognized as an expense in the Consolidated Statement of Profit and Loss.

2.8 Research and Development Cost

Research and development costs incurred for development of products are expensed as incurred, except for development costs that relate to the design and testing of new or improved materials, products or processes, which are recognized as an intangible asset to the extent that it is technically feasible to complete the development of such asset and future economic benefits are expected to be generated from such assets. Capital expenditure on research and development is included as part of assets and depreciated on the same basis as other assets.

2.9 Non Current Assets held for Sale

Non-current assets are classified as held for sale, if it is highly probable that they will be recovered primarily through sale rather than through

continuing use. Such assets are generally measured at the lower of their carrying amount and fair value less costs to sell. Losses on initial classification as held for sale and subsequent gains and losses on re-measurement are recognised as profit or loss. Once classified as held-for-sale they are no longer amortised or depreciated.

2.10 Inventories

- a) Inventories are valued at lower of cost or net realizable value on an item-by-item basis.
- b) Cost of finished goods, traded goods and work in progress is determined by considering materials, labour and other related costs incurred in bringing the inventories to their present condition and location. Cost of raw materials, packing materials and consumables is determined on weighted average basis.
- c) Cost of Finished goods and work in progress : Cost includes cost of direct materials, labour and other related costs incurred in bringing the inventories to their present condition & location.
- d) Goods in transit are valued at cost which represents the cost incurred up to the stage at which the goods are in transit.

2.11 Cash and Cash Equivalents

Cash comprises of cash at bank and on hand and cash equivalents comprise of short-term bank deposits with an original maturity of three months or less.

2.12 Cash Flow Statement

Cash flows are reported using indirect method as set out in IND AS 7, "Statement of Cash Flows", whereby profit / (loss) before tax is adjusted for the effects of transactions of non cash nature and deferrals of accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

Notes to Consolidated Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

2.13 Leases

A lease is classified at the inception date as finance lease or an operating lease. Leases under which the Group assumes substantially, all the risk and rewards of ownership are classified as finance leases. When acquired, such assets are capitalised at fair value or present value of the minimum lease, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of Profit and loss. Other leases are treated as operating leases, with payments recognised as expenses in the statement of profit and loss on a straight line basis over the lease term.

The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets, the Group assesses whether:

- (i) the contact involves the use of an identified asset
- (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Group has the right to direct the use of the asset.

As a lessee, the Group recognises a right of-use asset and a lease liability at the lease commencement date. The right of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method

from the commencement date to the earlier of the end of the useful life of the right of-use asset or the end of the lease term.

The estimated useful lives of right of-use assets are determined on the same basis as those of property and equipment/primary period of lease. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate.

Generally, the Group uses its incremental borrowing rate as the discount rate. Lease payments included in the measurement of the lease liability comprise the fixed payments, including in substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method.

The Group has used number of practical expedients when applying Ind AS 116: - Short term leases, leases of low-value assets and single discount rate.

The Group has elected not to recognise right of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term.

2.14 Revenue Recognition

- a) Sale of goods is recognized as revenue when the significant risks and rewards of ownership of the goods have been passed on to the buyer. Revenues are recognized when collectability of the resulting receivable is reasonably assured. Revenue from the sale of goods is measured at the fair value of the consideration received or

Notes to Consolidated Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

- receivable, net of returns and allowances, trade discounts and volume rebates.
- b) Income from services rendered is recognized based on agreements with the customers using the proportionate completion method, when services are performed and no significant uncertainty exists regarding the amount of the consideration that will be derived from rendering of service.
 - c) Export incentives are recognised when the right to receive credit as per the terms of incentives is established in respect of exports made.
 - d) Interest income is recognized on a time proportionate basis, taking into account the amount outstanding and the rates applicable. For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate method to the net carrying amount of the financial assets.

2.15 Income Tax

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law), deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period) and Minimum Alternate Tax (MAT) credit entitlement.

a) Current Tax

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

b) Deferred Tax

"Deferred tax is recognised in respect of temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income (OCI) or directly in equity.

Deferred tax assets and liabilities are offset only if: a) The entity has a legally

Notes to Consolidated Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

enforceable right to set off current tax assets against current tax liabilities; and b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity”

c) Minimum Alternate Tax

MAT is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised, it is credited to the statement of profit & loss and is considered as (MAT credit entitlement). The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period. MAT credits are in the form of unused tax credits that are carried forward by the Company for a specified period of time, hence, it is presented as Deferred Tax Asset.

2.16 Employee Benefits

Employee benefits payable wholly within twelve months of receiving employees services are classified as short-term employee benefits. The short term employee benefits are accounted on undiscounted basis during the accounting period based on services rendered by employees.

I. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Group contributes to statutory provident fund in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 that is a defined contribution plan and contribution paid or payable is recognized as an expense in the period in which the employee renders services. Superannuation benefits, a defined contribution plan, has been funded with Life Insurance Corporation of India (LIC) and the contribution is charged to Statement of profit and loss, when the contribution to the Fund is due.

II. Defined benefit plans

The Group provides for gratuity benefit and compensated absences, which are defined benefit plans, covering all its eligible employees. Liability towards gratuity benefits and compensated absences expected to occur after twelve months, are determined using the Projected Unit Credit Method. Actuarial valuations are carried out at the balance sheet date. Remeasurements of the net defined benefit liability, which comprises actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The retirement benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets. The gratuity benefit and compensated absences scheme is funded with the Life Insurance Corporation of India (LIC). The short term provision for compensated absences has been calculated on undiscounted basis, based on the balance

Notes to Consolidated Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

of leave available over and above the maximum accumulation allowed as per the company's policy.

2.17 Foreign Currency Transactions

- a) Initial recognition-Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount, the exchange rate between the functional currency and the foreign currency at the date of the transaction.
- b) Subsequent measurement- Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items that are measured based on historical cost in a foreign currency are not translated.

2.18 Provisions and Contingencies

- a) A provision is recognised, if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.
- b) A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible

obligation of a present obligation in respect of which the likelihood of outflow of resources is remote, no provision disclosure is made.

2.19 Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

2.20 Earnings per Share

Basic EPS is calculated by dividing the net profit or loss before OCI for the year by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted EPS, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.21 Operating Cycles

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Based on the nature of products/ activities of the Group, the management has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.22 Dividend

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and Interim dividends are recorded as a liability on the date of declaration by the Company's board of directors.

Notes to Consolidated Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

2.23 Financial Instruments

a) Financial Assets

i) Recognition and initial measurement

Financial assets are recognised when the Group becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value through profit and loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the statement of profit and loss.

ii) Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Any gain or loss on derecognition is recognised in the statement of profit and loss.

Financial assets at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the statement of profit and loss.

Financial assets at fair value through profit (FVTPL)

These assets are subsequently measured at fair value. Net gains and losses, including any

interest or dividend income, are recognised in the statement of profit and loss.

Financial instruments measured at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to the statement of profit and loss.

iii) Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- Trade receivables.
The application of simplified approach does not require the Group to track

changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

b) Financial Liabilities

i) Recognition and initial measurement

All financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument. A financial liability is initially measured at fair value, in case of financial liability which is recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the issue of a financial liability.

ii) Subsequent measurement

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL, if it is classified as held-for-trading, or as a derivative or if designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss on derecognition is also recognised in the statement of profit and loss.

iii) Derecognition

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability is extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

iv) Setting off financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

c) Derivative Financial Instruments

The Group uses derivative financial instruments, such as forward currency contracts to hedge its interest rate risk. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any changes therein are generally recognised in the profit and loss account.

FOR THE YEAR ENDED 31ST MARCH, 2021

22.2 Term loans I, II & III sanctioned by Axis Bank Ltd are secured by exclusive first charge on fixed assets created out of the term loans extended by the term lender and paripassu first charge on the movable fixed assets (Except vehicles) and immovable fixed assets of the Company (including EM of the Company land and buildings but excluding agricultural lands lying in the name of the Company not charged to any bank) along with other lenders except assets funded out of term loans I, II & III and personal guarantee of Sri S Chandra Sekhar, Managing Director of the Company & Smt. S Lalitha Sree, Director of the Company and pledge of 6,66,000 shares of the promoters exclusively in favour of Axis Bank Ltd. However, pledge of 6,66,000 shares of promoters stood released as on 31.03.2021.

22.3 Term Loans sanctioned under GECL 2.0 of ₹ 2.90 Cr & ₹ 1.79 Cr by State Bank of India & Axis Bank Ltd, respectively are secured by extension of charge / security interest (both primary & collateral) currently secured to the banks for their existing credit facilities on a second ranking basis.

22.4 Government of Andhra Pradesh vide letter No.20/2/6/1369/ID dated 08-10-1996 and letter No.30/1/2002/0300/0300/FD dated 10-04-2002 had sanctioned sales tax deferment for an amount of ₹ 9,18,54,000/- and ₹ 5,14,50,510/- respectively for a period of 14 years to the Company in respect of Chlorpyrifos plant. The sanction of ₹ 9,18,54,000/- under letter No.20/2/6/1369/ID dated 08-10-1996 has expired its utilization on 28th February, 2010 and sanction of ₹ 5,14,50,510/- under letter No.30/1/2002/0300/0300/FD dated 10-04-2002 has expired its utilisation on 14th February, 2016. The Company has availed an aggregate deferment loan of ₹ 5,63,16,735/- under the above sanctions. The repayment has commenced and an amount of ₹ 2,66,70,167/- has been paid. However, the deferment amount payable for the years 2019-20 & 2020-21 aggregating to ₹ 56,15,611/- was placed in the form of fixed deposits with banks as per orders of the Honourable High Courts of AP & TG. Thus the liability under sales tax deferment reflected is inclusive of the above deposits.

22.5 Loan availed from Inter corporates have been taken with the repayment period of two years from the date of availing such loan. The Interest is paid at the rate of 10% per annum on the principal outstanding.

22.6 Loan availed from Directors have been taken with the repayment period of two years from the date of availing such loan. The Interest is paid at the rate of 10% per annum on the principal outstanding.

50. FAIR VALUES

The carrying amounts and fair values of financial instruments by category are as follows:

(in ₹)

Particulars	Carrying value		Fair value	
	March 31, 2021	March 31, 2020	March 31, 2021	March 31, 2020
Financial assets at fair value through profit & loss				
Investments	-	-	-	-
Financial Assets at amortised cost				
Loans	22,492,624	22,442,624	-	-

Capital Creditors & Others	25,359,567	219,833,018	-	-

The management assessed that cash and cash equivalents, trade receivables, trade payables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. Further, the management has assessed that fair value of borrowings approximate their carrying amounts largely since they are carried at floating rate of interest.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

51. RISK MANAGEMENT

Financial Risk Management objectives & Policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's activity exposes it to market risk, commodity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company, the Company evaluates various options and may enter into derivative financial instruments like foreign exchange forward contracts, foreign currency option contracts in order to hedge certain foreign currency risk exposures and interest rate swaps to hedge variable interest rate exposures. Derivatives, if entered into, are used exclusively for hedging purposes and not as trading or speculative instruments.

The Company's financial risk management policy is set by the Managing Director and governed by overall direction of Board of Directors of the Company. Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rate, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

Notes Forming Part of the Consolidated Financial Statements

FOR THE YEAR ENDED 31ST MARCH, 2021

51.1 Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

a) Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:

Particulars	March 31, 2021	March 31, 2020
Not Due		
0 - 90 Days	515,276,427	89,153,591
90 - 180 Days	68,813,703	4,177,396
180 - 270 Days	11,328,000	14,544,367
270 - 365 Days	-	521,872
More than 360 Days	1,160,044	6,528,682
	596,578,174	114,925,908

The Company allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of loss (e.g. timeliness of payments, available press information etc.) and applying experienced credit judgment. Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Given that the macro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of minimal credit losses to continue.

b) Cash and Cash Equivalents

The Company held cash and cash equivalents of ₹ 35,07,909 at March 31, 2021 (March 31, 2020: ₹ 2,74,89,321). This includes the cash and cash equivalents held with the bank and the cash on hand with the Company.

51.2 Liquidity Risk

Liquidity risk is the risk in terms of difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has obtained fund and non-fund based working capital loan from bank. The borrowed funds are generally applied for Company's own operational activities.

b) Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. The company's exposure to the risk of changes in the market interest rate relates primarily to the company's long term debt obligations with floating interest rates. The company's interest rate exposure is mainly related to variable interest rates debt obligations. The Company manages the liquidity and fund requirements for its day to day operations like working capital, suppliers/buyers credit.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. Borrowings issued at fixed rates exposes to fair value interest rate risk. The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

The risk estimates provided assume a change of 25 basis points interest rate for the interest rate benchmark as applicable to the borrowings summarised above. This calculation assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date assuming that all other variables, in particular foreign currency exchange rates, remain constant. The period end balances are not necessarily representative of the average debt outstanding during the period.

Cash flow sensitivity (net)	Profit or loss	
	25 bp increase	25 bp decrease
31-Mar-21		
Variable rate loan instruments	1,508,528	(1,508,528)
31-Mar-20		
Variable rate loan instruments	1,029,947	(1,029,947)

51.3 a) Market Risk

Market risk is the possibility of losses that may be incurred by the company due to factors that affect the overall performance of the company – such as foreign exchange rates, interest rates, recessions etc. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily due to the fluctuations in the rate of interest for borrowings from banks, recession in the market, foreign exchange rate fluctuation etc.

b) Currency Risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar against the functional currencies of the Company. The Company, as per its risk management policy, uses natural hedge technique of adjusting foreign currency receivables against currency payables. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. Exposure to all other foreign currencies other than US Dollar is not material.

d) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

52. CAPITAL RISK MANAGEMENT

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves. The primary objective of the Company's Capital Management is to maximize shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using adjusted net debt to equity ratio. For this purpose, adjusted net debt is defined as total debt less cash and bank balances.
